## Financial Review

### Income Analysis

#### Net Interest Income

The Bank's net interest income on a consolidated basis increased ¥50.8 billion, or 8.4%, to ¥653.3 billion (US\$6,155 million) from the previous fiscal year. This increase was mainly

due to the decrease of interest expenses, reflecting the reduction of deposits in the International Banking Group.

#### Provision for Possible Loan Losses

On a consolidated basis, the Bank decreased its provision for possible loan losses ¥245.4 billion, from ¥469.4 billion in fiscal 1998, ended March 31, 1999, to ¥224.0 billion (US\$2,110 million) in fiscal 1999, ended March 31, 2000. On a non-consolidated basis, the Bank disposed of nonaccrual loans to strengthen its credibility and financial position and recognized ¥449.9 billion (US\$4,238 million) in loan losses. This total in-

cluded a provision and written-off claims of ¥293.4 billion (US\$2,764 million) based on the result of the Bank's self-assessment; losses of ¥35.2 billion (US\$331 million) arising from financial assistance provided to supported companies; and losses of ¥121.2 billion (US\$1,141 million) on sales of nonaccrual loans and others.

#### Fees and Commissions, Net

Fees and commissions (income) decreased ¥1.0 billion, or 0.6%, to ¥186.2 billion (US\$1,754 million), because of a reduction in the fees and commissions in the International Banking Group. Fees and commissions (expenses) decreased by ¥4.9 billion, or 6.9%, to ¥66.4 billion (US\$625 million).

Fees and commissions, net, therefore, rose ¥3.8 billion, or 3.3%, to ¥119.7 billion (US\$1,128 million). Other includes fees and commissions from deposit and loan operations and securities operations.

## Other Operating Income, Net

Other operating income on a consolidated basis decreased ¥5.2 billion, or 5.0%, to ¥99.2 billion (US\$935 million). This decrease reflected primarily decreases in gains on sales of bonds in the domestic market.

Other operating expenses increased ¥27.1 billion, or 66.7%, to ¥67.8 billion (US\$639 million), due mainly to the leasing subsidiary's cost.

Thus, other operating income, net, on a consolidated basis decreased ¥32.3 billion, or 50.8%, to ¥31.3 billion (US\$295 million).

### Asset Portfolio

The Bank's total assets fell ¥519.3 billion, or 1.1%, to ¥48,495.6 billion (US\$456,859 million). This decrease was mainly due to the transfer of the reserve for possible loan losses from liabilities to the assets side as a deduction item.

### Loan Portfolio

Loans and bills discounted at the end of fiscal 1999 were ¥32,333.2 billion (US\$304,599 million), which constituted 66.7% of total assets. Loans and bills discounted decreased by ¥629.6 billion, or 1.9% from the previous fiscal year-end. This decrease was due primarily to the decrease of overseas loans and bills discounted, the appreciation of the Japanese yen, the direct deduction of the claims of "virtual bankruptcy" and "legal bankruptcy" exceeding the estimated value of those claims' collateral or guarantees and the disposition of nonaccrual loans.

The Bank's loans and bills discounted on a non-consolidated basis fell ¥351.3 billion, or 1.1%, to ¥31,939.9 billion (US\$300,894 million). The breakdown for outstanding loans and bills discounted on a non-consolidated basis included ¥28,836.3 billion (US\$271,656 million) for domestic lending and ¥3,103.5 billion (US\$29,236 million) for international lending.

### Securities Portfolio

To substantially increase the soundness of its assets, the Bank reviews its holdings of securities periodically, and, as a result, the Bank's securities portfolio on a consolidated basis

increased ¥663.8 billion, or 10.6%, to ¥6,928.7 billion (US\$65,273 million).

### Funding

Total liabilities at the end of fiscal 1999 were ¥45,967.8 billion (US\$433,045 million), which represented a ¥569.1 billion, or 1.2%, decrease from the previous year-end due

primarily to a decrease in time deposits of ¥2,401.5 billion, or 15.5%, from the previous fiscal year-end because of low domestic interest rates.

## Reserves

Reserve for possible loan losses was reported on the liabilities side in the previous period. Beginning this period, reserve for possible loan losses is presented on the last line of assets side of the balance sheet in a lump sum as a deduction item. Total reserves fell ¥686.5 billion, to ¥137.8 billion (US\$1,298 million), on a consolidated basis, reflecting, in particular, a decrease of ¥682.1 billion (US\$6,425 million) in the liabilities by the change of the method.

The "reserve for possible loan losses" has been established based on the Bank's internal rules for establishing a reserve for possible loan losses.

Customers are initially classified into 10 categories, in accordance with the Bank's own credit rating system. All claims that the Bank extended to its customers are then classified into five categories, including "normal," "caution," "possible bankruptcy," "virtual bankruptcy" and "legal bankruptcy," as defined by the report of the Japanese Institute of Certified Public Accountants.

The reserve for possible loan losses is calculated based on the specific actual past loss ratio for normal and caution categories and the fair value of the collateral for collateral-secured loans and other factors of solvency for other self-assessment categories.

For foreign claims, there is a reserve for loans to restructuring countries which has been established based on losses estimated by considering political and economic situations in those countries.

All claims are being assessed by the branches and credit supervision divisions based on the Bank's internal rules for the self-assessment of asset quality. The Asset Review and Inspection Division, which is independent from branches and credit supervision divisions, conducts audits of these assessments, and a reserve is established based on the audit results.

## Capital Resources

Total stockholders' equity rose ¥34.0 billion, or 1.6%, to ¥2,208.5 billion (US\$20,805 million), on a consolidated basis. The Bank declared cash dividends of ¥3.00 per common share for the first half and ¥3.00 for the second half of fiscal 1999, bringing the total annual dividend to ¥6.00 per share. Cash dividends of ¥7.50 per Series II Preferred Stock were declared for the first and second halves of the fiscal year;

thus, the total annual dividend per Series II Preferred Stock was ¥15.00 per share. Also, cash dividends of ¥6.85 per Series III Preferred Stock (Type-2) were declared for the first and second halves of the fiscal year; thus, the total annual dividend per Series III Preferred Stock (Type-2) was ¥13.70 per share.

## Capital Adequacy

The Bank's capital ratio on a consolidated basis, as of March 31, 2000, based on requirements established by the Bank for International Settlements, was 12.53%, 0.2 percentage point higher than at March 31, 1999. Risk-adjusted assets fell ¥677.6 billion, to ¥32,721.5 billion (US\$308,258 million),

at the fiscal year-end as a result of the reduction in overseas interest-earning assets caused by appreciation of the yen. Total qualifying capital decreased by ¥19.7 billion, to ¥4,100.8 billion (US\$38,632 million).

# Notes to Consolidated Financial Statements

Years Ended March 31, 2000 and 1999  
The Sakura Bank, Limited and Subsidiaries

## 1. Basis of Consolidated Financial Statements and Summary of Significant Accounting Policies

### (a) Basis of Consolidated Financial Statements

The accompanying consolidated financial statements have been prepared on the basis of accounting principles and practices generally accepted in Japan and in conformity with the "Consolidated Financial Statements Regulation" which may differ to some degree from accounting principles and practices generally accepted in countries and jurisdictions other than Japan and are compiled from the consolidated financial statements as required by the Securities and Exchange Law of Japan.

Certain reclassifications and rearrangements have been made to present the accompanying consolidated financial statements in a form which is familiar to readers outside Japan. In addition, the accompanying notes include information which is not required under accounting principles and practices generally accepted in Japan, but is presented herein as additional information.

References to fiscal 1999 and fiscal 1998 are to the Bank's fiscal years ended March 31, 2000 and 1999, respectively.

As permitted by the Securities and Exchange Law of Japan, amounts less than one million yen have been omitted. As a result, the totals do not necessarily agree with the sum of the individual amounts.

The Consolidated Statements of Cash Flows were not required as part of the basic financial statements in Japan until fiscal 1998 but were presented as additional information for the convenience of readers outside Japan for fiscal 1998. Effective April 1, 1999, the Bank adopted the new accounting standards for cash flows, which differ from those applied prior to fiscal 1999; the consolidated statement of cash flows for fiscal 1998 is not restated to be in conformity with the new standards.

The U.S. dollar amounts shown in the accompanying consolidated financial statements and notes thereto represent the arithmetical results of translating original Japanese yen amounts of respective account balances to U.S. dollars on a basis of ¥106.15 to US\$1, the exchange rate effective at the latest balance sheet date of March 31, 2000. The inclusion of such dollar amounts is solely for convenience and is not intended to imply that yen amounts have been or could have been converted, realized or settled in dollars at that or at any other rate.

### (b) Principles of Consolidation

The consolidated financial statements of The Sakura Bank, Limited (the "Bank") include accounts of the Bank and its significant subsidiaries. Major consolidated subsidiaries for fiscal 1999 are listed below:

Name	Location	Percentage Ownership
Sakura Securities Co., Ltd.	Tokyo	100%
Manufacturers Bank	Los Angeles	100%
Sakura Finance International Limited	London	100%
Sakura Finance Australia Limited	Sydney	100%

Under the control and influence concept, those companies in which the Bank, directly or indirectly, is able to exercise control over operations are to be fully consolidated and those companies in which the Bank, directly or indirectly, is able to exercise significant influence over operation are to be accounted for by the equity method.

The change of earned surplus arising from the change in the consolidation scope is recognized as "Adjustment of Earned Surplus Due to the Change of Scope of Consolidated Subsidiaries" and "Adjustment of Earned Surplus Due to the Change of Scope of Companies Accounted for Using the Equity Method" in the Consolidated Statements of Earned Surplus for the year ended March 31, 1999.

The number of consolidated subsidiaries and affiliates as of March 31, 2000 and 1999, was as follows:

	2000	1999
Consolidated Subsidiaries	51	53
Subsidiaries and Affiliates accounted for using the equity method	32	39

The net decrease in the number of consolidated subsidiaries and equity method subsidiaries and affiliates listed above is mainly due to stock sales or mergers whereby consolidation or equity method accounting for certain subsidiaries or affiliates was no longer required. The decrease was partially offset by the establishment of new subsidiaries, the purchase of additional stock or the injection of capital that required their consolidation or the equity method of accounting.

All significant intercompany transactions, account balances and unrealized profits and losses have been eliminated in consolidation.

The financial statements of consolidated subsidiaries, whose fiscal year-ends are principally December 31, are included in the consolidated financial statements on the basis of their respective fiscal years after making appropriate adjustments for significant transactions during the periods from their respective year-ends to the date of the consolidated financial statements.

Any difference between the cost of an investment in a consolidated subsidiary and the Bank's share of the underlying equity in the net assets fair value of the consolidated subsidiary is charged or credited to income, as the case may be, in the year incurred.

#### **(c) Translation of Foreign Currency Financial Statements**

- (i) The financial statements of foreign consolidated subsidiaries and affiliates are translated into Japanese yen at exchange rates as of the balance sheet date, except for stockholders' equity, which is translated at the historical exchange rate. Differences arising from such translation are shown as other assets in the accompanying consolidated balance sheets.
- (ii) (a) Foreign currency denominated assets and liabilities and the accounts of overseas branches are translated into yen at the exchange rates prevailing at the balance sheet date, except that certain assets and liabilities are translated at the relevant historical exchange rates.  
 (b) Foreign currency accounts held by consolidated foreign subsidiaries are translated into the currency of the subsidiary at the respective year-end exchange rates.

#### **(d) Valuation of Trading Account Activities**

Trading account positions representing earnings or losses derived from trades made for the purpose of seeking to capture gains arising from short-term changes in interest rates, currency exchange rates, or market prices of securities and other market-related indices or from gaps among markets are included in trading assets and trading liabilities on a trade date basis.

Trading securities and monetary claims purchased for trading purposes recorded in these accounts are stated at market value and financial derivatives related to trading transactions are stated at the amounts that would be settled if they were terminated at the end of the fiscal year.

Trading revenue and trading expenses include interest received and paid, the amount of increase/decreases in evaluation gains/losses on the balance sheet date for securities and monetary claims, and amounts of increases/decreases of evaluation gains/losses incurred from the estimated settlement price assuming settlement in cash on the balance sheet date for derivatives, compared with that at the end of the previous term.

**(e) Valuation of Securities**

Securities held by the Bank and its domestic banking subsidiaries are carried at cost determined by the moving average method. Values of securities held in individually managed money trusts for asset management purposes are determined by the same method.

Securities held by other consolidated subsidiaries are principally carried at cost, determined primarily by the moving average method.

**(f) Depreciation Method**

Premises and equipment are stated at cost less accumulated depreciation.

Depreciation of premises and equipment owned by the Bank and its domestic banking subsidiaries is computed by the declining-balance method over the estimated useful lives of the relevant assets while the straight-line method is applied to buildings acquired on or after April 1, 1998.

Depreciation of premises and equipment owned by other consolidated subsidiaries is principally computed by the straight-line method over the estimated useful lives of the relevant assets.

Capitalized software for internal use is depreciated by the straight-line method based on the Bank and its subsidiaries' estimated useful lives (mainly five years). Capitalized software for internal use was included in other assets.

**(g) Accounting for Leases**

All leases by the Bank and its domestic consolidated subsidiaries have been accounted for as operating leases. Under Japanese accounting standards for leases, if finance leases where the ownership of the property is deemed to transfer to the lessee are capitalized, while other finance leases can be accounted for as operating leases if necessary information is disclosed in the notes to the lessee's consolidated financial statements.

**(h) Reserve for Possible Loan Losses**

The reserve for possible loan losses of the Bank has been established based on the Bank's internal rules for establishing a reserve for possible loan losses.

Customers are initially classified into ten categories, in accordance with the Bank's own credit rating system. All claims that the Bank extended to its customers are classified into five categories for self-assessment purposes such as "normal," "caution," "possible bankruptcy," "virtual bankruptcy" and "legal bankruptcy," as defined by the report of the Japanese Institute of Certified Public Accountants.

The reserve for possible loan losses was calculated based on the specific actual past loss ratio for normal and caution categories as a general reserve, and the fair value of the collateral for collateral-dependent loans and other factors of solvency for other self-assessment categories for a specific reserve. For collateral or guaranteed claims of "virtual bankruptcy" and "legal bankruptcy," the amount exceeding the estimated value of collateral or guarantees was deducted, as deemed uncollectible, directly from those claims. The deducted amount was ¥1,125,967 million and ¥1,457,662 million for fiscal 1999 and 1998, respectively.

For foreign claims, there is a reserve for loans to restructuring countries which has been established based on losses estimated by considering political and economic situations in those countries.

All claims are being assessed by the branches and credit supervision divisions based on the Bank's internal rules for the self-assessment of asset quality. The Assets Review and Inspection Division, which is independent from branches and credit supervision divisions, conducts audits of these assessments.

The consolidated subsidiaries provide reserves for possible loan losses at the amounts considered reasonable in accordance with local accounting standards and also based on prior experience with loan losses.

**(i) Reserve for Retirement Allowances and Pension Plans**

Under most circumstances, employees of the Bank terminating their employment are entitled to certain severance payments based on the rate of pay at the time of termination, years of service and certain other factors. If the termination is involuntary, employees are usually entitled to greater payments than in the case of voluntary termination. The accrued provision for retirement allowances of the Bank is calculated to state the estimated liability at the amount which would be required if all employees eligible for retirement allowances were to voluntarily terminate their employment at the balance sheet date.

In addition, the Bank has a contributory pension plan for eligible employees. The unamortized balance of prior service costs at March 31, 1999 (based on the latest available accounts of the pension plan), was ¥60,758 million. Prior service costs are being amortized and the remaining amortization period is 15 years.

Consolidated subsidiaries principally have funded pension plans for employees.

**(j) Reserve for Possible Losses from Loans Sold to CCPC**

The reserve for possible losses from loans sold to Cooperative Credit Purchasing Company, Limited (CCPC), is made to provisions in amounts which it views to be necessary based on estimates of possible losses it may sustain in the future on loans sold to the CCPC, taking account of the value of real estate collateral securing these loans.

**(k) Land Revaluation Excess**

Under the Law of Land Revaluation, effective on March 31, 1998, the Bank elected the one-time revaluation for its own-use land to current value based on real estate appraisal information as of March 31, 1998. Continuous readjustment is not permitted unless the value of the land subsequently declines significantly such that the amount of the decline in value should be removed from the land revaluation excess (or the reserve for unrealized application of land) account and deferred income tax liabilities. The amount equivalent to the tax on the revaluation is provided as deferred tax liability for land revaluation, and the remaining amount after the deferred tax liability is included in stockholders' equity as land revaluation excess.

The details of the one-time revaluation were as follows:

The date of land revaluation: March 31, 1998

The revaluation of land used for banking business was rationally made, reflecting appropriate adjustments for land shape, timing of the appraisal, etc., based on the appraisal reports for real estate issued by real estate appraisers under Law of Land Revaluation.

The excess of book value over current value was ¥29,181 million as of March 31, 2000 and ¥12,265 million as of March 31, 1999.

**(l) Income Taxes**

Deferred income taxes relating to temporary differences between financial and tax reporting have been recognized.

**(m) Cash and Cash Equivalents**

Cash and cash equivalents consist of cash on hand and demand deposits with the Bank of Japan.

**(n) Appropriation of Earned Surplus**

Cash dividends are recorded in the financial year that the relevant proposed appropriation of earned surplus is approved by the Board of Directors and/or at the General Meeting of Stockholders.

**(o) Net Income Per Share**

Net income per share calculations represent net income less dividends on preferred shares, divided by the weighted average number of outstanding shares of common stock during the respective year.

The calculation considers the dilutive effect of common stock equivalents which includes preferred shares and certain convertible bonds, assuming that all convertible bonds and preferred shares were converted into common stock. Diluted net income per common share is to be appropriately adjusted for free distributions of common stock. For fiscal 1998, however, this calculation of dilution is not applicable due to a net loss. For fiscal 1999, diluted net income per common share is not applicable because it is anti-dilutive.

**(p) Differences between the Accounting Principles and Practices Adopted in the Accompanying Consolidated Financial Statements and International Accounting Standards**

The accompanying consolidated financial statements conform with accounting principles and practices generally accepted in Japan. Such principles and practices differ from International Accounting Standards in several respects, such as methods for valuation of securities, accounting for leases and accounting for pension plans, among others.

"Past due loans" includes loans classified as "possible bankruptcy" and "virtual bankruptcy" under the Bank's self-assessment guidelines. Accrual interest receivable for these categories is not recognized as accrual for accounting purposes.

The loans and bills discounted include loans held by the Bank and its consolidated subsidiaries to borrowers in bankruptcy totaling ¥176,313 million (US\$1,660 million) and ¥169,347 million as of March 31, 2000 and 1999, respectively, as well as past due loans held by the Bank and its consolidated subsidiaries totaling ¥1,274,607 million (US\$12,007 million) and ¥1,276,109 million as of March 31, 2000 and 1999, respectively.

In addition to "Past due loans" as defined, certain other loans classified as "caution" under the Bank's self-assessment guidelines include "Past due loans (3 months or more)."

"Past due loans (3 months or more)" are consisted of loans for which the principal and/or interest is three months or more past due but exclude "loans to borrowers in bankruptcy" and "past due loans." The balances of past due loans (3 months or more) as of March 31, 2000 and 1999, were ¥39,777 million (US\$374 million) and ¥84,304 million, respectively.

“Restructured loans” are loans in respect of which the Bank and its subsidiaries are relaxing lending conditions, such as reduction of the original interest rate, forbearance of interests payments or principal repayments to support the borrowers’ reorganization, but exclude “loans to borrowers in bankruptcy,” “past due loans” or “past due loans (3 months or more).” The outstanding balances of restructured loans as of March 31, 2000 and 1999, were ¥170,741 million (US\$1,608 million) and ¥237,105 million, respectively.

The Bank’s total principal balance of loans transferred to the participating entities under loan participation agreements, which are accounted for as sold due to their non-recourse nature, was ¥578,900 million as of March 31, 1999.

Under the Japanese Commercial Code (the "Code"), at least 50% of the issue price of new shares, with a minimum of the par value thereof, is required to be designated as stated capital. The portion which is to be designated as stated capital is determined by resolution of the Board of Directors. Proceeds in excess of the amounts designated as stated capital have been credited to capital surplus.

Under the Code,

- (i) the Bank may, by resolution of the stockholders, transfer a portion of earned surplus available for dividends to the capital stock account, and
- (ii) the Bank may, by resolution of the Board of Directors, issue new shares of common stock to the existing stockholders without consideration to the extent that the amount calculated by multiplying the number of outstanding shares after the issuance by par value per share does not exceed the stated capital, or that the amount calculated by dividing the total amount of stockholders' equity by the number of outstanding shares after the issuance shall not be less than ¥50. These issuances of the new shares are treated as stock splits.

Holders of Series II preferred shares issued on October 1, 1996, are entitled, to priority as to the payment of dividends and as to distributions on liquidation of the Bank to common stock of the Bank, to receive noncumulative dividends of ¥15 and a distribution of ¥2,000 per preferred share.

Series II preferred shares are convertible on or after October 1, 1997, and up to and including September 30, 2001, at the option of the stockholders, into fully paid shares of common stock of the Bank at an initial exchange price of ¥1,122.

Unless previously converted at the option of Series II preferred stockholders, all outstanding Series II preferred shares will be mandatorily exchanged for fully paid shares of common stock of the Bank on October 1, 2001, at the number of common shares calculated by dividing ¥2,000 by the average market price per share during a certain period immediately preceding October 1, 2001.

The Bank received on December 24, 1998, the proceeds from the offering of 273,802 thousand common shares issued on December 25, 1998, at a price of ¥315 per share for gross proceeds of ¥86,247 million, of which ¥43,260 million was transferred to the capital surplus account in accordance with the Code. The issue costs were expensed when paid.

The Bank received on March 30, 1999, the proceeds from the offering of 800,000 thousand Series III preferred shares issued on March 31, 1999, in accordance with the Financial Function Early Strengthening Law, at a price of ¥1,000 per share for gross proceeds of ¥800,000 million, of which ¥400,000 million was transferred to the capital surplus account in accordance with the Code. The issue costs were expensed when paid. The Series III preferred stockholders are entitled, to priority as to the payment of dividends and as to distributions on liquidation of the Bank, ranking equally with Series II Preferred Stocks, to common stock of the Bank, to receive noncumulative dividends of ¥13.70 and a distribution of ¥1,000 per preferred share. Series III preferred shares are convertible on or after October 1, 2002, and up to and including September 30, 2009, at the option of stockholders, into fully paid shares of common stock of the Bank.

At the general stockholders' meeting held on June 29, 1999, the Bank's stockholders approved the following stock option plan for the Bank's directors and certain employees:

*Stock option plan*

The plan provides for granting options to directors and certain employees to purchase up to 279 thousand shares of the Bank's common stock in the period from June 30, 2001 to June 29, 2009. The issue price of the stock is ¥674 per share.

## 20. Earned Surplus

Legal reserve as of March 31, 2000 and 1999, is included in earned surplus. The changes for the years ended March 31, 2000 and 1999, were as follows:

Due to the establishment of the Tokyo Metropolitan Government's ordinance concerning the special treatment for the standard of enterprise taxes to banking industries on March 31, 2000, the normal statutory tax rate for the computation of deferred income tax assets and liabilities decreased from 42.05% to 39.62%. This change decreased the amount of deferred income tax assets by ¥35,791 million and increased deferred income tax in fiscal 1999 by the same amount. The amount of deferred income tax liabilities for land revaluation decreased by ¥1,968 million as a result of the revaluation and increased the land revaluation excess by the same amount.

Due to the establishment of the Osaka Prefectural Government's ordinance concerning the special treatment for the standard of enterprise taxes to banking industries on June 9, 2000, the normal statutory tax rate for the computation of deferred tax assets and liabilities will decrease from 39.62% to 39.20%. This change will decrease the amount of deferred income tax assets and deferred income tax liabilities for land revaluation by ¥6,186 million and ¥340 million, respectively. The actual figure may differ from the above because of the calculation considering the temporary difference at the end of next period.

### 31. Leases

Finance leases where the ownership of the property is not deemed to transfer to the lessee as of March 31, 2000 and 1999, consisted of the following:

(i) As Lessee

Acquisition cost, accumulated depreciation and net balance of the leased property as of March 31, 2000 and 1999, were as follows:

	Millions of Yen		Millions of U.S. Dollars
	2000	1999	2000
Acquisition Cost	<b>¥7,078</b>	¥38,039	<b>\$66</b>
Accumulated Depreciation	<b>5,324</b>	18,922	<b>50</b>
Net Balance	<b>¥1,754</b>	¥19,117	<b>\$16</b>

The acquisition cost amount includes the imputed interest expense portion, because of its immateriality. Obligations as of March 31, 2000 and 1999, were as follows:

	Millions of Yen		Millions of U.S. Dollars
	2000	1999	2000
Due within One Year	<b>¥1,060</b>	¥ 5,177	<b>\$ 9</b>
Due after One Year	<b>693</b>	13,939	<b>6</b>
Total	<b>¥1,754</b>	¥19,117	<b>\$16</b>

The amount of the obligations includes the imputed interest expenses portion, because of its immateriality.

Total lease payments were ¥1,847 million (US\$17 million) and ¥6,436 million, and depreciation were ¥1,847 million (US\$17 million) and ¥6,436 million for the year ended March 31, 2000 and 1999, respectively. Depreciation was calculated based on the straight-line method with zero residual value.

(ii) As Lessor

Acquisition cost, accumulated depreciation and net balance of the leased property as of March 31, 2000 and 1999, were as follows:

	Millions of Yen		Millions of U.S. Dollars

Total	<b>¥10,038</b>	¥12,183	<b>\$94</b>

(ii) As Lessor

There were no minimum rental commitments receivable under noncancelable operating leases as of March 31, 2000 and 1999, respectively.

## 32. Market Value of Marketable Securities

The market value of marketable securities as of March 31, 2000, was as follows:

### Securities

	Millions of Yen				
March 31, 2000	Book Value	Market Value	Net Unrealized Gain (Loss)	Unrealized Gain	Unrealized Loss
Bonds	¥ 485,177	¥ 460,384	¥ (24,793)	¥ 3,490	¥ 28,284
Stocks	3,361,262	3,977,851	616,588	1,011,530	394,941
Others	461,115	461,187	72	14,540	14,468
<b>Total</b>	<b>¥4,307,555</b>	<b>¥4,899,422</b>	<b>¥591,866</b>	<b>¥1,029,561</b>	<b>¥437,694</b>

- Notes: 1. Figures in the above table are for marketable securities listed on Securities Exchanges. The fair market value of listed bonds is calculated mainly using the closing prices on the Tokyo Stock Exchange at the consolidated balance sheet date or the prices calculated under the yield published on the Japan Securities Dealers Association's Indication Chart in most cases. Other listed securities are calculated primarily using the closing price on the Tokyo Stock Exchange at the balance sheet date. "Others" are mainly foreign bonds.
2. Listed below are figures calculated to correspond to the fair market value of unlisted securities if it is possible to calculate.

	Millions of Yen				
March 31, 2000	Book Value	Market Value	Net Unrealized Gain (Loss)	Unrealized Gain	Unrealized Loss
Bonds	¥1,571,230	¥1,569,330	¥ (1,900)	¥ 5,331	¥ 7,231
Stocks	37,807	101,720	63,913	71,806	7,893
Others	100,291	101,176	884	2,756	1,872
<b>Total</b>	<b>¥1,709,330</b>	<b>¥1,772,226</b>	<b>¥62,896</b>	<b>¥79,894</b>	<b>¥16,998</b>

Values of non-listed securities are calculated using the Japan Securities Dealers Association's figures for securities traded over the counter, using the prices calculated under the yield published on the Japan Securities Dealers Association's Indication Chart for public bonds, and using standard prices for the beneficiary certificate of securities investment trusts. "Others" are mainly beneficiary certificates of securities investment trusts.

3. Securities excluded from the above information on values of the consolidated balance sheet are principally as follows:

	Millions of Yen
March 31, 2000	Book Value
Bonds	¥400,413
Stocks	116,750
Others	394,696

4. Figures on Trading Account Securities and Securities Related to Trading Transactions are omitted from the above tables because those securities are valued at market prices and evaluation gains (losses) are stated in the consolidated statement of operations.

### Money Held in Trust

	Millions of Yen				
March 31, 2000	Book Value	Market Value	Net Unrealized Gain (Loss)	Unrealized Gain	Unrealized Loss
Money Held in Trust	¥72,581	¥72,887	¥305	¥542	¥237

Note: The market value represents the prices that the fiduciaries of money held in trust calculated in accordance with the following methods:

1. The fair market value of listed securities is calculated mainly using the closing prices on the Tokyo Stock Exchange at the consolidated balance sheet date.
2. Values of non-listed stocks are calculated using the Japan Securities Dealers Association's figures for securities traded over the counter.

### 33. Derivatives Transactions

#### Purpose of Derivatives Transactions

The Bank and its subsidiaries actively use derivative financial instruments to hedge risks for customers, to manage the potential risks in its own portfolio of assets and liabilities, to earn trading profits through market fluctuations and to stabilize earnings over the medium- to long-term.

#### Risk Exposure

Derivatives transactions may be subject to complex risk factors, including market risk from changes in prices or interest rates and credit risk from counterparty default. Sophisticated risk management is required to deal with these transactions, which may create exposures disproportionate to the funds initially committed. To manage market risk, the Bank and its subsidiaries use advanced value at risk (VaR) modeling to quantify the maximum total exposure worldwide. In the internal model, we measure the VaR using Monte Carlo simulations based on one year of historical data and the assumptions of a two-week holding period and a 99% confidence interval, which are in accordance with BIS guidelines. According to this model, the maximum VaR due to general market risk in the Bank's trading account, including derivatives, was ¥8.9 billion in fiscal 1999, the minimum was ¥3.1 billion and the average was ¥5.0 billion. To manage credit risk, we quantify the credit-equivalent amount that would arise if the counterparties defaulted. The consolidated credit-equivalent amount at March 31, 2000, as calculated according to the current-exposure method specified in BIS guidelines, came to ¥1,155.7 billion.

#### Risk Management System

Enhancing the risk management system is an ongoing policy priority at all levels of management to help secure a sound financial position and stable profits. All transactions involving exposure to market risk, including derivatives transactions, are governed within the Bank by a set of rules specifying approval authority, risk limits and operating procedures. These regulations and limits are reviewed semiannually by the Executive Committee. Risk management for the trading account is conducted according to regulations established for each type of transaction.

Credit risk is quantified in a manner consistent with that for market risk and the two risk factors are captured on an integrated basis to set risk limits within the scope of the Bank's capital resources. This is in line with our current management challenge to ensure that the returns are commensurate with the risks undertaken.

The Corporate Risk Management Division, which is independent of the revenue-generating divisions, is responsible for risk management for the entire Bank, including overseas business units. This division controls the risk measures on a daily basis and reports to the directors in charge on a weekly basis and also to the monthly ALM Committee chaired by the president of the Bank.

It should be noted that the nominal contract value or notional principal amount is used in determining the value of receipts or payments of interest and as an indicator representative of the volume of transactions, but those values do not necessarily reflect the volume of actual transactions or risk. Moreover, the unrealized gains or losses arising from derivatives transactions used to hedge interest rate and currency risks associated with the Bank's assets and liabilities—including loans, securities and deposits—are offset by the unrealized gains and losses of such assets or liabilities. Accordingly, the unrealized gains and losses of derivatives transactions noted in this report do not necessarily have an impact on the balance sheets. Moreover, with the adoption of the Trading Account, both the notional amounts and market value of these derivatives transactions included in this account are shown in a separate column from other derivatives transactions.

Ordinary income or expenses represent total income or expenses excluding Gains or Losses on Dispositions of Premises and Equipment, Recoveries of Written-off Claims, and Transfer to (from) Other Reserves.

For the years ended March 31, 2000 and 1999, the Bank reported ordinary income and ordinary profit/(loss) which correspond to sales and operating profit for other types of enterprises for its Head Office and consolidated subsidiaries according to the classification domestic and country or region, in view of the geographical proximity, similarities in economic activities, and interrelationships among these activities.

Countries or economies in the regions shown include, but are not limited to, the following: Americas: the United States and Canada; Europe: the United Kingdom and Germany; and Asia and Oceania: Singapore, Hong Kong, and Australia.

### (c) Foreign Operating Income

	Millions of Yen	Millions of U.S. Dollars
	2000	2000
(i) Foreign Operations	¥ 339,087	\$ 3,194
(ii) Consolidated Total Income	2,147,495	20,230
(i) / (ii)	15.7%	15.7%

From fiscal 1999, foreign operating income is listed in place of ordinary income from international operations to express foreign trading activities more correctly. Foreign operating income comprises transactions at the Bank's overseas branches and income from overseas consolidated subsidiaries. The composition of this substantial volume of transactions is not broken down by counterparty, and, therefore, data by region and country have not been included.

Ordinary income from international operations for fiscal 1998 was ¥839,959 million.

### 35. Subsequent Events

- (a) The following appropriation of earned surplus of the Bank for the year ended March 31, 2000, was approved at the stockholders' meeting held on June 29, 2000.

	Millions of Yen	Millions of U.S. Dollars
Transfer to Legal Reserve	¥ 3,570	\$ 33

Series III Preferred (¥6.85 per Share)	5,480	51
Common (¥3.00 per Share)	12,351	116
Total	¥21,423	\$201

- (b) At the general stockholders' meeting held on June 29, 2000, the Bank's stockholders approved the following stock option plan for the Bank's directors and certain employees:

#### *Stock option plan*

The plan provides for granting options to directors and certain employees to purchase up to 291 thousand shares of the Bank's common stock in the period from June 30, 2002 to June 29, 2010. The issue price of the stock equals 105% of the average of the closing prices of the Bank's common stock on the Tokyo Stock Exchange ("TSE") on each day (excluding a day or days on which no closing price is available) during the month immediately prior to the month in which stock option rights will be granted (amounts below one yen will be rounded up to the nearest one yen), but if such average is lower than the closing price of the Bank's common stock on the TSE on the date of grant of stock option rights, the issue price shall be equal to that day's closing price.

- (c) Contract of Merger between Sakura Bank and Sumitomo Bank

The Bank and the Sumitomo Bank, Limited, have signed a contract of merger on May 22, 2000 and the terms of the merger were approved at the ordinary meeting of shareholders and shareholders' meetings of a particular class of shares held on June 29, 2000, and June 28, 2000, respectively.

Pursuant to the terms of the merger, the Bank will merge with the Sumitomo Bank on April 1, 2001, and the Sumitomo Bank will be the surviving entity of the merger legally. Concurrently, the Sumitomo Bank will change its corporate name to "Sumitomo Mitsui Banking Corporation".

Each share of the Bank's common stock, par value ¥50 per share, will be exchanged for 0.6 shares of a common stock of the surviving entity "Sumitomo Mitsui Banking Corporation".

- (d) TOB (Take Over Bid) to the Minato Bank

The Bank carried out a TOB (take over bid) to the shareholders of the Minato Bank with the upper limit of 142 million shares and lower limit of 53 million shares to consolidate the Minato Bank in the accounting.

The bidding price was ¥240 per share and the purchase period was from June 13, 2000 to July 24, 2000.

To the Board of Directors of  
The Sakura Bank, Limited

We have examined the consolidated balance sheets of The Sakura Bank, Limited, and consolidated subsidiaries as of March 31, 2000 and 1999, and the related consolidated statements of operations, earned surplus and cash flows for the years then ended, all expressed in Japanese yen. Our examinations were made in accordance with auditing standards, procedures and practices generally accepted and applied in Japan and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the consolidated financial statements referred to above present fairly the financial position of The Sakura Bank, Limited and consolidated subsidiaries as of March 31, 2000 and 1999, and the results of their operations and cash flows for the years then ended, in conformity with accounting principles and practices generally accepted in Japan applied on a consistent basis.

As described in Note 1 to the consolidated financial statements, The Sakura Bank, Limited and consolidated subsidiaries have adopted new accounting standards for the statements of cash flows in the preparation of their consolidated financial statements for the year ended March 31, 2000.

Our examinations also comprehended the translation of Japanese yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 1. Such U.S. dollar amounts are presented solely for the convenience of readers outside Japan.

As described in Note 35 to the consolidated financial statements, The Sakura Bank, Limited, and The Sumitomo Bank, Limited, have signed a contract of merger on May 22, 2000 and the terms of the merger were approved at the ordinary meeting of shareholders and shareholders' meetings of a particular class of shares held on June 29, 2000, and June 28, 2000, respectively.
