August 2005

We are pleased to present to you the Annual Report 2005, summarizing our activities and results in fiscal 2004 and our business policy for fiscal 2005 onward.

All of us at SMFG, the directors, officers and employees, will continue to make every effort to enhance our customers' trust and our shareholders' and the market's confidence in SMFG. We intend to achieve these goals by quickly and accurately providing new value that answers our customers' increasingly diversified and sophisticated needs, thereby leading to greater profitability that will further solidify our financial base.

We look forward to your continued support and encouragement as we move forward in the new stage of our development.

August 2005

Masayuki Oku
Chairman of the Board

Teisuke Kitayama
President

President's Message

I would like to thank you for your continued interest in and support for the Sumitomo Mitsui Financial Group (SMFG). As the new president of SMFG, I would like to explain our policy for moving the company forward.

Fiscal 2004 Highlights:

Completion of intensive improvement in asset quality and acceleration of offensive in strategic businesses

Looking at the financial and economic environment in fiscal 2004, the U.S. economy stayed firm, supported by a strong household sector, and the Asian economies continued their growth track led by China. Meanwhile, the Japanese economic situation was mixed—corporate earnings and private capital investment gradually grew, but there were inventory adjustments in the IT-related sectors and exports started slowing down—and, overall, the pace of economic recovery was very slow.

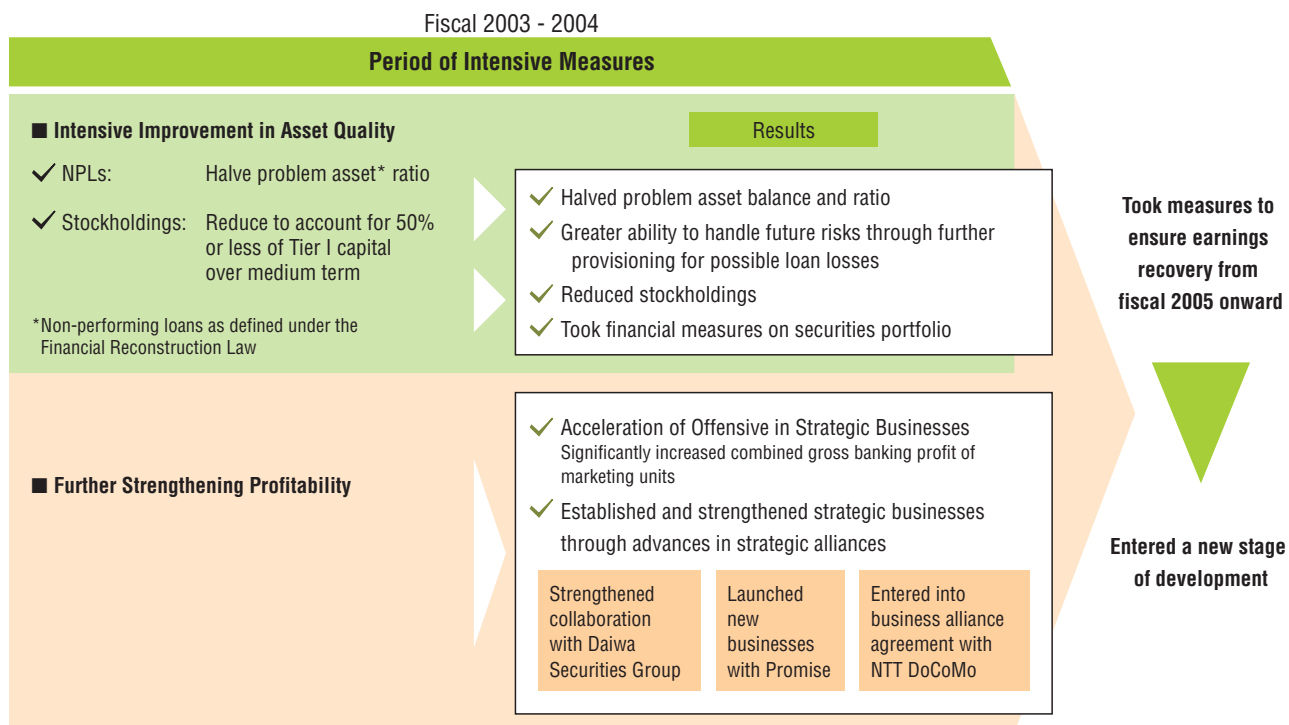

In that environment, SMFG had set completing “the intensive improvement in asset quality” and enhancing profitability by “accelerating the offensive in strategic businesses” as the primary imperatives for fiscal 2004, and took a number of initiatives to achieve these goals.

To complete the intensive improvement in asset quality in order to ensure earnings recovery from fiscal 2005 onward, we took further financial measures both for our non-performing loans and securities portfolio. As a result, we regrettably posted a

consolidated net loss of ¥234.2 billion, but were able to greatly reduce future risk factors. Meanwhile, to strengthen profitability, we accelerated our offensive in financial consulting for individuals, new-type unsecured loans to small and medium-sized enterprises (SMEs), investment banking business and other strategic businesses, thereby significantly boosting gross banking profits of the Consumer Banking Unit, Middle Market Banking Unit and other marketing units. In addition, we made advances in strategic alliances with other sectors' leading companies such as Daiwa Securities Group, Promise Co., Ltd. and NTT DoCoMo, Inc.

Hand in hand with further enhancing strategic businesses which are contributing significantly to our profit base as earnings drivers with competitive market advantages, we were able to steadily establish new businesses as future earnings drivers.

In fiscal 2004, we took measures to ensure earnings recovery from fiscal 2005 onward, and thus, we have now entered a new stage of development.

Business Environment:
Gradual economic recovery, intensifying competition in growth markets and advances in deregulation

Since the inception of SMBC four years ago, our business environment has been difficult to an unprecedented degree, but recently there have been signs of a gradual economic recovery and business activities, such as private capital investments, have been picking up slowly.

Looking at the sectors across the board, cross-sectional and cross-border competition in a wide range of growth markets is expected to intensify further. In the financial sector, besides the implementation of new rules such as Basel II, advances in deregulation are expected to lower business barriers, creating business opportunities but at the same time lowering obstacles for newcomers and intensifying competition.

Under such a business environment, in the Japanese financial industry, horizontal and vertical integration is expected to accelerate further in the same manner as in the U.S. and Europe, and alliances with companies in other sectors with potential synergy are expected to increase also.

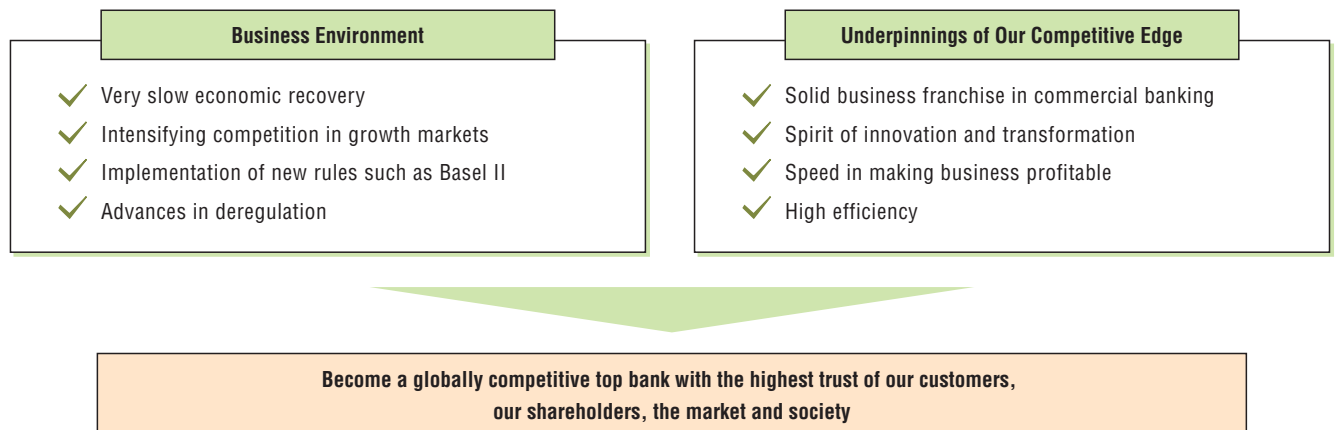

Teisuke Kitayama
President

Business Mission:
Become a globally competitive top bank with the highest trust of our customers, our shareholders, the market and society

Our competitive edge derives from our four strengths of (a) solid business franchise in commercial banking, (b) spirit of innovation and transformation, (c) speed in making business profitable, and (d) high efficiency. Under the above business environment, in order to leverage our strengths, grasp the ever-changing needs of our customers and further grow our business, we reflected on what kind of organization we should be and the direction we should take.

The obvious answer was “to become a globally competitive top bank with the highest trust of our customers, our shareholders, the market and society.” We will formulate and implement our business strategies guided by this mission.

We will, however, be flexible in our business management, adjusting strategies in light of current and future situations: continuously predict changes in business environment, establish hypotheses, and examine our businesses in view of the hypotheses.

Medium-Term Management Plan Targets

We have established a medium-term management plan, spanning the four years from fiscal 2005, to realize the mission. We will make every effort to achieve the following targets in fiscal 2008, the last year of the plan: on a consolidated basis, ROE of more than 15%, net income of more than ¥650 billion, and a capital ratio of about 11%, of which Tier I capital will account for about 7%. By achieving these targets, we hope to raise the market's evaluation of our profitability and growth potential and realize a market capitalization worthy of "the top bank" designation—more than ¥10 trillion.

Strengthening Group strategy to create new value

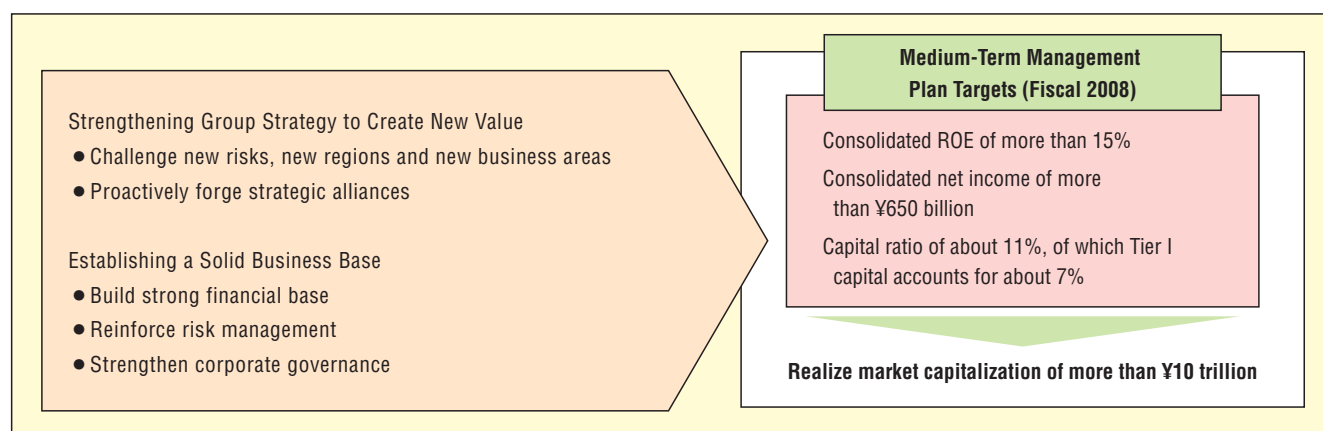

"Strengthening Group strategy in order to create new value" encompasses not just further boosting the profitability of existing businesses, but also establishing new business lines in order to enhance our business portfolio by challenging new risks, new regions, and new business areas and proactively forging strategic alliances.

We will also strengthen strategic businesses in focus areas on a group basis through strategic investment of resources and improvement in capital efficiency, and thereby achieve ¥1.5 trillion in consolidated net business profit in fiscal 2008.

Establishment of solid business base

We will establish a solid business base upon which above business developments will take place. Specifically, based on our Group's high top-line earnings power, we aim to expand our bottom-line profits by normalizing credit cost, and reinforce our financial base by strengthening our capital both qualitatively and quantitatively by building up retained earnings. Regarding the remaining ¥1.1 trillion in public funds, we will complete the foundation for repaying the amount completely in the three years to fiscal 2007.

Of course, hand in hand with developing businesses, we will further develop and evolve more effective compliance and internal audit systems in order to reinforce risk management, a prerequisite for taking new risks, and corporate governance for checking whether expanding businesses are suitable and that businesses are being conducted properly.

Fiscal 2005 Business Policy:
Secure solid profit level in fiscal 2005; establish and strengthen new strategic businesses

During fiscal 2005, the first year of the medium-term management plan, we aim to secure a solid profit level. Specifically, we intend to achieve net income of ¥350 billion on a SMBC non-consolidated basis and ¥460 billion on a SMFG consolidated basis, through revenue growth based on proactive allocation of resources in the focus areas and normalization of credit cost.

Regarding non-performing loans, we are targeting to reduce outstanding balance of problem assets, nonperforming loans as defined under the Financial Reconstruction Law, to the ¥1 trillion level and ratio of problem assets to total assets to the 2% level as our targets.

As for “establishing and strengthening new strategic businesses,” we will further reinforce the investment banking business, further develop the alliances with Promise and NTT DoCoMo, and seek various opportunities to form alliances that increase our corporate value regardless of which industries potential partners operate in.

In Closing

Amid intensifying competition, it is becoming increasingly difficult to maintain a competitive edge. Nevertheless, we intend to realize a sustainable increase in corporate value through speedy business development—a combination of enhancement of existing strategic businesses and establishment of new strategic business—based on our medium-and-long-term perspectives. We aim to meet the expectations of our customers, our shareholders, the market and society by steadily producing results.

Teisuke Kitayama
President
 Sumitomo Mitsui Financial Group, Inc.

August 2005

Fiscal 2005 Plan

Secure solid profit level in the first year of the medium-term management plan

- Grow revenues through proactive investment of resources in focus areas

	Fiscal 2004 Results	Fiscal 2005 Plan
SMFG consolidated net income	– ¥234.2 billion	¥460.0 billion
SMBC non-consolidated net income	– ¥136.8 billion	¥350.0 billion

- Normalization of credit cost

	Fiscal 2004 Results	Fiscal 2005 Plan
SMBC non-consolidated credit cost	¥954.8 billion	¥300.0 billion
SMBC non-consolidated problem asset* balance (term end)	¥1.8 trillion	¥1 trillion level
SMBC non-consolidated problem asset ratio (term end)	3.3%	2% level

*Non-performing loans as defined under the Financial Reconstruction Law

Establish and strengthen new strategic businesses

- Further enhance investment banking business: Corporate revitalization, business restructuring, real estate finance
 Further collaboration with Daiwa Securities SMBC
- Quickly establish new business lines: Make business with Promise profitable, early launching of business with NTT DoCoMo
- Accelerate alliance strategies

SUMITOMO MITSUI BANKING CORPORATION

I am delighted to speak to you as the new president of Sumitomo Mitsui Banking Corporation (SMBC) and would like to take this opportunity to extend our sincerest thanks for your continued support.

Business Environment

The Japanese financial industry has resolved the non-performing loan problem and significantly reduced cross-shareholdings, two issues that have plagued the industry for many years. In other words, the intensive improvement in asset quality has been accomplished, and the banks are now shifting their focus from dealing with the past to creating the future. Meanwhile, deregulation has steadily advanced, increasing not only business opportunities but also competition with global competitors and companies from other industries.

Fiscal 2004 Earnings Results

In fiscal 2004, we took further steps to reinforce our financial base in order to ensure an earnings recovery from fiscal 2005 onward, including posting credit cost of more than ¥950 billion and taking further financial measures on our securities portfolio, resulting in a net loss. However, we reduced the balance of problem assets (nonperforming loans as defined under the Financial Reconstruction Law) at the end of March 2005 by about ¥1 trillion compared to a year earlier, to ¥1.8246 trillion, for a problem asset ratio of 3.3%, thereby over-achieving the target of halving the level at the end of March 2002.

Meanwhile, though the profit from ALM operations declined, we continued our efforts to improve customer service in consulting business for individuals, new-type unsecured loans to SMEs and investment banking business, and thus, significantly increased the combined gross banking profit of the Consumer Banking Unit, Middle Market Unit and other marketing units.

Fiscal 2005 Business Policy

We were early in focusing on consulting business for individuals and a new type of unsecured loans to SMEs and have gained a competitive edge in these businesses. We will continue to enhance customer

service in these strategic businesses in order to grow profit qualitatively as well as quantitatively. Moreover, the normalization of credit cost will lead to growth in bottom-line profit.

For example, we will enhance the consulting business for individuals by increasing the number of SMBC Consulting Plazas to 65 and boosting the number and ability of consultants. In new-type unsecured loans to SMEs, we have applied the know-how we have gained from *Business Select Loan* to launch a new loan product aimed at larger enterprises in April of this year. We will continue to proactively take steps to meet the funding needs of a wider range of customers.

Forged cash cards, and other crimes using bank accounts, ATMs, and various types of cards, are becoming a social problem. In February of this year, we started issuing IC cash cards, which are difficult to skim data from, to increase card security. We have also developed and evolved our information management framework to better comply with the Personal Information Protection Law. We will continue to strive to enhance the financial security of our customers.

Management Mission

The future that we face will be an age of increasing complexity and rapid changes, but our mission is and will remain “becoming a globally competitive top bank with the highest trust of our customers, our shareholders, the market and society.” There are many issues to be addressed, but our primary focus is “the customer first on all points.” Everyone at SMBC, the directors, officers and employees, will face the challenge of making SMBC into a bank that quickly and accurately provides and executes solutions that answer various customer needs with courage and determination.

► Strength as a Group

SMFG's wholly-owned subsidiaries—SMBC, Sumitomo Mitsui Card, SMBC Leasing, and The Japan Research Institute—rank among the top companies in their fields. In addition to strengthening each subsidiary's business, we have been promoting collaboration among these companies to enhance Group profitability.

SUMITOMO MITSUI CARD COMPANY, LIMITED

As the pioneer in the issuance of the Visa Card in Japan and a leader in the domestic credit card industry, Sumitomo Mitsui Card Company, Limited enjoys the strong support of its many customers.

It also plays a major role as one of the strategic businesses of SMFG. Leveraging its strong brand image and its excellent capabilities across a wide range of card-related services, the company meets customers' credit needs through the provision of settlement and financing services.

Sumitomo Mitsui Card's core priority is to provide customers with the most convenient and user-friendly card services, thereby becoming the card provider of choice.

SMBC LEASING COMPANY, LIMITED

SMBC Leasing Company, Limited, and its subsidiaries specialize in providing tailor-made solutions for corporate customers' large-scale capital investment needs. The company and its subsidiaries combine a broad spectrum of leasing products such as energy-saving equipment, commercial real estate properties (shops, factories and warehouses), overseas facilities for Japanese companies expanding abroad, and all types of medical equipment for clinics. In addition, we provide online leasing services, including support for the sales activities of manufacturers and dealers.

SMBC Leasing offers the "Select Lease" service, which is designed to enable a prompt response to the needs of small and medium-sized businesses. The company and its subsidiaries also lease motor vehicles (for personal as well as commercial use), measuring instruments, PCs, and other IT equipment.

In May 2005 we established the subsidiary SMLC Trust Company, Limited to engage in the trust business. This is the first instance in which the subsidiary of a company that is not a financial institution has entered the trust business. By effectively employing trust business models, we hope to bring new dynamism to lease syndication transactions while further enhancing our lineup of services.

The Japan Research Institute, Limited

The Japan Research Institute, Limited (JRI) is a “knowledge engineering” company that offers comprehensive high value-added services, effectively combining the three functions of information systems integrator, consultant, and think-tank.

Targeting customers in a wide range of sectors, JRI offers consulting services focusing on management innovation and IT-related issues. It also provides services such as the design and development of strategic information systems, as well as outsourcing. In addition, JRI conducts research and analysis of both domestic and overseas economies, formulates policy recommendations, and assists in the incubation of new businesses.

Securities Intermediary Business (pages 20-25)

Businesses in Asia, particularly China (SMBC, page 26)

Initiatives to Improve Asset Quality (SMBC, pages 39-44)

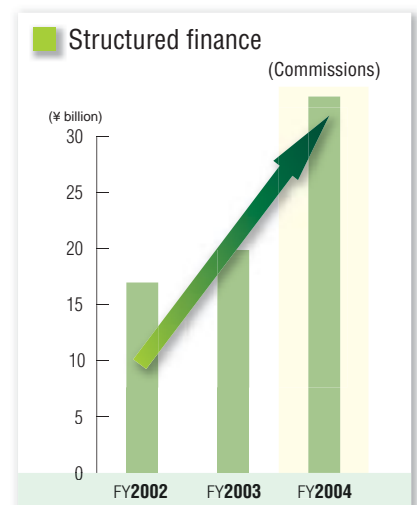

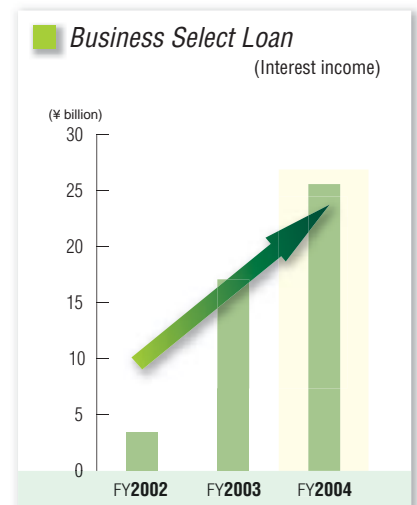

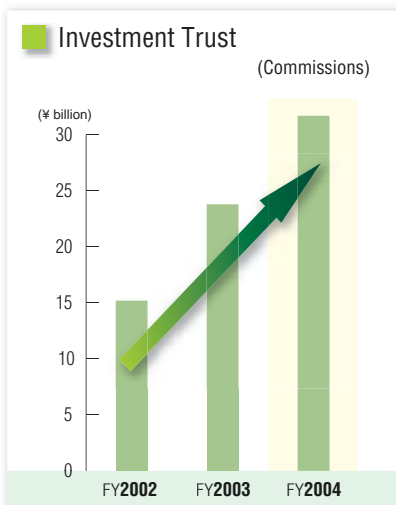

► Speed, Efficiency, and Profitability (SMBC)

Speed in Making Businesses Profitable

SMBC is working to accelerate the growth of numerous businesses into key earnings drivers, thereby creating one of the best business portfolios among Japanese banks.

Many of SMBC's businesses are growing—now generating an annual gross profit of between ¥20 billion and ¥30 billion. These businesses include financial

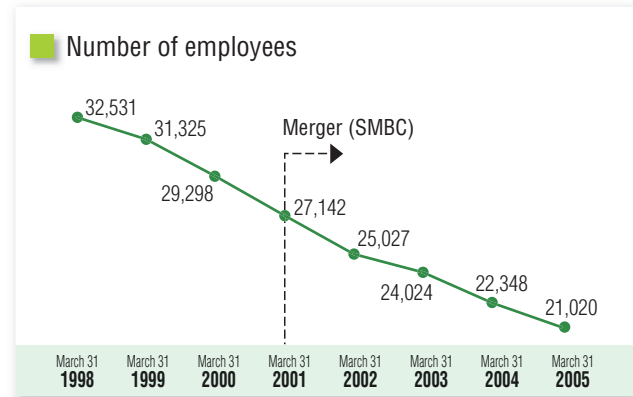

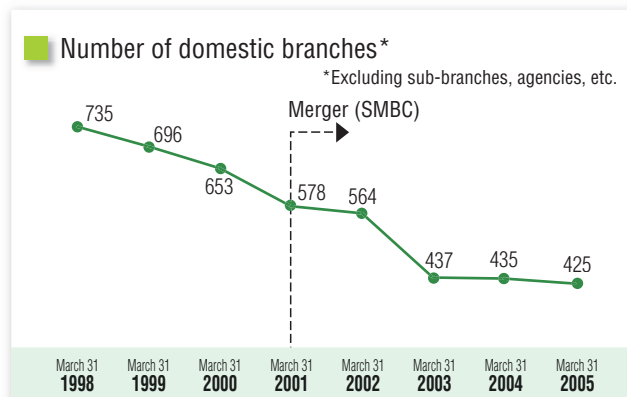

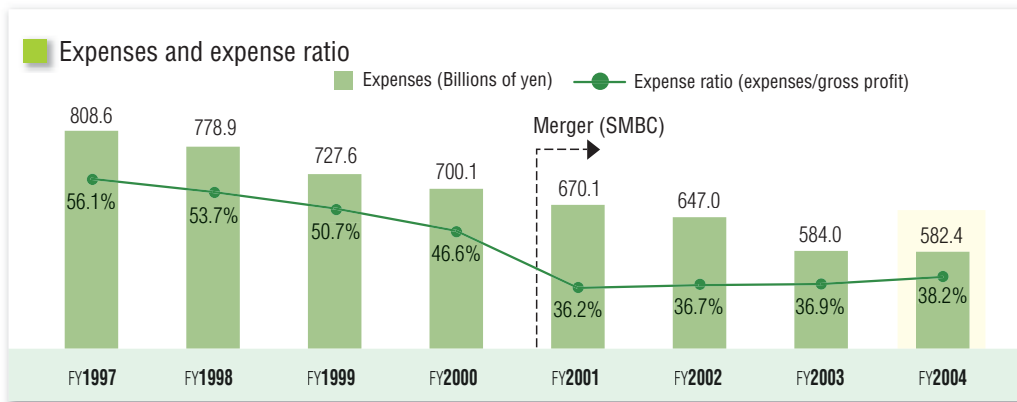

consulting for individuals (primarily sales of investment trusts and pension-type insurance products), new-type unsecured loans (the *Business Select Loan*) to small and medium-sized enterprises (SMEs), and the investment banking business (loan syndication, securitization of monetary claims and structured finance).

High Efficiency

To enhance the value of our products and services targeting individual and corporate customers, and to more precisely meet their specific needs, SMBC has made its investment priority the expansion of specialized marketing channels in strategic business areas, such as financial consulting for individuals and new-type unsecured loans to SMEs.

At the same time, we were able to substantially curb expenses by integrating overlapping marketing territories and streamlining the workforce. As a result, SMBC's expense ratio, an important indicator of efficiency, is less than 40%. This shows a high level of efficiency, not only by domestic standards but also by global standards.

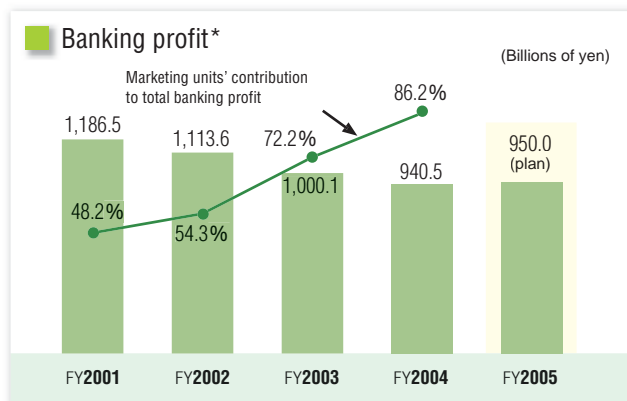

Strength in Profitability

SMBC was the only Japanese bank to achieve more than ¥1 trillion in banking profit—the fundamental indicator of a bank's profitability—for three consecutive years up to fiscal 2003. (This figure is before provisions to the general reserve for possible loan losses.) In fiscal 2004, SMBC's banking profit was approximately ¥940 billion, which was the best result among Japanese banks.

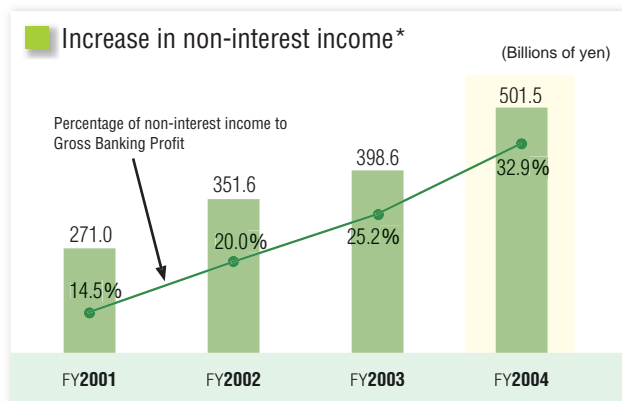

Banking profit comprises the profits of marketing units (the Consumer Banking, Middle Market Banking, Corporate Banking, and International Banking Units) and the Treasury Unit. Interest income from lending and deposit-taking and fee income from various businesses make up the marketing units' profits. Activities such as ALM operations to control interest rate risk, etc., and trading operations generate the Treasury Unit's profits. The main factor behind the year-on-year decline in SMBC's banking profit was a decrease in the Treasury Unit's profit, which had been high from ALM operations amid falling domestic and overseas interest rates. On the other hand, the marketing units' profits have continued to grow, and

their contribution to total banking profit has been rising steadily. Thus, SMBC not only achieved the highest banking profit among Japanese banks, it has also created a stable earnings base that shows a resilient response to fluctuations in interest rates and other capital market trends.

Moreover, SMBC is establishing an earnings base that is not wholly dependent on interest income derived from lending and deposit-taking, as non-interest income has been growing steadily. This is mainly due to the increase in fee income generated by providing optimal solutions that meet customers' needs in businesses such as financial consulting for individuals and the investment banking business.

* Before provisions to general reserve for possible loan losses

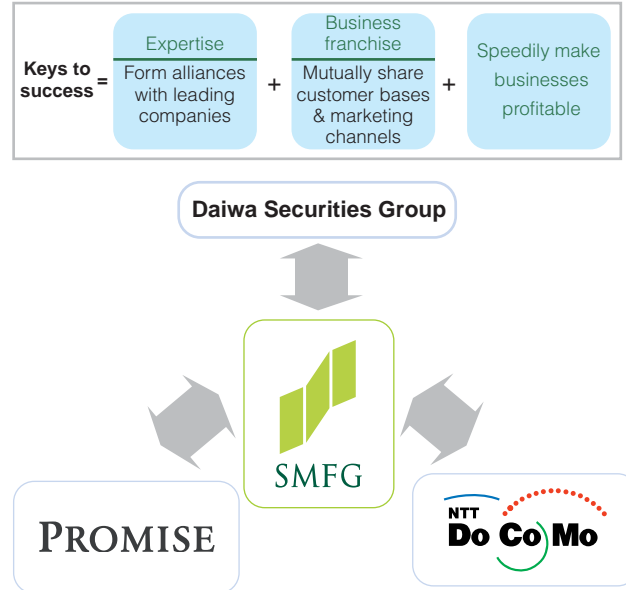

* Non-interest income: Fees and commissions, income related to sales of derivative products, etc.

▶ Alliances with Leading Companies

SMFG has been enhancing group profitability through full-scale alliances with the Daiwa Securities Group, Promise Co., Ltd., and NTT DoCoMo, Inc., leading companies in the securities, consumer finance, and mobile phone businesses.

We believe the keys to successful alliances are to efficiently utilize expertise, optimally leverage business franchises, and speedily make the business profitable. SMFG's alliances are with leading companies, and are aimed at fully utilizing SMBC's customer base and marketing channels as well as its proven strength in speedily bringing new ventures to the point of commercial profitability.

Alliance with the Daiwa Securities Group

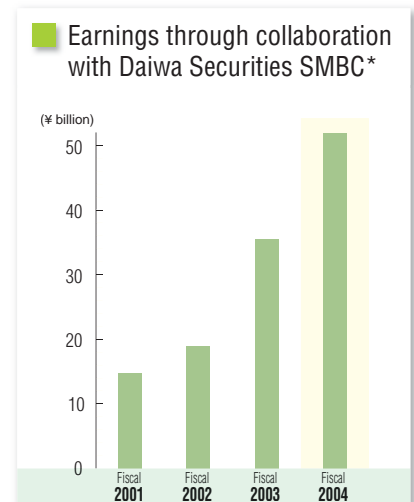

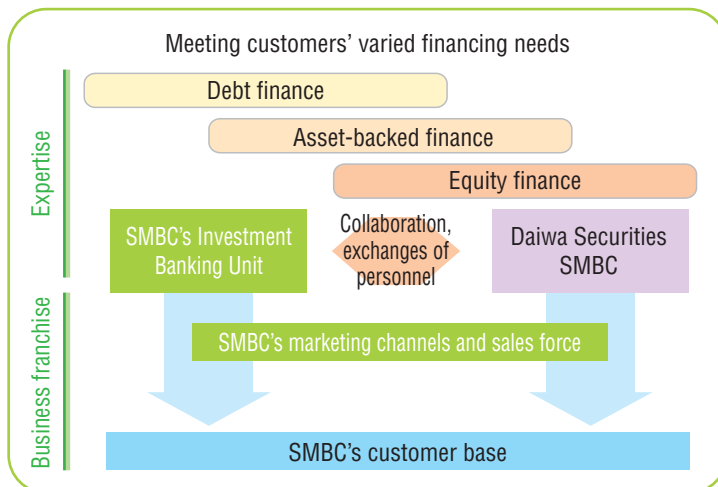

The alliance between SMFG and the Daiwa Securities Group is the only full-scale alliance between a megabank and a major securities company in Japan. Through this collaboration, the two sides have created a framework enabling them to meet the diverse financing needs of corporate customers.

Daiwa Securities SMBC—a wholesale securities company jointly established by SMFG and Daiwa Securities Group, Inc.—started business in April 1999. Over the intervening six years, the two groups have created a solid framework of collaboration through initiatives such as active exchange of personnel and organizational

restructuring. Daiwa Securities SMBC enjoys top-level market shares in Japan in its core businesses—particularly the underwriting of stocks and bonds—and the earnings of Daiwa Securities SMBC achieved through this collaboration have been increasing at a steady pace.

SMBC and Daiwa Securities SMBC continue to seek ways to further strengthen their alliance. For example, in December 2004, SMBC began securities intermediary operations for corporate clients on behalf of Daiwa Securities SMBC. We also reached a basic agreement on collaboration in the private equity investment business in February 2005.

● SMBC's collaboration with Daiwa Securities SMBC

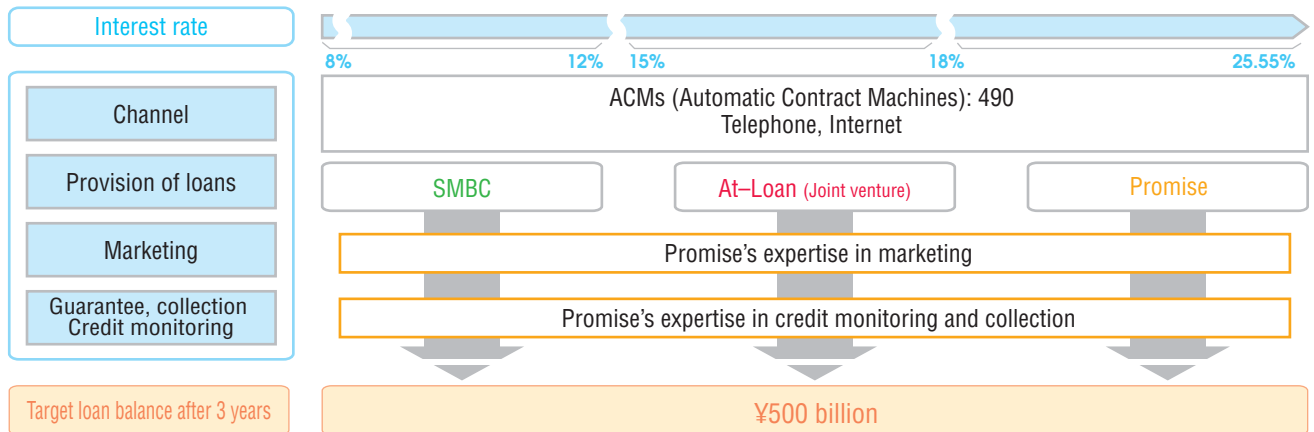

*Earnings of SMBC and Daiwa Securities SMBC through collaboration

Alliance with Promise

SMFG and Promise signed a strategic alliance agreement in June 2004, and a business alliance contract in September 2004. In April 2005, the partners launched three types of consumer loans, provided at different interest rates. These loan products are being offered by SMBC, At-Loan (an SMBC-Promise joint venture) and

Promise. We aim to achieve a loan balance of approximately ¥500 billion* in three years. By leveraging SMBC's marketing channels and customer base and Promise's expertise and know-how, SMFG aims to create new demand and secure the No. 1 position in Japan's consumer finance market.

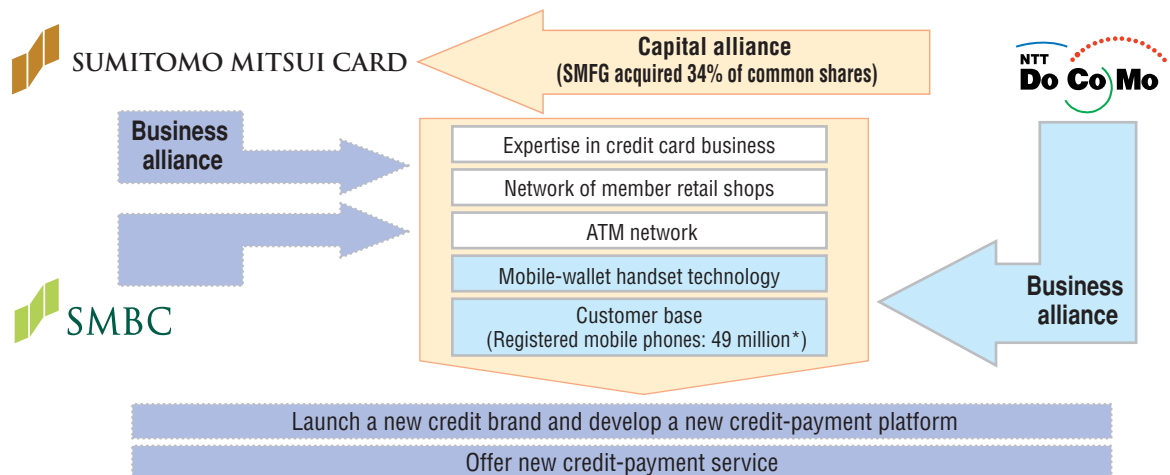

*Total for SMBC, At-Loan and Promise

Alliance with NTT DoCoMo

In April 2005, SMFG, SMBC and Sumitomo Mitsui Card agreed to form capital and business alliances with NTT DoCoMo, centered on a new credit-payment service utilizing DoCoMo "Mobile Wallet" phones. Sumitomo Mitsui

Card and NTT DoCoMo implemented a capital alliance in July 2005.

We aim to create a new credit card market using mobile phones by providing new services leveraging both groups' know-how, brands and customer bases.

*As of May 31, 2005

Organizational Reforms at SMFG and SMBC

SMFG and SMBC both implemented organizational reforms during the term under review. The major reforms are as follows (for more details, refer to pages 167, 170, and 171):

Organizational Reforms at SMFG

(1) Consolidating Management of the Group

SMFG has established a new department—the Consumer Business Planning Department—to manage the Group’s credit card and consumer finance businesses, one of its key strategic domains, with the aim of more swiftly consolidating Group management.

The new department will supervise consumer finance operations at SMBC and the five group companies engaged in this field, i.e. Sumitomo Mitsui Card Company, Limited (SMCC), Promise Co., Ltd., At-Loan Co., Ltd., Sakura Card Co., Ltd., and QUOQ Inc., and establish consistent, Groupwide strategies in the consumer finance business.

(2) Placing Greater Priority on Corporate Social Responsibility (CSR)

SMFG has established the Group CSR Committee, chaired by the director responsible for the Corporate Planning Department, to ensure a stronger emphasis on corporate social responsibility within the Group. The Group Environmental Committee was dissolved, with its functions taken over by the new Group CSR Committee. The committee’s members are drawn from SMFG, SMBC, SMCC, SMBC Leasing Company, and The Japan Research Institute, and they will proactively take a wide range of measures to fulfill the Group’s social responsibilities. (Please refer to page 53 for details.)

(3) Ensuring Fuller Disclosure

SMFG has established a Disclosure Committee, chaired by the director responsible for the Financial Accounting Department, to oversee the public disclosure of information about the Group and ensure that the appropriate information is disclosed in a timely manner. The committee discusses the appropriateness of the contents of proposed disclosures, the effectiveness of the Group’s internal information control systems, and devises improvements where deemed necessary.

Organizational Reforms at SMBC

1. Restructuring Our Business Base

(1) Transition to new structure for managing branches

SMBC will reorganize its domestic branches under the “New Structure for Managing Branches” (NSMB) framework in order to further improve customer services and accelerate business development.

Under the NSMB framework, each domestic branch will be divided into a “branch” and a “service office.” Branches specialize in business promotion targeting individuals, while service offices focus on raising the efficiency of back-office operations in order to improve customer satisfaction, establish advanced compliance and operations management systems.

The Shinjuku Branch Service Office and the Nagoya Branch Service Office were newly created within the Shinjuku Branch and Nagoya Branch, and other domestic branches will successively switch to the NSMB framework. The transition of all domestic branches will be completed by the end of fiscal 2006.

The service offices will belong to the Corporate Services Unit. SMBC has also established “Business Service Offices” in Branches, “Main Service Offices” in Corporate Business Offices, and “Public Institutions Operations Offices” in the Corporate Services Unit will be responsible for handling public money.

In addition to the above, the following revisions were implemented:

- The Operations & Administration Dept. and the Branch Operations Dept. were dissolved, while an Operations Support Dept. was newly established within the Operations Planning Dept. Operations planning and support functions were reorganized and centralized into the Operations Planning Dept. and the Operations Support Dept.
- As a marketing channel of the International Banking Unit, a Treasury Dept. was established within the Europe Division to centralize the currently decentralized treasury functions in the Europe Division.
- The Legal Dept. and Customer Relations Dept., within the General Affairs Dept. of the Corporate Staff Unit, were transferred to the Corporate Services Unit.

(2) Dissolution of Asset Restructuring Unit

Since its establishment in December 2002, the Asset Restructuring Unit (ARU) has concentrated on corporate revitalization and business restructuring of SMBC borrowers. As a result, SMBC achieved the target of halving the non-performing loan ratio at the end of the first half of fiscal 2004 and strengthened its financial base, thereby becoming better prepared for future risks. Having resolved its non-performing loan problem, SMBC dissolved the ARU (effective March 31, 2005).

The expertise of the ARU has been passed on to other units, enhancing the bank’s ability to establish new business lines related to corporate revitalization and business restructuring,

among other areas. The ARU's fund investment function is being undertaken by the Investment Development Department, a new department established within the Investment Banking Unit to expand SMBC's investment activities in corporate revival funds and private equity funds.

Along with the dissolution of the ARU, the Tokyo Corporate Business Office, the Osaka Corporate Business Office, and the Credit Dept. III have been newly established within the Middle Market Banking Unit. Within the Corporate Banking Unit, the Tokyo Corporate Banking Dept. VIII and the Credit Dept. II were newly established. The ARU's Credit Administration Dept., responsible mainly for disposal of problem assets such as loans to potentially bankrupt borrowers, was transferred to the Corporate Services Unit.

(3) Dissolution of Community Banking Unit

SMBC established the Community Banking Unit (CBU) in March 2003, when it merged with the former Wakashio Bank. The CBU took over Wakashio Bank's branches and related business promotion and management functions. Since then, the CBU has been working to strengthen business with small and medium-sized enterprises and individuals by combining Wakashio Bank's community-focused approach (which emphasizes the cultivation of ties with the local community and the extension of services with the personal touch) with SMBC's high capability to provide sophisticated financial products.

As considerable progress has been made in integrating these business models, the CBU was dissolved in order to further accelerate the integration and enable SMBC to improve customer services.

Various functions of the CBU will be integrated into other business units, mainly into the Consumer Banking Unit and the Middle Market Banking Unit.

The Administrative Services Dept. for Community Banking, the Internal Audit Dept. for Community Banking, and the Credit Review Dept. for Community Banking were also dissolved.

2. Accelerating expansion into new lines of business

(1) Reinforcing the investment banking business

- a. The scale of business in the Securitization & Syndication Dept. has been growing. To make the organization more efficient and to clarify its missions, the functions of this department were transferred to two new departments—the Syndication Dept. (in charge of syndication) and the Asset Finance Dept. (in charge of securitization)—and the Securitization & Syndication Dept. was dissolved.
- b. In view of the expansion of the real estate finance business, which formerly was managed by the Structured Finance Dept., a new department was established (the Real Estate Finance Dept.) to intensively promote the real estate finance business.

- c. An R&D Dept. was newly established in the Planning Dept. of the Investment Banking Unit to strengthen development of new services and products.

(2) Bolstering settlements-related business

The settlements clearing business, which formerly had been managed by the Operations Planning Dept., was integrated into the Global Investors Services Dept., which is in charge of securities processing services such as custody services, in order to centralize the currently decentralized functions of securities processing and settlements-related business.

The Mass Marketing Dept. was renamed the Mass Retail Dept., and the Consumer Finance Dept., the Card Loan Dept.

3. Preparing for implementation of New Basel Capital Accord (Basel II)

(1) Enhancement of operational risk management

An Operational Risk Management Dept. was newly established within the General Affairs Dept. to improve the effectiveness of operational risk management in advance of the implementation of the New Basel Capital Accord (Basel II).

(2) Achieving a more effective credit portfolio

A Credit Risk Management Dept. was newly established within the Credit Planning Dept.* in advance of the implementation of the Basel II, to achieve an optimal credit portfolio (plan and develop active portfolio management), and to establish the framework for managing assets with various risk profiles.

* The former Credit Risk Management Dept. was renamed the Credit Planning Dept.

4. Reinforcing the Corporate Governance System

(1) Enhancing compliance capabilities in securities business

In line with the expansion of securities-related activities, such as the commencement of the securities intermediary business, a Securities Compliance Dept. was newly established within the General Affairs Dept. to centralize currently dispersed functions related to securities compliance, thereby strengthening SMBC's compliance capabilities in securities business.

(2) Emphasizing CSR

SMBC newly established a CSR Dept. within the Corporate Planning Dept. and a CSR Committee operated by the CSR Dept. to strengthen the promotion of CSR. (As a result, the existing Environmental Committee was taken over by the CSR Committee.)

(3) Strengthening Credit Risk Management

A Credit Risk Committee was established to ensure the dynamic and proper management of credit risk and the soundness of the bank's corporate governance regime on lending operations.

Consumer Banking

Consulting Business

In fiscal 2004, SMBC's Consumer Banking Unit expanded its range of financial products and asset management services. The Unit added a securities intermediary service and a testamentary trust service, and launched new investment trusts.

In home mortgages, SMBC in April 2005 launched "My Home Plus," a new mortgage loan product that meets diversified customer needs by offering a comprehensive range of services, as well as competitive interest rates.

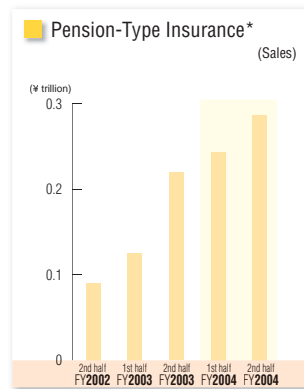

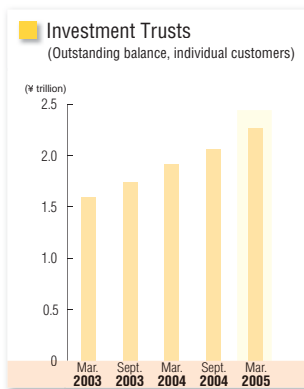

The bank now operates 65 SMBC Consulting Plazas. These immensely popular, dedicated service outlets—open until late on weekdays, and also open on weekends and national holidays—offer consultation on asset management and loans.

"Announcing My Home Plus"

*Launched in the second half of fiscal 2002

Profile

SMFG, principally through the Consumer Banking Unit of its banking subsidiary SMBC, offers high value-added financial services under the brand name "One's Next." This reflects the emphasis we place on helping customers determine the next step of their financial plans according to their stage of life. By creating services that address specific customer needs, we are working to make SMFG into the No. 1 financial group in consumer financial services.

Specifically, we are leveraging our capabilities to develop outstanding products and services, our consulting abilities—provided by staff with

high-level expertise—and our area marketing approach to provide superior financial services to our customers. Pension-type insurance sales in fiscal 2004 amounted to ¥583.9 billion, for a cumulative total of ¥1,063.5 billion. Sales of foreign bonds came to ¥80.8 billion. As of March 31, 2005 the outstanding balance of investment trusts under management was ¥2,264.8 billion, and that of mortgage loans was ¥13,240.4 billion. These achievements underscore the popularity of our services.

"We offer three card loan products."

Consumer Finance

In September 2004, SMFG formed a business alliance with Promise Co., Ltd., one of Japan's leading consumer finance companies. Under the alliance, SMFG established Card Loan Plazas in March 2005 to centralize all operations involved in the processing of card loan applications, including the receipt of applications, requests to Promise for credit screening, notification of the evaluation results, and the receipt of inquiries. In addition, SMBC installed 427 ACMs (Automatic Contract Machines) at domestic branches in April 2005, and launched a joint consumer finance business with At-Loan Co., Ltd. and Promise.

Settlement and Finance Business

We are continuously working to upgrade the features of our popular online service "One's Direct" by expanding the service menu, thus enhancing customer convenience. This remote banking service was ranked as the industry leader for three consecutive years in the Internet Banking Services ranking by Gomez, Inc., a leading Internet performance rating company. The number of subscribers to "One's Direct" as of March 31, 2005 was 5.77 million, an increase of approximately 960,000 from March 31, 2004.

Low-Cost Operations

In April 2005, SMBC began reorganizing its domestic branch network to improve customer service and enhance operational efficiency. In the new organization, each domestic branch will be divided into a "branch" and a "service office." Branches specialize in business promotion targeting individuals, while service offices focus on raising the efficiency of back-office operations in order to improve customer satisfaction, establish advanced compliance and operations management systems.

Topics

Reinforcing Cash Card Security

In February 2005, SMBC introduced the IC cash card, a smart card with an embedded IC chip. SMBC also plans to introduce an IC cash card equipped with a biometric authentication system to ensure even tighter security.

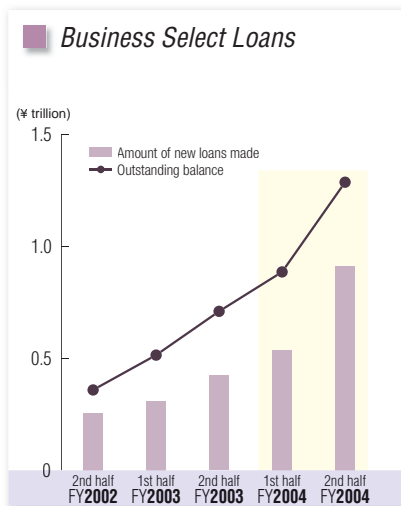

"One's Message" Service

In April 2005, SMBC launched the new "One's Message" Service, a service for clients who do not feel the need to leave a formal will, but would like to communicate their last wishes to their families and make sure they know the whereabouts of important documents such as bank passbooks.

The bank keeps the form and sends it to the designated person at the time of inheritance.

Middle Market Banking

Proactive Stance on Loans to Mid-sized Companies and SMEs

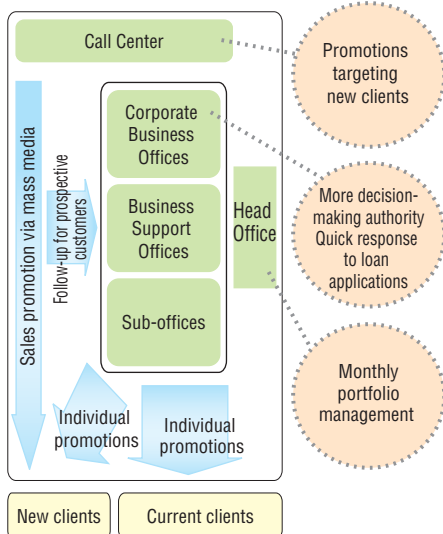

Aware of the importance of the sound development of mid-sized companies and small and medium-sized enterprises ("SMEs") to the growth of the Japanese economy, all members of SMFG are strongly committed to extending services that will help such customers enhance their earnings performance while implementing strategies for the expansion of their operations.

SMBC, for example, is focused on a new type of unsecured loan to mid-sized companies and SMEs that does not require collateral or third-party guarantees. In fiscal 2004, SMBC began offering the *V-Fund Loan*, for which loan approvals depend on evaluations of the borrower's technologies and business model. A number of other new loans have been developed as well: *Business Select Loans*, based on alliances with local governments, such as Osaka Prefecture, to which they give a partial guarantee, and *Business Select CLO Loans*, guaranteed by the Japan Finance Corporation for Small and Medium Enterprise; and *Members' Business Loans* for members of chambers of commerce and industry. In addition, we added 40 offices capable of providing *Business Select Loans*.

Through these fine-tuned approaches, we have been able to meet a broad range of financing needs of middle market companies. As a result, in fiscal 2004, SMBC extended approximately ¥3.7 trillion in new-type unsecured loans to these companies, marking a ¥800 billion increase over fiscal 2003. Even more noteworthy was the growth in *Business Select Loans*. We extended a total of ¥1.4 trillion in *Business Select Loans* in fiscal 2004, raising the outstanding balance to ¥1.2 trillion. Both figures represent large increases over fiscal 2003.

In addition, during fiscal 2004 SMBC extended loans totaling ¥1.9 trillion to 21,000 new customers.

Business Model for Business Select Loans

Aggressive Moves to Raise Customers' Corporate Value

Companies must cope with challenges posed by changes in their operating environments, such as the diversification of funding methods and the need for accounting methods with greater transparency. Accordingly, we need to offer our customers a more diverse range of business solutions.

We believe that raising corporate value is the most important issue for our clients. To help clients achieve this goal, we offer high-quality services that are backed by the aggregate resources of the entire group, including those of SMBC and Daiwa Securities SMBC Co., Ltd. Primarily, we provide solutions relating to business revitalization, spin-offs of business divisions and subsidiaries, real estate securitization, and business succession.

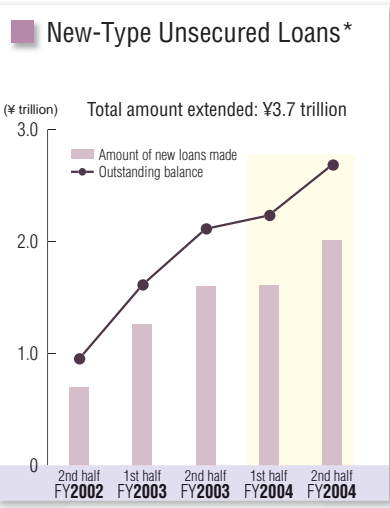

In fiscal 2005, SMFG will continue to improve its risk-taking capabilities to respond effectively to the diversifying needs of our clients with the aim of developing this corporate-value-enhancement business into a new earnings driver.

Profile

Services for Mid-sized Companies and SMEs

SMFG is leveraging the expertise of the Middle Market Banking Unit of SMBC and Group companies to strengthen its capabilities for managing higher levels of risk. The aim is to provide even more accurate and speedy responses to the funding and solution

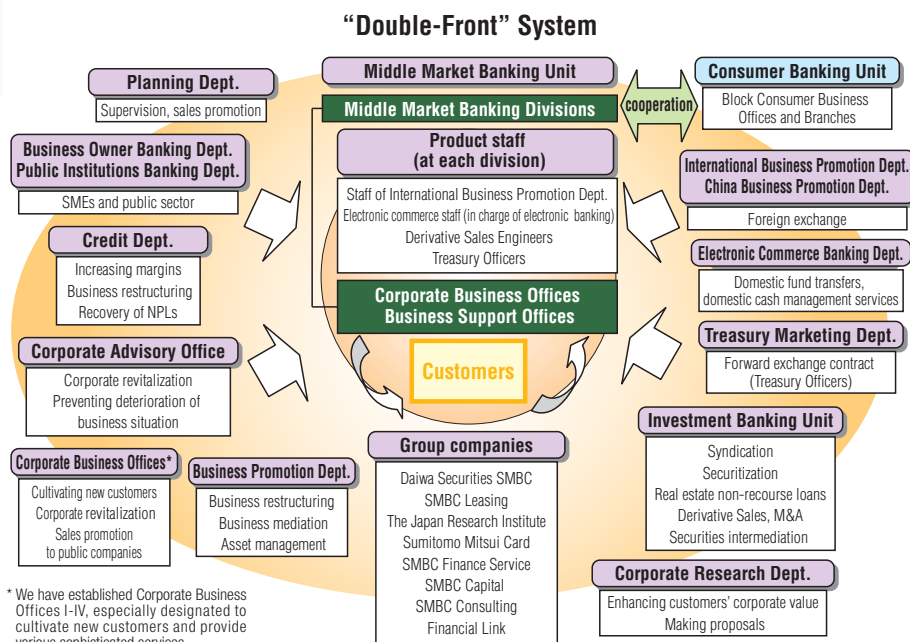

needs of mid-sized companies and SMEs, thereby supporting the growth of these companies. Our goal is to become Japan's No. 1 bank in the field of middle market banking.

* Business Select Loans, N-Fund Loans, SMBC-CLO, V-Fund Loans, etc.

Our “Double-Front” System Facilitates High-Quality Services

SMFG has established a “double-front” system, which focuses on providing a unified response on two fronts—at both branch offices and the head office—to accurately meet specific funding and solution needs of midsized companies and SMEs. With the SMBC Middle Market Banking Unit at its nucleus, this system combines the know-how of corporate business offices, which have a first-hand knowledge of clients, with the specialized knowledge of head office departments to devise solutions, realizing high-quality and speedy services for clients.

* We have established Corporate Business Offices I-IV, especially designated to cultivate new customers and provide various sophisticated services.

Precisely Tailored Services to Satisfy Funding Needs of Midsized Companies and SMEs Development of a new type of unsecured loans

SMBC Crecer Loan

Introduced in April 2005, the *SMBC Crecer Loan* targets companies with annual sales of up to ¥3 billion. Together with the *Business Select Loan* and other loans, this new product gives SMBC a seamless lineup of loans that precisely match the scale and funding requirements of each middle market client.

V-Fund Agri

V-Fund Agri, a newly developed version of the *V-Fund Loan*, specifically targets companies in the agriculture sector. As with all *V-Fund Loans*, we evaluate companies based on their technologies and business models. We will continue to support the growth of middle market companies by further expanding our lineup of loan products and services.

Announcing the *SMBC Crecer Loan*

Employing Diverse Means of Financing

In response to the increasingly complex financing needs of leading corporate clients, SMBC's Corporate Banking Unit contributes to their development of sophisticated financial strategies by devising innovative financing arrangements such as non-recourse loans, as well as equity financing in cooperation with Daiwa Securities SMBC Co., Ltd.

The Corporate Banking Unit is working to develop even more innovative financing arrangements for providing financial support for corporate activities in many different fields as corporate earnings rebound amid a general economic recovery.

SMBC is also responding to customer expectations that banks increase the level of risk-taking by offering flexible financing terms and developing innovative financing programs, while simultaneously making efforts to adequately manage risk.

Providing Comprehensive Financial Services on a Global Scale

We offer sophisticated support to clients making proactive moves toward a global presence by providing the latest information collected through SMFG's extensive network of bases in Japan and abroad, in addition to financing, settlement and other services.

The staff at our network of bases will continue to work together to offer our customers high-quality financial services.

High Value-Added Solutions for Business Strategies

The momentum for business restructuring is being seen in many industries and the ability to support companies in their implementation of streamlining strategies is becoming a decisive factor for doing business with large corporations.

SMFG fully utilizes the Group's know-how to propose a broad range of solutions on a continuing basis, thus providing clients with optimum solutions to raise their corporate value.

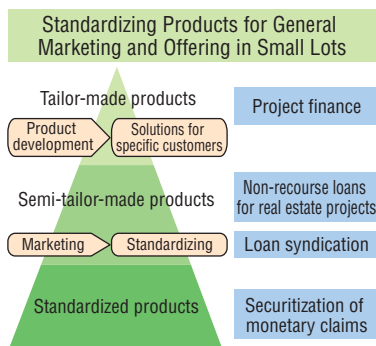

Profile

SMFG, working primarily through SMBC's Corporate Banking Unit, provides high value-added financial services to Japan's top-tier corporations, leveraging the wide-ranging resources of Group members.

In proposing solutions for the multifarious management issues facing our large-scale corporate

clients, we first take care to obtain a thorough grasp of all needs specific to each company. This enables us to design the optimal solution for each case, providing invaluable support for our customers' efforts to enhance their corporate value.

Investment Banking

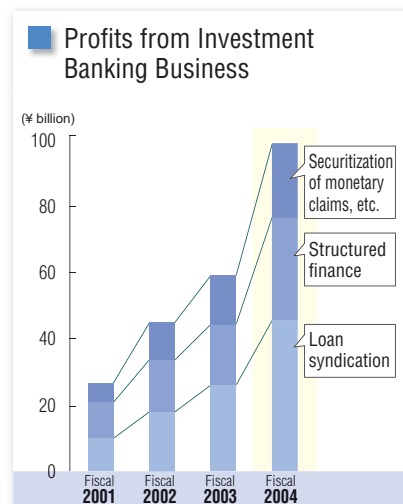

Competitive Advantage

SMBC has a competitive edge in the investment banking business, which provides various financing methods and financial solutions such as M&A and securitization for corporate customers.

One of the features of SMBC's investment banking business is that tailor-made products developed for specific customers are quickly redesigned into small-lot, standardized products to make them available to a wider range of customers. As a result, profits from major investment banking products such as loan syndication, structured finance and securitization of monetary claims have been growing steadily.

Alliance with Daiwa Securities Group

Daiwa Securities SMBC is a wholesale securities company—jointly established by SMFG and Daiwa Securities Group Inc.—which started business in April 1999. Since then, for six years, the two groups have been creating a solid framework of collaboration through initiatives such as the active exchange of personnel and the establishment of a structure to promote collaboration. The effectiveness of this strong partnership is reflected in the continued steady growth in their fiscal 2004 business results.

Accomplishments in Fiscal 2004

SMBC's Investment Banking Unit and Daiwa Securities SMBC both reported surges in profits for the fiscal year ended March 31, 2005.

SMBC was appointed as the financial adviser of the Tokyo Metropolitan Government-sponsored Super Eco-Town Project, Japan's largest waste-into-electricity facility. SMBC was also mandated as the financial advisor and arranger for the Central Government Office Building No. 7 project, the largest private finance initiative (PFI) project in Japan. Daiwa Securities SMBC was ranked No. 1 in the league tables by Thomson Financial for secondary public equity offerings and corporate straight bond underwriting. Thus, both companies continued to achieve top-class performance in the key businesses of investment banking. Also, SMBC entered the securities intermediary business upon its deregulation, and results have been better than expected. This indicates that the business has great prospects of becoming a major earnings driver for the Investment Banking Unit.

Profile

Leveraging the collaboration among SMBC's Investment Banking Unit, Daiwa Securities SMBC and other Group companies, SMFG will be able to improve its clients' corporate value. To this end, we

offer our corporate customers optimum solutions to meet their various needs, such as fund procurement, asset management, risk hedging and M&As.

International Banking

SMBC's new Hangzhou Branch opened in December 2004

Providing Global Solutions Leveraging the Group's Strengths

- Expanded investment banking business in Asia, with a focus on China, through close collaboration between SMBC and Daiwa Securities SMBC Co., Ltd.
- Strengthened collaboration between domestic and overseas operations, including cross-company operations in the Americas, through a comprehensive business framework
- Expanded business with U.S. and European companies through the alliance with the Goldman Sachs Group, Inc.
- Promoted global collaboration between the Global Client Business Department (the department responsible for business with foreign corporations operating in Japan), the Global Institutional Banking Department (the department responsible for business with foreign financial institutions), and overseas offices

By marshaling the Group's resources in this way, we provide customers with high value-added services tailored to their specific needs.

Building Up Assets with High Profitability and Liquidity

Taking into consideration the strict capital adequacy requirements of the New Basel Accord (Basel II), we are focusing on securitized products, particularly the "buy and sell" loan business in Asia. To contribute to the improvement of SMFG's asset quality, we are also enhancing the features of our fee businesses, such as clearing and custody services.

Focusing on Crossover Business Transactions

The shift from the hitherto region-/industry-oriented approach to one focused on crossover business transactions will enable us to further expand our earnings base by:

- Gaining a better grasp of commercial flows across the Americas, Europe and Asia.
- Identifying demand for services relating to transactions between Japanese and foreign companies.

Raising Profile in Emerging and Growth Markets

In addition to the U.S., European and Asian markets, SMFG is moving aggressively into emerging markets. We are adapting our project finance, trade finance and other products to best suit the specific needs of each market, taking into account the changing market environments. By seizing every business opportunity in markets worldwide, we aim to be a global financial complex that leverages its strengths in businesses related to Japan and other Asian countries.

Profile

The international banking operations of SMFG, centering on SMBC's International Banking Unit, serve all customers operating globally, including Japanese and foreign companies, financial institutions, sovereign governments, public entities, and Japanese branches and subsidiaries of multinational corporations.

We are working to strengthen our worldwide network, particularly in Asia, centering on China, with the aim of improving customer accessibility. In fiscal 2004, we opened a new branch in Hangzhou and a representative office in Hanoi.

Treasury Markets

Supporting Customers' Transactions

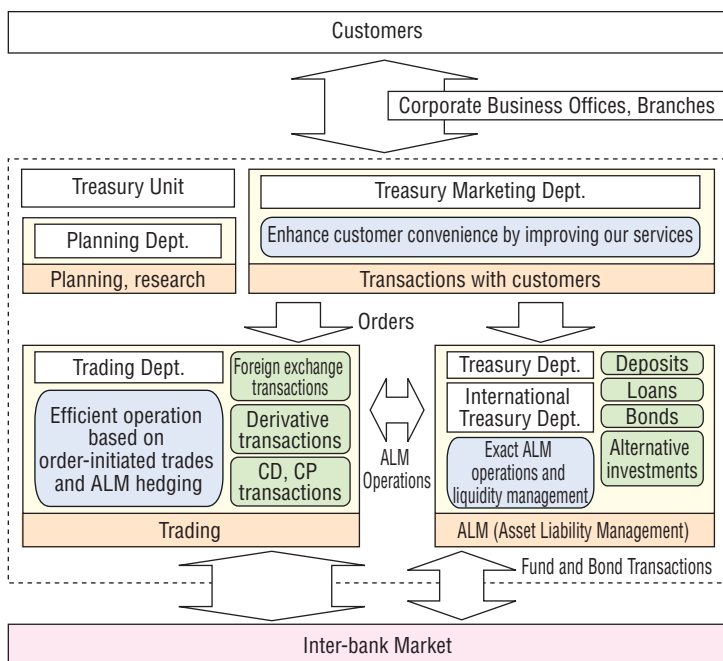

SMFG aims to provide its clients with world-class support services for their market transaction needs through the Treasury Unit of SMBC. The Treasury Unit undertakes operations in money, foreign exchange, bond, and derivative markets. Based on a careful evaluation of each client's needs, we design financial products and services that deliver optimal value-added solutions.

Enhancing Customer Convenience

In fiscal 2004, responding to customers' transaction needs, the Treasury Unit took initiatives such as the promotion of currency option transactions and NDF (non-deliverable forwards) for corporate clients, as well as deposits with foreign exchange forward contracts for individuals.

i-Deal

i-Deal is an easy-to-use online dealing system that allows customers to conclude foreign exchange forward contracts over the Internet. In fiscal 2004, we enhanced the convenience of this service by expanding its functions. We increased the range of currencies handled to include the Thai baht, and offered the additional option of conversion of foreign currency transactions into U.S. dollars, on top of the existing option of conversion into yen. In another move, we started providing deposits with a foreign exchange forward contract to individual customers through our *One's Direct* service menu.

The Treasury Unit will continue working to fulfill all our customers' market transaction needs by providing comprehensive support services of the highest level.

Asset Liability Management and Dealing Operations

Through its asset liability management (ALM) and trading operations, the Treasury Unit strives to secure a sufficient level of earnings by investing in a diverse range of portfolios, and by conducting well-timed arbitrage operations while effectively managing market risk and liquidity risk.

In fiscal 2004, to diversify our revenue sources we began undertaking alternative investments on a full-scale basis in addition to interest rate and foreign exchange trading, and established a new earnings driver.

We will continue to pursue optimal capital allocation with a level of risk exposure appropriate to market conditions, with the aim of securing stable profits.

Profile

The Treasury Unit focuses on expanding transaction volume, strengthening ALM operations and diversifying fund management channels through the accurate

assessment of domestic and overseas market trends to further strengthen profitability, while effectively managing risk.

- Notes: 1. Figures for the years ended March 31, 2001 are combined figures of the former Sakura Bank and the former Sumitomo Bank.
2. Figures related to profit or loss for the year ended March 31, 2003 include the former SMBC's operating results for the period from April 1, 2002 to March 16, 2003 to make possible a substantive comparison with previous years.
3. As a result of the merger of the two banks, total stockholders' equity as of April 1, 2001, stood at ¥3,772,889 million.
4. Total stockholders' equity as of March 31, 2005, 2004, 2003 and 2002, includes net unrealized gains (losses) on "other securities."
5. Please refer to page 153 for the definitions of risk-monitored loans and problem assets based on the Financial Reconstruction Law.
6. Unrealized gains (losses) on other securities represent the difference between the market prices and acquisition costs (or amortized costs) of "other securities." The values of stocks are calculated using the average market prices during the final month. For details, please refer to page 36.
7. Number of employees has been reported on the basis of full-time workers. Number of employees includes locally hired overseas staff members but excludes contract employees, temporary staff, and executive officers who are not also Board members.
8. The former Sakura Bank's fiscal year-end dividend per share for 2001 was calculated assuming a dividend payment equivalent to the amount of money resulting from the merger. Dividend per share for the term ended March 31, 2003 represents an interim dividend per share paid by the former SMBC to its holding company.
9. Effective from the year ended March 31, 2002, treasury stock is disclosed as a deductible item from stockholders' equity. As a result, stockholders' equity per share and net income (loss) per share are calculated on the basis of the number of shares outstanding less treasury stock.

Financial Review

Sumitomo Mitsui Financial Group (Consolidated)

Sumitomo Mitsui Financial Group, Inc. and Subsidiaries

The following is a summary of SMFG's consolidated financial results for fiscal 2004 ended March 31, 2005.

1. Operating Results

Business results for fiscal 2004 include the results of 167 consolidated subsidiaries (120 in Japan and 47 overseas) and 53 subsidiaries and affiliates accounted for by the equity method (25 in Japan and 28 overseas).

Gross profit showed a year-on-year decrease of ¥44.5 billion, to ¥2,024.9 billion, primarily attributable to declines in net interest income and net trading income, which more than offset increases in net fees and commissions and net other operating income.

Ordinary loss totaled ¥30.3 billion, compared with ¥342.8 billion in ordinary profit in fiscal 2003, a year-on-year deterioration of ¥373.1 billion, which is attributable to measures taken to dispose of non-performing loans and write-down securities with the aim of ensuring an earnings recovery in fiscal 2005 onward.

Extraordinary gains (losses), income taxes, and minority interests resulted in a net loss of ¥234.2 billion, compared

with a ¥330.4 billion gain in the previous term, a year-on-year deterioration of ¥564.6 billion.

Deposits (excluding negotiable certificates of deposit) as of March 31, 2005, stood at ¥68,474.8 billion, a ¥3,141.4 billion increase compared with the previous fiscal year-end. Negotiable certificates of deposit stood at ¥2,713.2 billion, a decrease of ¥806.1 billion over the same period. Loans and bills discounted decreased ¥582.9 billion to ¥54,799.8 billion, while securities decreased ¥2,816.2 billion to ¥24,233.7 billion.

During the term, stockholders' equity decreased ¥295.2 billion to ¥2,775.7 billion, due to the posting of a net loss, as well as the repayment of public funds in the form of buybacks of shares held by the government, which more than offset a capital increase through private placement of shares.

Number of Consolidated Subsidiaries, and Subsidiaries and Affiliates Accounted for by the Equity Method

March 31	2005 (A)	2004 (B)	Increase (decrease) (A) – (B)
Consolidated subsidiaries	167	165	2
Subsidiaries and affiliates accounted for by the equity method	53	48	5

Stockholders' equity	2,775,728	3,070,942	(295,214)

2. Unrealized Gains (Losses) on Securities

Net unrealized gains on securities at March 31, 2005 amounted to ¥694.7 billion, which is an increase of ¥126.4 billion from the previous fiscal year-end. Net unrealized gains on other securities (including “other money held in

trust”), changes in which are directly credited to stockholders' equity, increased by ¥120.8 billion over the same period, to ¥696.5 billion, mainly attributable to an improvement in the valuation of bonds.

Unrealized Gains (Losses) on Securities

March 31	Millions of yen						
	2005				2004		
	Net unrealized gains (losses) (A)	(A) – (B)	Unrealized gains	Unrealized losses	Net unrealized gains (losses) (B)	Unrealized gains	Unrealized losses
Held-to-maturity securities	¥ (1,818)	¥ 5,607	¥ 2,114	¥ 3,933	¥ (7,425)	¥ 2,840	¥ 10,266

Stocks	705,053	35,269	750,480	45,426	669,784	736,878	67,094
Bonds	14,961	118,217	34,971	20,010	(103,256)	18,590	121,847
Others	(23,675)	(32,759)	15,903	39,579	9,084	32,047	22,963
Other money held in trust	204	83	300	95	121	222	100
Total	694,724	126,416	803,771	109,046	568,308	790,580	222,271
Stocks	705,053	35,269	750,480	45,426	669,784	736,878	67,094
Bonds	12,621	124,404	36,554	23,932	(111,783)	20,330	132,113
Others	(22,950)	(33,257)	16,735	39,686	10,307	33,371	23,063

- Notes: 1. The figures above include unrealized gains (losses) on negotiable certificates of deposit in "Deposits with banks" and claims on loan trusts in "Commercial paper and other debt purchased."
2. Unrealized gains (losses) on stocks are mainly calculated using the average market price during the final month of the respective reporting period. The rest of the securities are valued at the market price as of the balance sheet date.
3. "Other securities" and "Other money held in trust" are valued and recorded on the consolidated balance sheet at market prices. The figures in the table above indicate the differences between the acquisition costs (or amortized costs) and the balance sheet amounts. "Unrealized gains (losses) on other securities" as of March 31, 2005 include gains of ¥469 million that were recognized as income by applying fair value hedge accounting and valuation gains of ¥82 million on embedded financial instruments in their entirety that were recorded as income because their embedded derivatives are not measured separately. Therefore, ¥551 million was excluded from the amount to be directly included in stockholders' equity. "Unrealized gains (losses) on other securities" as of March 31, 2004 include gains of ¥23,452 million recognized as income by applying fair value hedge accounting, which are excluded from the amount to be directly included in stockholders' equity.

3. Consolidated Capital Ratio

SMFG's consolidated capital ratio at March 31, 2005 was 9.94%. (Please refer to "Capital Ratio" section on page 132 for more information.)

Total capital, which constitutes the numerator in the capital ratio calculation equation, was ¥6,020.0 billion, representing a ¥717.3 billion decrease from the previous fiscal year-end. This is mainly attributable to the posting of a net loss, as well as the repayment of public funds in the form of buybacks of shares held by the government, which

more than offset a capital increase through private placement of newly issued shares.

On the other hand, risk-adjusted assets, the denominator in the equation, increased ¥1,348.6 billion to ¥60,552.6 billion from the previous fiscal year-end. This was mainly attributable to the active marketing of mortgage loans and new-type unsecured loans to midsized companies and small and medium-sized enterprises.

Consolidated Capital Ratio

March 31	Millions of yen		
	2005 (A)	2004 (B)	Increase (decrease) (A) – (B)
Tier I capital (A)	¥ 3,262,250	¥ 3,571,604	¥ (309,354)
Tier II capital included as qualifying capital (B)	3,262,250	3,416,547	(154,297)
Deductions (C)	(504,430)	(250,754)	(253,676)
Total capital (D) = (A) + (B) – (C)	¥ 6,020,069	¥ 6,737,397	¥ (717,328)
Risk-adjusted assets (E)	¥60,552,620	¥59,204,015	¥1,348,605
Capital ratio = (D) / (E) × 100	9.94%	11.37%	(1.43)%

4. Dividend Policy

Given the public nature of its business and respecting the stockholders' interests, SMFG subscribes to a fundamental policy of paying dividends as deemed appropriate in view of the need to increase capital and preserve sound operation.

After appropriating retained earnings to increase capital, SMFG paid an annual dividend of ¥3,000 per share of

common stock. Annual dividends for preferred stock were paid in the predetermined amounts for each category of preferred stock.

SMFG did not pay an interim dividend for the reporting term.

Sumitomo Mitsui Banking Corporation (Nonconsolidated)

Sumitomo Mitsui Banking Corporation

The following is a summary of SMBC's nonconsolidated financial results for fiscal 2004 ended March 31, 2005.

1. Operating Results

Banking profit (before provision for general reserve for possible loan losses) in fiscal 2004 decreased ¥59.6 billion year on year to ¥940.5 billion, as a result of a ¥61.2 billion decrease in gross banking profit to ¥1,522.9 billion, and a ¥1.6 billion decrease in expenses (excluding nonrecurring losses) to ¥582.4 billion.

Ordinary loss, calculated by adjusting banking profit (before provision for general reserve for possible loan losses) for nonrecurring items such as total credit cost and losses on stocks, amounted to ¥71.7 billion, compared with ¥185.1 billion profit a year earlier.

After adjusting ordinary loss for extraordinary gains (losses) and income taxes, net loss came to ¥136.8 billion, compared with income of ¥301.1 billion a year earlier, a year-on-year decrease of ¥437.9 billion.

2. Income Analysis

Gross Banking Profit

Gross banking profit in fiscal 2004 declined ¥61.2 billion year-on-year to stand at ¥1,522.9 billion. This was due to a year-on-year decline of ¥114.5 billion in profits posted by the Treasury Unit on the investment of funds, marking a

sharp reversal of the extremely strong performance of the previous term. This decline in profits was partially offset by a ¥71.5 billion increase in net revenue from fees and commissions. The increase in fees and commissions is the result of growth in sales of investment trusts and pension-type insurance products to individuals, and syndicated loans to corporate customers.

Expenses

Expenses (excluding nonrecurring losses) decreased ¥1.6 billion year on year to ¥582.4 billion. This was mainly due to a decline in personnel expenses resulting from workforce downsizing, which more than offset an increase in taxes from the nationwide adoption of a pro forma standard corporation tax (a local corporation tax that was imposed from fiscal 2004) as well as increased nonpersonnel expenses from investment of resources in core businesses.

Banking Profit

Banking profit (before provision for general reserve for possible loan losses) decreased ¥59.6 billion year on year to ¥940.5 billion.

Banking Profit by Business Unit

Year ended March 31, 2005	Billions of yen							
	Consumer Banking Unit	Middle Market Banking Unit	Corporate Banking Unit	International Banking Unit	Community Banking Unit	Treasury Unit	Others	Total
Banking profit (losses) (before provision for general reserve for possible loan losses).....	¥118.0	¥481.0	¥160.5	¥46.6	¥4.2	¥205.0	¥(74.8)	¥940.5
Year-on-year increase (decrease).....	35.7	61.7	12.7	7.7	1.9	(152.4)	(26.9)	(59.6)

Notes: 1. Year-on-year comparisons are those used for internal reporting and exclude changes due to interest rate and foreign exchange rate fluctuations.

2. "Others" consists of (1) financing costs on preferred securities and subordinated debt, (2) profit earned on investing the Bank's own capital, and (3) adjustment of inter-unit transactions, etc.

Nonrecurring Losses (Credit Costs, etc.)

Nonrecurring losses amounted to ¥1,363.7 billion. This is mainly due to the initiatives taken to ensure an earnings recovery in fiscal 2005 onward. In order to reduce future risk factors, the bank took an even more conservative stance than hitherto in assessing assets, resulting in increased provisions for general reserve for possible loan losses. Consequently, credit cost related to disposal of NPLs totaled ¥1,306.3 billion (the amount after addition of gain on reversal of general reserve for possible loan losses was ¥954.8 billion). The bank also took financial measures on securities, such as write-downs totaling ¥227.6 billion (including preferred shares purchased in the past). As a result, losses on stocks totaled ¥118.7 billion. (Please refer to the “Asset Quality” section beginning on page 39 for more information on credit cost and problem assets.)

Ordinary Profit (Loss)

As a result of the foregoing, ordinary loss totaled ¥71.7 billion, compared with a profit of ¥185.1 billion in the previous period, a year-on-year decrease of ¥256.8 billion.

Extraordinary Gains (Losses)

Net extraordinary losses amounted to ¥28.4 billion, compared with a ¥133.7 billion gain in the previous period, a year-on-year decrease of ¥162.1 billion.

Net Income (Losses)

An income tax refund of ¥8.2 billion and deferred income taxes in the amount of ¥38.5 billion were recognized for the reporting period, partly as a result of which the bank reported a net loss of ¥136.8 billion, compared with income of ¥301.1 billion for the previous term, a year-on-year decline of ¥437.9 billion.

3. Assets, Liabilities and Stockholders' Equity

Assets

SMBC's total assets at March 31, 2005 stood at ¥91,129.7 billion on a nonconsolidated basis, a ¥2,979.2 billion decrease compared with the previous fiscal year-end. This decline is mainly due to a ¥2,915.8 billion decrease in securities, mostly Japanese government bonds and foreign securities, from interest-rate-related trading operations.

Liabilities

Liabilities at March 31, 2005 decreased ¥2,861.1 billion to ¥88,377.0 billion from the previous fiscal year-end. This decline was attributable to a ¥2,108.3 billion decrease in payables under securities lending transactions and a

¥1,146.9 billion decrease in bills sold. This decline was the result of an intentional reduction in fund procurement in line with our policy of reducing the total amount of our assets.

Stockholders' Equity

Stockholders' equity decreased by ¥118.1 billion to ¥2,752.7 billion at March 31, 2005. This decline is mainly attributable to the posting of a net loss and a reduction in retained earnings due to dividend payments to SMFG, the parent company, which were greater than increases in capital stock and capital surplus as a result of capital increase through private placement of shares.

Assets, Liabilities and Stockholders' Equity

March 31	Millions of yen		
	2005 (A)	2004 (B)	Increase (decrease) (A) – (B)
Assets	¥91,129,776	¥94,109,074	¥(2,979,298)
Loans and bills discounted	50,067,586	50,810,144	(742,558)
Securities	23,676,696	26,592,584	(2,915,888)
Liabilities	88,377,041	91,238,204	(2,861,163)
Deposits	62,788,328	60,067,417	2,720,911
Negotiable certificates of deposit	2,803,299	3,589,354	(786,055)
Stockholders' equity	2,752,735	2,870,870	(118,135)

4. Unrealized Gains (Losses) on Securities

Net unrealized gains on securities at March 31, 2005 amounted to ¥710.0 billion, which was an increase of ¥119.7 billion from the previous fiscal year-end. Net unrealized gains on other securities (including "other money held

in trust"), changes in which are directly credited to stockholders' equity, increased by ¥95.3 billion over the same period, to ¥651.6 billion due to unrealized gains on bonds compared with a loss for the previous business term.

Unrealized Gains (Losses) on Securities

March 31	2005				2004		
	Net unrealized gains (losses) (A)	(A) – (B)	Unrealized gains	Unrealized losses	Net unrealized gains (losses) (B)	Unrealized gains	Unrealized losses
Held-to-maturity securities	¥ (1,844)	¥ 5,802	¥ 2,089	¥ 3,933	¥ (7,646)	¥ 2,618	¥ 10,265
Stocks of subsidiaries and affiliates	60,343	18,647	60,690	347	41,696	41,696	—
Other securities	651,385	95,239	750,143	98,757	556,146	757,072	200,925
Stocks	667,326	16,225	708,643	41,317	651,101	711,514	60,413
Bonds	7,700	109,590	27,343	19,642	(101,890)	16,211	118,101
Others	(23,641)	(30,576)	14,155	37,797	6,935	29,346	22,410
Other money held in trust	204	83	300	95	121	222	100
Total	710,088	119,770	813,222	103,133	590,318	801,610	211,291
Stocks	727,669	34,871	769,333	41,664	692,798	753,211	60,413
Bonds	5,360	115,776	28,925	23,565	(110,416)	17,950	128,366
Others	(22,941)	(30,878)	14,963	37,904	7,937	30,448	22,510

- Notes: 1. The figures above include unrealized gains (losses) on negotiable certificates of deposit in "Deposits with banks."
2. Unrealized gains (losses) on stocks (excluding stocks of subsidiaries and affiliates) are calculated using the average market price during the final month of the respective reporting period. The rest of the securities are valued at the market price as of the balance sheet date.
3. "Other securities" and "Other money held in trust" are valued and recorded on the consolidated balance sheet at market prices. The figures in the table above indicate the differences between the acquisition costs (or amortized costs) and the balance sheet amounts.
"Unrealized gains (losses) on other securities" as of March 31, 2005 include gains of ¥469 million that were recognized as income by applying fair value hedge accounting and valuation gains of ¥82 million on embedded financial instruments in their entirety that were recorded as income because their embedded derivatives are not measured separately. Therefore, ¥551 million was excluded from the amount to be directly included in stockholders' equity. "Unrealized gains (losses) on other securities" as of March 31, 2004 include gains of ¥23,452 million recognized as income by applying fair value hedge accounting, which are excluded from the amount to be directly included in stockholders' equity.

5. Deferred Tax Assets

Deferred Tax Assets on the Balance Sheet

SMBC computes deferred tax assets based on reasonable estimates of the size of tax benefits on collectibility of assets in question in the future in line with Accounting Standards for Tax Effect Accounting (issued by the Business Accounting Deliberation Council dated October 30, 1998) and related practical guidelines. Moreover, SMBC continues to take a conservative stance on the recognition of deferred tax assets from the viewpoint of maintaining a sound financial position, taking into full consideration the opinions expressed in the "Strict Audit to Major Banks," issued by the Japanese

Institute of Certified Public Accountants (JICPA) on February 24, 2003.

Net deferred tax assets at March 31, 2005 amounted to ¥1,502.2 billion, an ¥88.3 billion decrease from the previous term-end. This is mainly attributable to the increase in net unrealized gains on other securities mentioned previously. In addition, the valuation allowance (which was not included in the scope of outstanding deferred tax assets due to taking a conservative stance) amounted to ¥553.3 billion at March 31, 2005.

		(Billions of yen)			(Reference)

	Net unrealized losses on other securities	8	—	—	—	—
	Net operating loss carryforwards	9	822.8	(128.6)	951.4	2,008.8
	Other	10	62.8	(2.6)	65.4	168.1
(C)	Valuation allowance	11	553.3	196.0	357.3	
(D)	Total deferred tax liabilities	12	¥ 323.6	¥ 74.5	¥ 249.1	¥ 796.5
	Gains on securities contributed to employee retirement benefits trust	13	51.7	26.2	25.5	127.3
	Net unrealized gains on other securities	14	264.5	48.0	216.5	651.1
	Other	15	7.4	0.3	7.1	18.1
	Net deferred tax assets (balance sheet amount) (A) – (D)	16	¥1,502.2	¥ (88.3)	¥1,590.5	
	Amounts corresponding to the estimated taxable income before adjustments	17	1,694.1	(35.5)	1,729.6	
	Amounts to be realized after more than a certain period (Note 1)	18	72.6	(4.8)	77.4	
	Amount corresponding to the deferred tax liabilities shown in 14 above (Note 2)	19	(264.5)	(48.0)	(216.5)	
	Effective income tax rate	20	40.63%	—	40.63%	

Notes: 1. Deferred tax assets arising from temporary differences that are expected to be reversed after more than five years (such as reserve for employee retirement benefits and depreciation of buildings) may be recognized if there is a high likelihood of such tax benefits being realized. (JICPA Auditing Committee Report No. 66 "Auditing Treatment Regarding Judgment of Realizability of Deferred Tax Assets")

2. Deferred tax assets are recognized on the balance sheet on a net basis after offsetting against deferred tax liabilities arising from net unrealized gains on other securities. But the collectability is assessed for the gross deferred tax assets, before offsetting against deferred tax liabilities. (JICPA Auditing Committee Report No. 70 "Auditing Treatment Regarding Application of Tax Effect Accounting to Valuation Differences of Other Securities and Losses on Impairment of Fixed Assets")

Reason for Recognition of Deferred Tax Assets on the Balance Sheet

(a) Recognition Criteria

Practical Guideline 5 (1), examples (4) proviso

- (1) SMBC has significant operating loss carryforwards on the tax base. These operating loss carryforwards are due to SMBC taking the below measures in order to quickly strengthen its financial base under the prolonged deflationary pressure, and are accordingly judged to be attributable to extraordinary factors. As a result, SMBC recognized deferred tax assets to the limit of the estimated future taxable income for the period (approximately 5 years) pursuant to the practical guideline on assessing the collectability of deferred tax assets issued by JICPA ("Practical Guideline") (*).
- (a) Disposal of Non-performing Loans
SMBC established internal standards for write-offs and provisions based on self-assessment in accordance with the "Prompt Corrective Action" adopted in fiscal 1998 pursuant to the law concerning the maintenance of sound management of financial institutions (June 1996). SMBC has been aggressively disposing non-performing loans and bolstering provisions against the risk of asset deterioration under the severe business environment of a prolonged sluggish economy.
In addition, pursuant to the "Program for Financial Revival" of October 2002, SMBC accelerated the disposal of non-performing loans in order to reduce the problem asset ratio to half by the end of fiscal 2004. As a result, SMBC achieved this target 6 months ahead of schedule, in the 1st half of fiscal 2004. In the process, taxable disposals that were made in the past were realized, while new taxable disposals were recognized. As a result, taxable disposal of non-performing loans (***) amounted to approximately ¥2.16 trillion as of March 31, 2005.
- (b) Disposal of Unrealized Losses on Stocks
SMBC has been accelerating its effort to reduce stockholdings in order to reduce the risk of stock price fluctuations, and early meet the regulation limiting stockholdings that was adopted in fiscal 2001.
During fiscal 2002, SMBC sold stocks and reduced the balance by approximately ¥1.1 trillion and also disposed all at once unrealized losses on stocks of approximately ¥1.2 trillion by writing off impaired stocks and using the gains on the March 2003 merger.
Consequently, SMBC met the regulation limiting stockholdings at the end of fiscal 2002, before the deadline.
As a result, the outstanding balance of taxable write-off on securities (***) increased (from approximately ¥0.1 trillion as of March 31, 1999 to approximately ¥1.5 trillion as of March 31, 2003). On the other hand, taxable write-off of securities carried out in the past is now being realized through accelerated selling of stocks (In fiscal 2004, approximately ¥130 billion was realized).
- (2) Consequently, operating loss carryforwards on the tax base amounted to approximately ¥2 trillion as of March 31, 2005, but they are certain to be offset by the end of their carry-over period by the taxable income that will be generated in the future. No material operating loss carryforwards on the tax base have expired in the past.

(*) JICPA Auditing Committee Report No. 66 "Auditing Treatment Regarding Judgment of Realizability of Deferred Tax Assets"

(***) Corresponds to "(Reference) Temporary differences" of the table on the previous page.

(Reference 1) Outline of Practical Guideline 5 (1), examples (4)

When a company has material operating loss carryforwards on the tax base as of term-end, deferred tax assets may be considered to be collectable to the extent of the estimated taxable income for the next fiscal year and relating to the temporary differences expected to be reversed in the next fiscal year.

However, when operating loss carryforwards are due to the company's restructuring efforts, changes in laws, and/or other extraordinary factors, the deferred tax assets may be considered to be collectable to the extent of the estimated taxable income for the estimation period (approximately 5 years) and relating to the temporary differences expected to be reversed over the estimation period.

(b) Period for Future Taxable Income to be Estimated: 5 years

(c) Accumulated Amount of Estimated Future Taxable Income before Adjustments for the Next 5 Years

Billions of yen		
Estimates of next 5 years		
Banking profit (before provision for general reserve for possible loan losses)	1	¥5,211.0
A Income before income taxes	2	2,961.0
B Adjustments to taxable income (excluding reversal of temporary differences as of Mar. 2005)	3	1,208.6
C Taxable income before adjustments (A + B)	4	¥4,169.6
		↓
Deferred tax assets corresponding to taxable income before adjustments	5	¥1,694.1

(corresponding to 17 of the table on the previous page)

Basic Policy on the Estimation of Future Taxable Income

- (1) Estimate when the temporary differences will be reversed
- (2) Conservatively estimate the taxable income before adjustments for the next 5 years
 - (a) Rationally make earnings projection for up to fiscal 2009 based on the "Plan for strengthening the financial base (up to fiscal 2006)"
 - (b) Reduce an amount reflecting the uncertainty of the projected amount from the projected amount.
 - (c) Add the adjustments to the above amount
- (3) Apply the effective tax rate to the above amount and record the amount as "deferred tax assets"

(Reference 2) Income of final return (before deducting operating loss carryforwards) for the last 5 years

	Billions of yen				
	FY2004	FY2003	FY2002	FY2001	FY2000
Income of final return (before deducting operating loss carryforwards)....	¥316.9	¥(1,437.8)	¥(745.5)	¥241.9	¥(176.0)

Notes: 1. Income of final return (before deducting operating loss carryforwards) = Taxable income before adjustments for each fiscal year – Temporary differences to be reversed for each fiscal year

2. Since the final declaration for the corporate income tax is being done in the end of June, the figures for March 31, 2005 are estimated income of final return as of March 31, 2005.

3. The figures above include amounts arising from "extraordinary factors" that are specified in the Practical Guideline. Taxable income has been reported each year when these amounts are excluded.

Current Status of Problem Assets

Designated as the year for completing the intensive improvement in asset quality, SMBC made every effort in fiscal 2004 to radically reinforce its financial base by further reducing the non-performing loan (NPL) balance by taking various measures including off-balancing, and revitalization of corporate borrowers. As a result, the balance of NPLs—referred to as “problem assets” under the Financial Reconstruction Law—dropped to ¥1,824.6 billion at the end of March 2005, a sharp reduction from the ¥5,920.3 billion at the end of March 2002. This represents an improvement in the NPL ratio (the ratio of problem assets to total assets) from 8.9% to 3.3%. We will leverage the know-how we have amassed from NPL workouts to proactively develop business in corporate revitalization support services and new business areas.

I. Self-Assessment, Write-Offs, and Reserves

1. Self-Assessment

SMBC conducts rigorous self-assessment of asset quality using criteria based on the *Financial Inspection Manual* of the Financial Services Agency and the *Practical Guideline* published by the Japanese Institute of Certified Public Accountants. Self-assessment is the latter stage of the obligor grading process for determining the borrower’s ability to fulfill debt obligations, and the obligor grade criteria are consistent with the categories used in self-assessment.

At the same time, self-assessment is a preparatory task for ensuring SMBC’s asset quality and calculating the appropriate level of write-offs and reserves. Each asset is assessed individually for its security and collectibility. Depending on the borrower’s current situation, the borrower is assigned to one of five categories: Normal Borrowers, Borrowers Requiring Caution, Potentially Bankrupt Borrowers, Effectively Bankrupt Borrowers, and Bankrupt Borrowers. Based on the borrower’s category, claims on the borrower are classified into Classification I, II, III, and IV assets according to their default and impairment risk levels, taking into account such factors as collateral and guarantees. As part of our efforts to bolster risk management throughout the Group, our consolidated subsidiaries carry out self-assessment in substantially the same manner.

Borrower Categories, Defined

Normal Borrowers	Borrowers with good business performance and in good financial standing without identified problems
Borrowers Requiring Caution	Borrowers identified for close monitoring
Potentially Bankrupt Borrowers	Borrowers perceived to have a high risk of falling into bankruptcy
Effectively Bankrupt Borrowers	Borrowers that may not have legally or formally declared bankruptcy but are essentially bankrupt
Bankrupt Borrowers	Borrowers that have been legally or formally declared bankrupt

Asset Classifications, Defined

Classification I	Assets not classified under Classifications II, III, or IV
Classification II	Assets perceived to have an above-average risk of noncollectibility
Classification III	Assets for which final collection or asset value is very doubtful and which pose a high risk of incurring a loss
Classification IV	Assets assessed as uncollectible or worthless

2. Asset Write-Offs and Reserves

In cases where claims have been determined to be uncollectible, or deemed to be uncollectible, write-offs signify the recognition of losses on the account books with respect to such claims. Write-offs can be made either in the form of loss recognition by offsetting uncollectible amounts against corresponding balance sheet items, referred to as a direct write-off, or else by recognition of a loan loss provision on a contra-asset account in the amount

deemed uncollectible, referred to as an indirect write-off. Recognition of indirect write-offs is generally known as provision of reserves.

SMBC's write-off and reserve criteria for each self-assessment borrower category are shown in the table below. As part of our overall measures to strengthen risk management throughout the Group, all consolidated subsidiaries use substantially the same standards as SMBC for write-offs and reserves.

Self-Assessment Borrower Categories		Standards for Write-Offs and Reserves
Normal Borrowers		Amounts are recorded as general reserves in proportion to the expected losses over the next 12 months based on the historical bankruptcy rate for each obligor grading.
Borrowers Requiring Caution		These assets are divided into groups according to the risk of default. Amounts are recorded as general reserves in proportion to the expected losses based on the historical bankruptcy rate for each group. The groups are "claims to substandard borrowers," and "claims to other borrowers requiring caution" excluding claims to substandard borrowers. For the latter, the borrower's financial position and credit situation are additionally taken into account for establishing sub-groups. Additionally, SMBC uses the discounted cash flow (DCF) method to calculate the amount of reserve for possible losses on large-scale claims.
Potentially Bankrupt Borrowers		SMBC sets specific reserves for possible loan losses on the portion of Classification III assets (calculated for each borrower) not secured by collateral, guarantee, or other means. In addition, SMBC applies the discounted cash flow (DCF) method to large-scale claims for calculating individual amounts on the condition of rational estimates of future cash flows.
Effectively Bankrupt/Bankrupt Borrowers		SMBC calculates the amount of Classification III assets and Classification IV assets for each borrower, and writes off the full amount of Classification IV assets (deemed to be uncollectible or of no value) and sets aside specific reserves for possible loan losses against the full amount of Classification III assets.
Notes	General reserve	Provisions made in accordance with general inherent default risks of loans, unrelated to specific individual loans or other claims
	Specific reserve	Provisions made for claims that have been found uncollectable in part or in total (individually evaluated claims)

Discounted Cash Flow Method

SMBC utilizes the discounted cash flow (DCF) method to calculate the amount of reserves required to cover possible losses on large-scale claims to substandard borrowers and potentially bankrupt borrowers. The DCF method is applied in cases where it is reasonable to estimate the future cash inflow of the borrower that can be used for repayment of the principal and the payment of interest on the debt. SMBC then makes provisions equivalent to the excess of the book value of the claims over the said cash inflow, discounted by the initial contractual interest rate or the effective interest rate at the time of origination. In this way, we provide sufficient reserves against the risk of a future deterioration in asset quality.

One of the major advantages of the DCF method over conventional methods of calculating the amount of reserves required to cover possible loan losses is that it enables effective evaluation of each individual borrower. In the case of this method, the required amount of reserves may vary according to the basic data used in applying the DCF method, such as estimated future cash flow based on the borrower's business reconstruction plan, the applied discount rate, and the probability of the borrower going into bankruptcy. Thus, SMBC makes every effort to utilize timely and appropriate data to realize the most accurate estimates possible.

II. Credit Cost

The amount required for the disposal of NPLs—known as “credit cost”—refers to the additional provision for loan losses in the case of provisioning, and the difference between the amount of

uncollectible loans and provisions already made in the case of write-offs. The credit cost for fiscal 2004 is shown in the table below.

■ Credit Cost (SMBC Nonconsolidated; year ended March 31, 2005)

(Billions of yen)

Credit cost	¥1,306.3
Write-off of loans	698.0
Provision for specific reserve	474.1
Losses on loans sold to CCPC	—
Losses on sale of loans	138.0
Provision for loan loss reserve for specific overseas countries	(3.8)
Provision for general reserve for possible loan losses	(351.5)
Total credit cost	¥ 954.8
Reserve for possible loan losses	¥ 989.1
Amount of direct reduction	¥1,531.8

■ Credit Cost (SMFG Consolidated; year ended March 31, 2005)

(Billions of yen)

Total credit cost	¥1,196.8
Reserve for possible loan losses	¥1,273.6
Amount of direct reduction	¥1,782.2

■ Reserve for Possible Loan Losses (March 31, 2005)

(Billions of yen)

	SMBC (Nonconsolidated)	SMFG (Consolidated)
Reserve for possible loan losses	¥989.1	¥1,273.6
General reserve	417.6	633.6
Specific reserve	567.6	636.1
Loan loss reserve for specific overseas countries	3.9	3.9

In fiscal 2004, we succeeded in resolving the NPL problem and are now in the next phase, starting from fiscal 2005, in which our efforts will be focused on bringing credit cost back down to a normal level. To this end, during the reporting period, we took various initiatives, including the bolstering of reserves, and thus

significantly reduced the degree of risk involved in our loan operations.

The bank's total credit cost on a nonconsolidated basis amounted to ¥954.8 billion for the reporting term.

III. Disclosure of Problem Assets and Off-Balancing

1. Disclosure of Problem Assets

Problem assets are loans and other claims of which recovery of either principal or interest appears doubtful, and are disclosed in accordance with the Banking Law (in which they are referred to as "risk-monitored loans") and the Financial Reconstruction Law

(where they are referred to as "problem assets"). Problem assets are classified based on the borrower categories assigned during self-assessment. The following tables explain the asset classification stipulated by the Financial Reconstruction Law and the differences between risk-monitored loans and problem assets.

Classification of Problem Assets Based on the Financial Reconstruction Law

Bankrupt and quasi-bankrupt assets	This category is defined as the sum of claims on Bankrupt Borrowers and Effectively Bankrupt Borrowers under self-assessment, excluding Classification IV assets, which are fully written off. Classification III assets are fully covered by reserves, and Classification I and II assets, the collectible portion, are secured by collateral, guarantees, or other means.
Doubtful assets	This category is defined as claims on Potentially Bankrupt Borrowers under self-assessment. Specific reserves are set aside for Classification III assets, and Classification I and II assets, the collectible portion, are secured by collateral, guarantees, or other means.
Substandard loans	This category is defined as claims on Borrowers Requiring Caution under self-assessment. This category comprises past due loans (three months or more) and restructured loans.
Normal assets	This category is defined as the term-end sum of loans, securities lending, import and export, accrued interest, suspense payments, and customers' liabilities for acceptances and guarantees that are not included in the other three categories.

Note: Based on the borrower's category under self-assessment, claims on the borrower are categorized as Classification I, II, III, and IV assets according to their default and impairment risk levels. (Please refer to page 39 for the asset classification table.)

□ Problem Assets Based on the Financial Reconstruction Law, and Risk-Monitored Loans

Category of borrowers under self-assessment	Problem assets based on the Financial Reconstruction Law		Risk-monitored loans	
	Total loans	Other assets	Total loans	Other assets
Bankrupt Borrowers	Bankrupt and quasi-bankrupt assets		Bankrupt loans	(C)
Effectively Bankrupt Borrowers			Non-accrual loans	
Potentially Bankrupt Borrowers	Doubtful assets		Past due loans (3 months or more)	
Borrowers Requiring Caution	Substandard loans		Restructured loans	
Normal Borrowers	(Normal assets)			
	(A)		(B)	= (C)

The disclosure of risk-monitored loans corresponds exactly to the disclosure of problem assets based on the Financial Reconstruction Law, except for such non-loan assets as securities lending, import and export, accrued interest, suspense payments, and customers' liabilities for acceptances and guarantees, which are not subject to disclosure.

Since overdue interest from borrowers classified under self-assessment as Potentially Bankrupt Borrowers, Effectively Bankrupt Borrowers, and Bankrupt Borrowers is, as a rule, not recognized as accrued interest, the amount is not included in the problem assets disclosed on the basis of the Financial Reconstruction Law.

2. Problem Asset Disclosure Amounts

The amounts, as of March 31, 2005, of risk-monitored loans and problem assets are shown on the following page. As we had pledged to make fiscal 2004 the year for completing the intensive improvement in asset quality, we took proactive measures to dispose of problem assets while simultaneously facilitating the revitalization and reconstruction of our borrowers. As a result,

the balance of problem assets as defined in the Financial Reconstruction Law was ¥1,824.6 billion, down ¥986.6 billion from the end of March 2004. The NPL ratio improved to 3.3% from 8.9% at the end of March 2002, far exceeding our goal of reducing the NPL ratio by half.

■ Problem Assets Based on the Financial Reconstruction Law (March 31, 2005)

(Billions of yen)

	SMBC (Nonconsolidated)	Compared with March 31, 2004	SMFG (Consolidated)
Bankrupt and quasi-bankrupt assets	¥ 448.3	¥ 86.7	¥ 481.0
Doubtful assets	924.4	(278.3)	1,074.2
Substandard loans	451.9	(795.0)	767.8
Subtotal	¥ 1,824.6	¥(986.6)	¥ 2,323.0
Normal assets	53,452.6	578.2	57,094.8
Total	¥55,277.2	¥(408.4)	¥59,417.8
Amount of direct reduction	¥ 1,531.8		¥ 1,782.2

■ Risk-Monitored Loans (March 31, 2005)

(Billions of yen)

	SMBC (Nonconsolidated)	Compared with March 31, 2004	SMFG (Consolidated)
Bankrupt loans	¥ 46.0	¥ (21.2)	¥ 68.3
Non-accrual loans	1,238.0	(222.8)	1,399.0
Past due loans (3 months or more)	26.9	(20.7)	29.4
Restructured loans	425.0	(774.3)	730.7
Total	¥1,735.9	¥(1,039.0)	¥2,227.4
Amount of direct reduction	¥1,504.6		¥1,723.8

■ Classification under Self-Assessment, Disclosure of Problem Assets, and Write-Offs/Reserves (SMBC Nonconsolidated; March 31, 2005)

(Billions of yen)

Category of borrowers under self-assessment	Problem assets based on the Financial Reconstruction Law	Classification under self-assessment				Reserve for possible loan losses	Reserve ratio	
		Classification I	Classification II	Classification III	Classification IV			
Bankrupt Borrowers	Bankrupt and quasi-bankrupt assets (1) ¥448.3	Portion of claims secured by collateral or guarantees, etc. (5) ¥432.2	Fully reserved ¥16.1	Direct write-offs (Note 1)	Specific reserve ¥22.4 (Note 2)	100% (Note 3)		
Effectively Bankrupt Borrowers								
Potentially Bankrupt Borrowers	Doubtful assets (2) ¥924.4	Portion of claims secured by collateral or guarantees, etc. (6) ¥348.4	Necessary amount reserved ¥576.0		General reserve for substandard loans ¥124.6	45.0% (Note 3)	25.5% (Note 3)	
Borrowers Requiring Caution	Substandard loans (3) ¥451.9 (Claims to substandard borrowers)	Portion of substandard loans secured by collateral or guarantees, etc. (7) ¥179.2						6.7% [17.9%] (Note 4)
Normal Borrowers	Normal assets ¥53,452.6	Claims to normal borrowers			General reserve ¥417.6	0.2% (Note 4)		
					Loan loss reserve for specific overseas countries ¥3.9			
Total (4) ¥55,277.2		NPL ratio (A) / (4) 3.3% (Note 5)		Total reserve for possible loan losses ¥989.1		Reserve ratio (B) / (D) 80.0% (Note 6)		
(A) = (1) + (2) + (3) ¥1,824.6		Portion secured by collateral or guarantees, etc. (C) = (5) + (6) + (7) ¥959.8		Unsecured portion (D) = (A) - (C) ¥864.8				
					Coverage ratio { (B) + (C) } / (A)	90.5%		

Notes: 1. Includes amount of direct reduction totaling ¥1,531.8 billion.

2. Includes reserves for assets that are not subject to disclosure under the Financial Reconstruction Law. (Bankrupt/Effectively Bankrupt Borrowers: ¥6.3 billion; Potentially Bankrupt Borrowers: ¥7.5 billion)

3. Reserve ratios for claims on Bankrupt/Effectively Bankrupt Borrowers, Potentially Bankrupt Borrowers, Substandard Borrowers, and Borrowers Requiring Caution: The proportion of each category's total unsecured claims covered by reserve for possible loan losses.

4. Reserve ratios for claims on Normal Borrowers and Borrowers Requiring Caution (excluding claims to Substandard Borrowers): The proportion of each category's total claims covered by reserve for possible loan losses. The reserve ratio for unsecured claims on Borrowers Requiring Caution (excluding claims to Substandard Borrowers) is shown in brackets.

5. Ratio of problem assets to total assets subject to Financial Reconstruction Law

6. Reserve ratio = (Specific reserve + General reserve for substandard loans) ÷ (Bankrupt and quasi-bankrupt assets + Doubtful assets + Substandard loans - Portion secured by collateral or guarantees, etc.)

3. Off-Balancing Problem Assets

In the term under review, we continued to focus on off-balancing problem assets, and succeeded in off-balancing ¥1,762.4 billion worth of problem assets. In April 2001, the Japanese government passed the Emergency Economic Package, with the objective of simultaneously revitalizing the financial system and industry.

Specific measures contained in the package include “the radical disposal of problem assets.” This provision requires Japan’s major banks to dispose of loans categorized as “claims to potentially bankrupt borrowers” and worse. Existing loans must be off-balanced within three years, and steady progress is being made.

■ Breakdown of Off-Balancing (SMBC Nonconsolidated; March 31, 2005)

	March 31, 2003	Fiscal 2003		March 31, 2004	Fiscal 2004		March 31, 2005
	①	New occurrences	Off-balanced	②	New occurrences	Off-balanced	③
Bankrupt and quasi-bankrupt assets	¥ 524.9	¥ 125.7	¥ (289.0)	¥ 361.6	¥ 311.9	¥ (225.2)	¥ 448.3
Doubtful assets	2,129.5	1,227.9	(2,154.7)	1,202.7	1,258.9	(1,537.2)	924.4
Total	¥2,654.4	¥1,353.6	¥(2,443.7)	¥ 1,564.3	¥1,570.8	¥(1,762.4)	¥1,372.7
				Increase/Decrease (②-①)			Increase/Decrease (③-②)
Bankrupt and quasi-bankrupt assets				¥ (163.3)			¥ 86.7
Doubtful assets				(926.8)			(278.3)
Total				¥(1,090.1)			¥ (191.6)

Note: The figures shown in the above table under “new occurrences” and “off-balanced” are simple additions of the figures for the first and second halves of the two periods reviewed. Amounts of ¥395.8 billion for fiscal 2003 and ¥486.8 billion for fiscal 2004, recognized as “new occurrences” in the first halves of the terms, were included in the amounts off-balanced in the respective second halves.

4. Problem Assets by Region and Industry

■ Problem Assets by Domicile of Borrowers (SMBC Nonconsolidated; March 31, 2005)

	Financial Reconstruction Law Basis (Excluding normal assets)		Risk-Monitored Loans	
	Percentage		Percentage	
Domestic	98.0%	¥1,787.8	98.1%	¥1,703.6
Overseas	2.0	36.8	1.9	32.3
Asia	0.7	12.8	0.6	9.7
Indonesia	0.2	3.3	0.2	3.3
Hong Kong	0.0	0.4	0.0	0.3
India	0.1	1.1	0.1	1.1
China	0.0	0.2	0.0	0.2
Others	0.4	7.8	0.3	4.8
North America	1.3	22.7	1.3	21.5
Central and South America	0.0	0.7	0.0	0.5
Western Europe	0.0	0.6	0.0	0.6
Eastern Europe	—	—	—	—
Total	100.0%	¥1,824.6	100.0%	¥1,735.9

Note: “Domestic” means the total for domestic branches, excluding the special account for international financial transactions. “Overseas” means the total for overseas branches, including the special account for international financial transactions. The above countries and areas are categorized by the obligor’s domicile.

■ Problem Assets by Type of Borrowers (SMBC Nonconsolidated; March 31, 2005)

	Financial Reconstruction Law Basis (Excluding normal assets)		Risk-Monitored Loans	
	Percentage		Percentage	
Domestic	98.0%	¥1,787.8	98.1%	¥1,703.6
Manufacturing	4.7	85.5	4.7	81.3
Agriculture, forestry, fishery and mining	0.0	0.7	0.0	0.7
Construction	21.7	396.3	19.7	342.2
Transportation, communications, and other public enterprises	2.0	36.2	1.9	33.4
Wholesale and retail	5.8	105.0	6.0	103.3
Finance and insurance	5.2	95.8	5.5	94.5

Services	25.0	456.0	25.9	450.2
Municipalities	—	—	—	—
Others	11.2	203.7	11.6	201.5
Overseas	2.0%	¥ 36.8	1.9%	¥ 32.3
Public sector	0.0	0.1	0.0	0.1
Financial institutions	0.0	0.5	0.0	0.3
Commerce and industry	2.0	36.2	1.9	31.9
Others	—	—	—	—
Total	100.0%	¥1,824.6	100.0%	¥1,735.9

Note: “Domestic” means the total for domestic branches, excluding the special account for international financial transactions. “Overseas” means the total for overseas branches, including the special account for international financial transactions.

Risk Management

Basic Principles

Financial and economic deregulation, globalization, and advances in IT are generating new business opportunities for financial institutions. The risks accompanying these new business opportunities are not only increasing in number but also growing in diversity and complexity. Accordingly, identifying, measuring, and controlling risks have never been more important in the management of a financial holding company.

SMFG has encapsulated the basic principles to be employed in risk management in the manual entitled *Regulations on Risk Management*. In the manual, we have specified the basic policies for risk management: 1) Set forth SMFG's Groupwide basic policies for risk management after specifying the categories of risk to which these policies apply; 2) Provide all necessary guidance to Group companies to enable them to follow the basic risk management policies set forth by SMFG and set up their own appropriate risk management systems; 3) Monitor the implementation of risk management by all Group companies to ensure that their practices meet the relevant standards.

Types of Risk, and Risk Management System

At SMFG, we classify risk into the following categories: (1) credit risk, (2) market risk, (3) liquidity risk and (4) operational risk (including processing risk and systems risk). In addition, we provide individually tailored guidance to help Group companies identify categories of risk that need to be addressed. Risk categories are constantly reviewed, and new categories may be added in response to changes in the operating environment. The Corporate Risk Management Department works with the Corporate

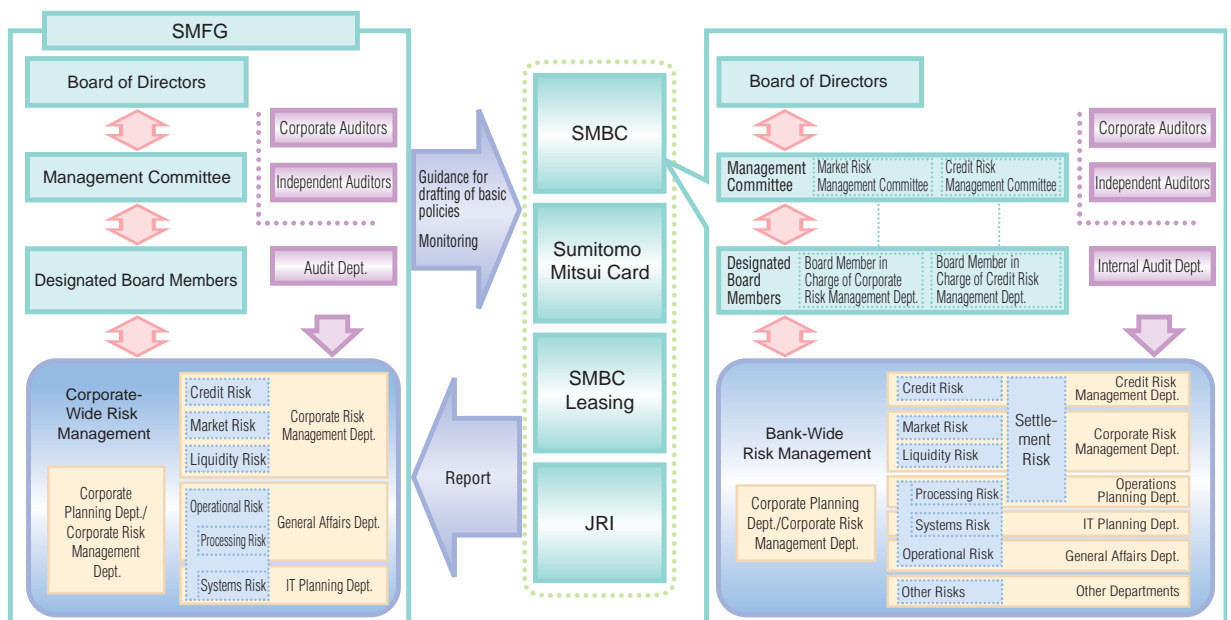

Planning Department to comprehensively and systematically manage all these categories of risk across the entire Group.

Top management plays an active role in determining SMFG's Groupwide basic policies for risk management. The system works as follows: The basic policies for risk management are determined by the Management Committee before being authorized by the Board. The Management Committee, the designated Board members, and the relevant risk management departments perform risk management according to the basic policies.

Risk management systems are in place at the individual Group companies in accordance with SMFG's Groupwide basic policies for risk management. For example, at SMBC, specific departments have been appointed to oversee the handling of the four risk categories listed above, in addition to risks associated with settlement. Each risk category is managed taking into account the particular characteristics of that category. In addition, the Corporate Risk Management Department—independent of the operating units—comprehensively and systematically manages all categories of risk in cooperation with the Corporate Planning Department.

Furthermore, under our system top management plays an active role in the drafting of basic policies of risk management. The decision-making process for addressing credit, market and liquidity risks at the operating level is strengthened by the Credit Risk Management Committee and the Market Risk Management Committee, which are subcommittees of the Management Committee. The Management Committee is also attended by the relevant department heads.

SMFG's Risk Management System

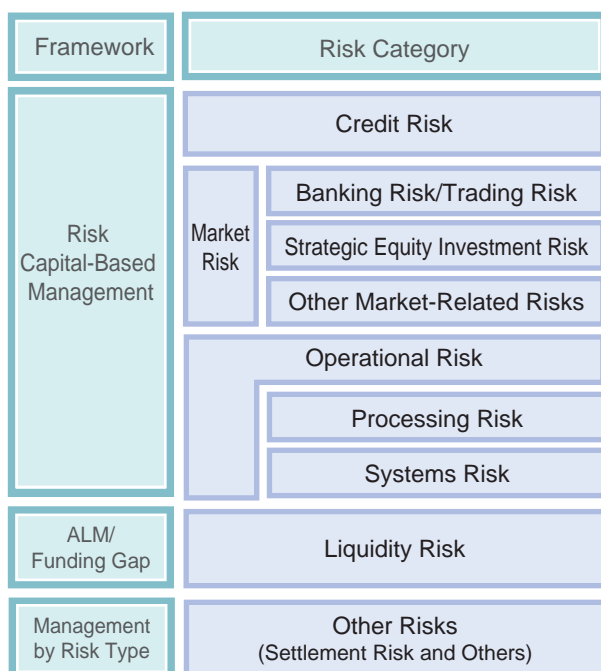

Risk Management Methods

SMFG's Groupwide basic policies for risk management stipulate the basic risk management regulations that must be followed, and spell out risk management procedures from various perspectives. These include managing risk on a consolidated accounting basis, managing risk using quantification methods, ensuring consistency with business strategies, setting up a system of checks and balances, contingency planning for emergencies and serious situations, and verifying of preparedness to handle all conceivable risk situations. In addition, there are specific operational policies for implementing appropriate management of risk by all Group companies.

Under SMFG's Groupwide basic policies for risk management, all Group companies periodically carry out reviews of the basic management policies for each risk category, or whenever deemed necessary, thus ensuring that the policies followed at any time are the most appropriate. The management of SMFG constantly monitors the conduct of risk management at Group companies, providing guidance when necessary.

Furthermore, in order to maintain a balance between risk and return as well as ensure the soundness of the Group from an overall perspective, we employ the risk capital-based management method, which allocates capital effectively to each department according to its role in our business strategies to keep total exposure to credit, market, and operational risks within the scope of our management resources, i.e., capital.

■ Relationship between Risk Management Framework and Risk Category at SMBC

In the case of SMBC, for example, sufficient capital is allocated to cover the bank's exposure to credit, market, and operational risks. In the credit and market risk categories, in particular, the maximum risk capital that SMBC can use during a period is set as the risk capital limit within this limit to manage these risks. Liquidity risk is managed within the context of maximum limits set for asset liability management (ALM) and the funding gap. Other risk categories are managed with procedures closely attuned to the nature of the risk, as described in the following paragraphs.

Credit Risk

Credit risk is the possibility of a loss arising from a credit event, such as deterioration in the financial condition of a borrower, that causes an asset (including off-balance sheet transactions) to lose value or become worthless. Overseas credits also include an element of country risk, which is closely related to credit risk. This is the risk of loss caused by changes in foreign exchange, or political or economic situations.

All Group companies follow the basic policy established by SMFG to assess and manage credit risk on a Groupwide basis and further raise the level of accuracy and comprehensiveness of Groupwide credit risk management. Each Group company must comprehensively manage credit risk according to the nature of its business, and assess and manage credit risk of individual loans and credit portfolios quantitatively and using consistent standards. Credit risk is the most significant risk to which SMFG is exposed. Without effective credit risk management, the impact of the corresponding losses on operations can be overwhelming.

The purpose of credit risk management is to keep credit risk exposure to a permissible level relative to capital, to maintain the soundness of assets, and to ensure returns commensurate with risk. This leads to a loan portfolio that achieves high returns on capital and assets.

SMBC's credit management policy and system are described below.

1. Credit Policy

SMBC's credit policy comprises clearly stated universal and basic operating concepts, policies, and standards for credit operations, in accordance with the business mission and rules of conduct. SMBC is promoting the understanding of and strict adherence to its credit policy among all its managers and employees. By conducting credit risk management in line with global standards laid down by the soon-to-be-implemented New Basel Capital Accord, or Basel II, SMBC aims to enhance shareholder value and play a key part in society by providing high value-added financial services.

2. Credit Risk Assessment and Quantification

To effectively manage the risk involved in individual loans as well as the credit portfolio as a whole, SMBC first acknowledges that every extension of credit poses risks, assesses the credit risk posed by each borrower and loan using an internal rating system, and quantifies that risk for control purposes.

(1) Internal Rating System

SMBC's internal rating system consists of two indicators: the obligor grading, which indicates the creditworthiness of a borrower; and the facility grading, which shows the probability of collecting for each facility. Facility gradings are assigned based on the borrower's obligor grading and transaction terms such as guarantee, tenure, and collateral. Overseas credits are subjected to a further analysis that takes into account country ranking, an indicator derived from analyses of each country's political and economic situation, international balance of payments, and external debt burden. Self-assessment is the obligor grading process for lower categories, and the borrower categories used in self-assessment are consistent with the overall obligor grade criteria.

(2) Quantification of Credit Risk

Quantifying credit risk is more than just calculating the probability of default for a particular obligor. It must also reflect the concentration of risk on a specific customer or industry and

fluctuations in the value of collateral, such as real estate and securities. This range of data must be analyzed to quantify the risk of an entire portfolio or an individual loan.

To calculate credit risk, historical data on the obligor and facility are entered into a database. Such parameters as probability of grade migration, loss given default, and credit quality correlation among obligors are set, and then the probability distribution of losses for the entire portfolio (amount of loss for a particular probability) is computed to determine the potential future loss. Specifically, based on the abovementioned parameters, we run a simulation of 10,000 iterations of simultaneous default using the Monte Carlo method to calculate our maximum loss exposure. This quantification enables effective risk capital allocation.

By obtaining an accurate understanding of the concentration risk of a credit portfolio, and by carrying out quantitative risk analysis simulations assuming various developments in the macroeconomic situation, SMBC obtains quantified credit risk figures which are used for making optimal decisions across the whole range of business operations, including formulating business plans and providing a standard against which individual credit applications are assessed.

■ SMBC's Internal Rating System

Obligor Grading				Facility Grading		Financial Reconstruction Law Based Disclosure Category (Domestic)				
Grading	Subrating	Definition	Borrower Classification under Self-Assessment	Grading	Subrating					
1	a	Extremely high probability of redemption	Normal Borrowers	S	a	Normal Assets				
	b						I	b		
	c							c		
2	a	High probability of redemption			a			II	a	
	b									b
	c									c
3	a	Reasonable probability of redemption		a	III			a		
	b						b			
	c						c			
4	A	Redemption is likely, but the debtor may be affected by large shifts in business conditions or its industry.		A	IV		A			
	B		B							
	C		C							
5	A	No problem at present with redemption, but the future prospects are not solid and the debtor may be affected by trends in business conditions or its industry.	B	V	B					
	B					B				
	C					C				
6		No problem at present with redemption, but there are reasons for concern about the debtor's financial condition and the possibility of future problems with recovery.	C	VI						
7	A	Requires management because there are problems meeting loan conditions or with collection, the business is weak or unstable, or the financial position is poor. (Customers requiring caution among this rating)	Borrowers Requiring Caution A	VII	A	Substandard Loans				
	B		Borrowers Requiring Caution B		B					
8		Although the debtor is not bankrupt, its business is in difficulty, restructuring progress is poor, and it is recognized that the business may fall into bankruptcy.	Potentially Bankrupt Borrowers	VIII		Doubtful Assets				
9		Although the debtor is not legally or formally in a state of bankruptcy, it is virtually bankrupt because its business is in deep trouble and there appear to be no prospects for restructuring.	Effectively Bankrupt Borrowers		IX			Bankrupt and Quasi-Bankrupt Assets		
10		The debtor is legally and formally bankrupt.	Bankrupt Borrowers							

3. Framework for Managing Individual Loans

(1) Credit Assessment

Credit assessment of corporate loans involves a variety of financial analyses, including cash flow, to predict an enterprise's capability of loan repayment and its growth prospects. These quantitative measures, when combined with qualitative analyses of industrial trends, the enterprise's R&D capabilities, the competitiveness of its products or services, and its management caliber, result in a comprehensive credit assessment. The loan application is analyzed in terms of the intended utilization of the funds and the repayment schedule. Thus, SMBC is able to arrive at an accurate and fair credit decision based on an objective examination of all relevant factors.

Increasing the understandability of loan conditions and approval standards for specific borrowing purposes and loan categories is a part of SMBC's ongoing review of lending practices, which includes the revision of loan contract forms with the chief aim of clarifying lending conditions utilizing financial covenants. SMBC is also making steady progress in rationalizing its credit assessment process.

To respond proactively and promptly to customers' funding needs—particularly those of small and medium-sized enterprises (SMEs)—we employ a standardized credit risk assessment process for SMEs that uses a credit-scoring model. With this process we are building a regime for efficiently marketing our *Business Select Loan* and *SMBC Crecer Loan*.

In the field of mortgage loans for individuals, we employ a credit assessment model based on credit data amassed and analyzed by SMBC over many years. This model enables our loan officers to efficiently make rational decisions on mortgage loan applications, and to reply to the customers without delay. It also facilitates the effective management of credit risk, as well as the flexible setting of interest rates.

We also provide loans to individuals who rent out properties such as apartments. The loan applications are subjected to a precise credit risk assessment process utilizing a risk-assessment model that factors in the projected revenue from the rental

business. The process is also used to provide advice to such customers on how to revise their business plans.

(2) Credit Monitoring System

In addition to analyzing loans at the application stage, the Credit Monitoring System is utilized to reassess obligor grading, and review self-assessment and credit policies so that problems can be detected at an early stage and quick and effective action can be taken. The system includes periodic monitoring carried out each time an obligor enterprise discloses financial results, as well as continuous monitoring performed each time the credit conditions change, as indicated in the diagram below.

4. Framework for Credit Portfolio Management

In addition to managing individual loans, SMBC applies the following basic policies to the management of the entire credit portfolio to maintain and improve its soundness and profitability over the medium to long term.

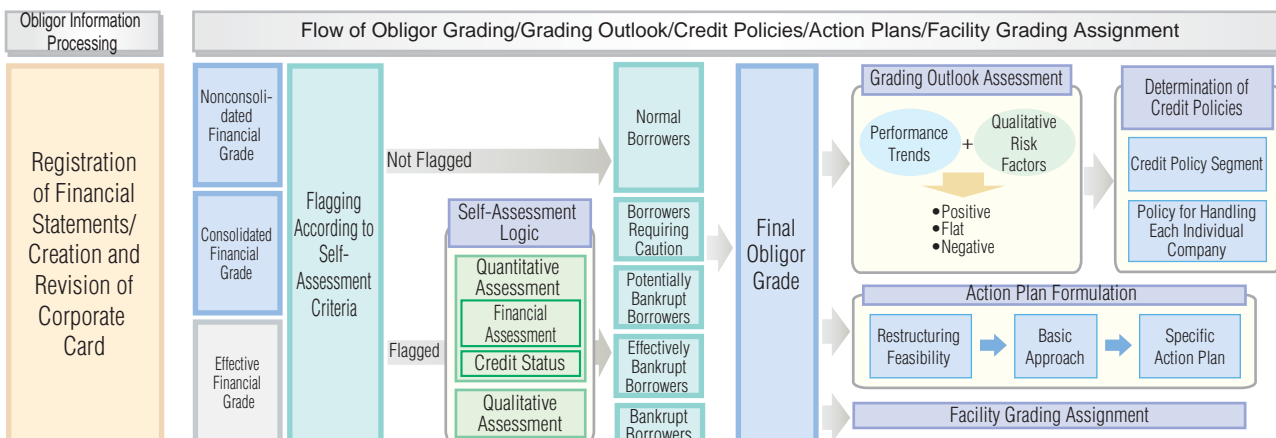

(1) Risk-Taking within the Scope of Capital

To keep credit risk exposure to a permissible level relative to capital, SMBC sets credit risk capital limits for internal control purposes. Under these limits, separate guidelines are issued for each business unit and marketing unit. Also issued are specialized guidelines for each business unit and business type, such as real estate finance, fund investment, and investment in securitization products. Regular monitoring is conducted to check that these guidelines are being followed, thus ensuring appropriate overall management of credit risk.

(2) Controlling Concentration Risk

Because concentration of credit risk in an industry or corporate group has the potential to substantially impair capital, SMBC implements measures to prevent excessive concentration of loans in an industry and to control large exposure to individual companies or corporate groups by setting guidelines for maximum loan amounts. To manage country risk, SMBC also has credit limit guidelines based on each country's creditworthiness.

■ SMBC's Credit Monitoring System

(3) New Type of Unsecured Loans, and Balancing Risk and Returns

Against the background of increasing sophistication in methods of managing credit risk, SMBC actively engages in a new type of unsecured loans. Meanwhile, the bank runs credit operations on the basic principle of earning returns that are commensurate with the credit risk involved, and makes every effort to reduce capital and credit costs as well as general and administrative expenses.

(4) Reduction and Prevention of Non-Performing Loans

On non-performing loans (NPLs) and potential NPLs, SMBC carries out regular loan reviews to clarify handling policies and action plans, enabling it to swiftly implement measures to prevent deterioration of borrowers' business situations, support business recoveries, collect on loans, and enhance loan security.

(5) Toward Active Portfolio Management

SMBC makes active use of credit derivatives, loan securitization, and other instruments to proactively manage its portfolio.

5. Credit Risk Management System

The Credit Planning Department within the Corporate Staff Unit is responsible for the comprehensive management of credit risk. This department drafts and administers credit policies, the internal rating system, credit authority guidelines, credit application guidelines, and manages NPLs, and other aspects of credit portfolio management. Moreover, in April 2005, we established the Credit Risk Management Department within the Corporate Staff Unit, and aim to achieve more advanced portfolio management by strengthening our

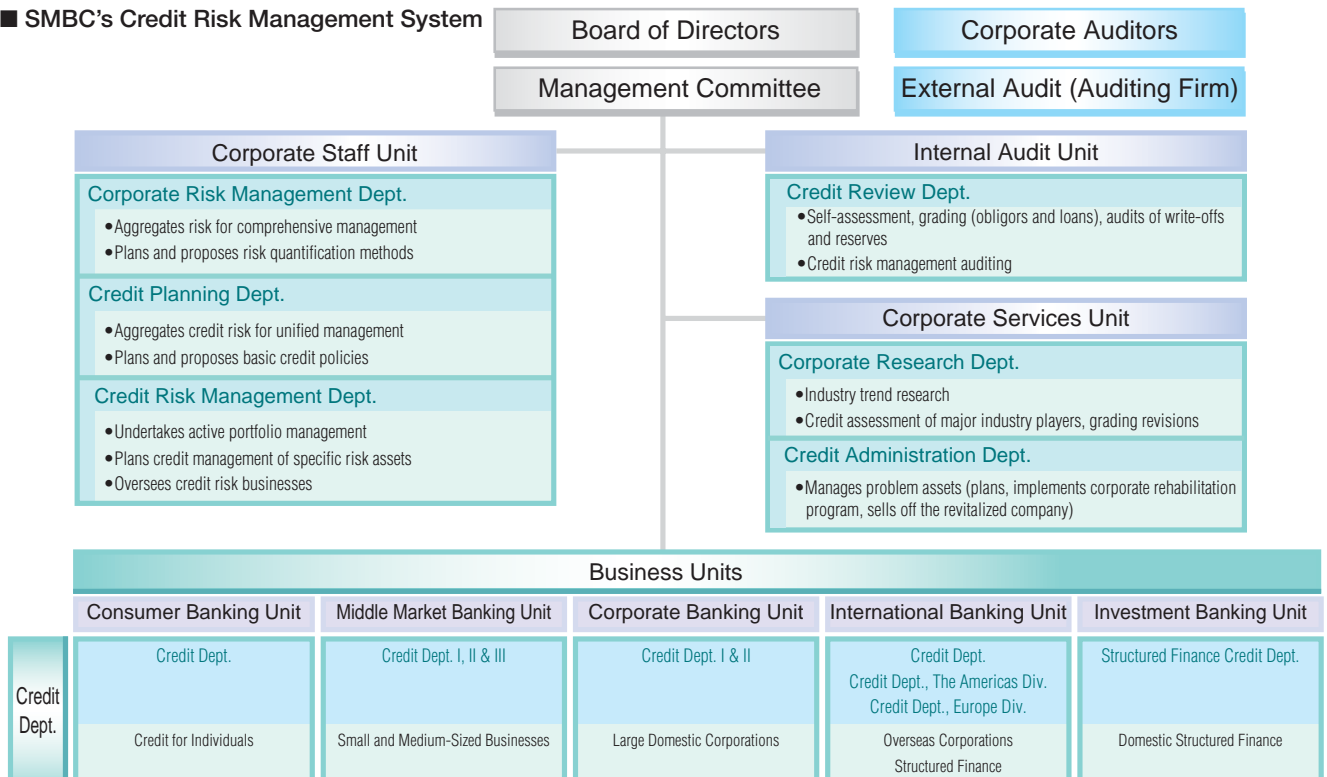

risk controlling functions of i) planning and devising specialized risk management methods and procedures for new types of transactions such as securitizations and non-recourse loans and ii) active portfolio management with the aim of stabilizing the bank's overall credit portfolio via market transactions, e.g. securitization of bank's loan exposure.

The Corporate Research Department within the Corporate Services Unit performs research on industries as well as investigates the business situations of borrower enterprises to detect early signs of problems or growth potential. The Credit Administration Department is responsible for handling NPLs of borrowers classified as potentially bankrupt or lower, and draws up plans for their workouts, including write-offs, and corporate rehabilitation. The department closely liaises with the Group company SMBC Business Servicing Co., Ltd., which engages in related services, and works to efficiently reduce the amount of NPLs by such means as the sell-off of claims.

The credit departments within each business unit conduct credit risk management for loans handled by their units and manage their units' portfolios. The credit limits they use are based on the baseline amounts established for each grading category, with particular attention paid to evaluating and managing customers or loans perceived to have particularly high credit risk.

The Credit Review Department, operating independently of the business units, audits asset quality, accuracy of gradings, self-assessment, and state of credit risk management, and reports the results directly to the Board of Directors and the Management Committee.

■ SMBC's Credit Risk Management System

SMBC has established the Credit Risk Committee, a new consultative body, to round out its oversight system for undertaking flexible and efficient control of credit risk, and ensuring the overall soundness of the bank's loan operations.

Market and Liquidity Risks

Market and Liquidity Risk Management System

Market risk is the possibility that fluctuations in interest rates, foreign exchange rates, or stock prices will change the market value of financial products, leading to a loss.

Liquidity risk is the possibility of encountering an obstacle to raising the funds required for settlement due either to a mismatch between the use and procurement of funds or to an unexpected outflow of funds, or being forced to borrow at higher interest rates than usual.

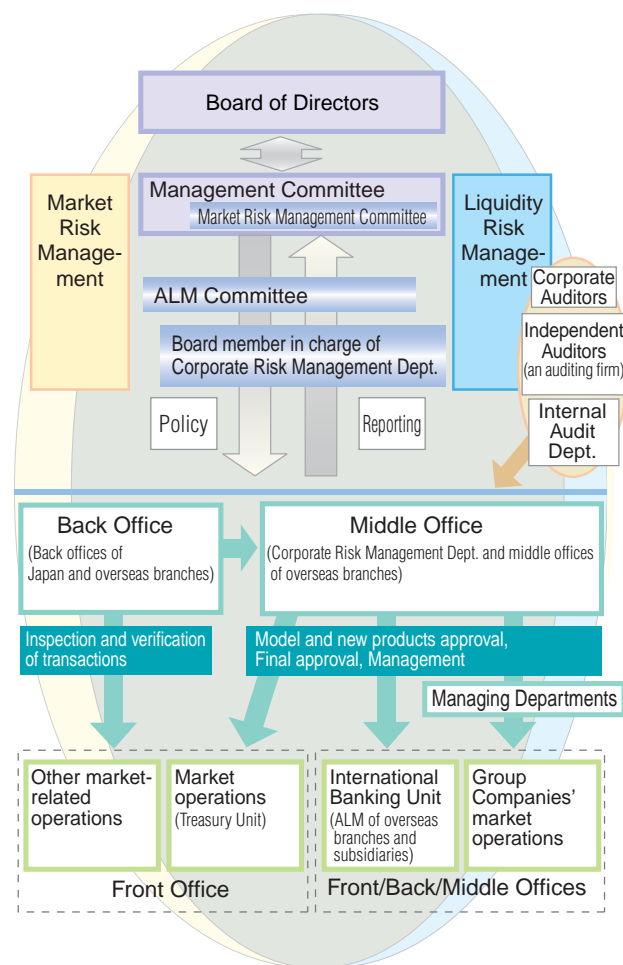

SMFG is working to further enhance the effectiveness of its quantitative management of market and liquidity risks across the entire Group by setting allowable risk limits; ensuring the

transparency of the risk management process; clearly separating front-office, middle-office, and back-office operations; and establishing a highly efficient system of mutual checks and balances.

On the basis of SMFG's Groupwide basic policies for risk management, SMBC's Board of Directors authorizes important matters relating to the management of market and liquidity risks, such as basic policies and risk limits, which are decided by the Management Committee. Additionally, the bank's Corporate Risk Management Department, which is independent of business units that directly handle market transactions, manages market and liquidity risks in an integrated manner. The department not only monitors the current risk situations, but also reports regularly to the Management Committee and the Board of Directors. Furthermore, SMBC's ALM Committee meets on a monthly basis to examine reports on the state of observance of the bank's limits on market and liquidity risks, and to review and discuss the bank's ALM policies.

To prevent unforeseen errors in operation or the manipulation of transaction data through unauthorized trading, it is important to establish a system of checks on the business units (front office). At SMBC, both the processing departments (back office) and the administrative departments (middle office) conduct the checks. In addition, SMBC's independent Internal Audit Unit periodically performs comprehensive internal audits to verify that the risk management system is functioning properly.

■ SMBC's Market Risk and Liquidity Risk Management Organization Chart

Market Risk

The bank manages market risk by setting maximum limits for value-at-risk (VaR) and the maximum loss. This is done using the VaR method, in which the maximum potential loss on market transactions for a given probability is calculated. These limits are, themselves, set within the "market risk capital limit," which is determined taking into account the bank's shareholders' equity and other principal indicators of the bank's financial position and management resources.

The SMBC VaR model estimates the maximum loss by running simulations of changes in profit and loss on market fluctuation scenarios based on historical data. Until fiscal 2004, we used the Monte Carlo simulation method, but from fiscal 2005 we have switched to the historical simulation method, which allows us to calculate VaR in a way that more accurately reflects actual market movements.

Market risk can be divided into various factors: foreign exchange rate, interest rate, equity price, and option risks. Fine-tuned management for each risk category is achieved by employing the VaR method in conjunction with suitable indicators for managing the risk of individual financial instruments such as the basis-point-value (BPV) indicator, which measures the potential change in earnings stated at market value for every 0.01 percentage-point fluctuation in interest rates.

At SMBC, exposure limits are set on market risk related to its strategic equity investment and those of its main subsidiaries, and

reports regarding the observance of exposure limits are made to the Board of Directors and the Management Committee on a regular basis.

In view of rising interest rates since June 2004, SMBC, after deliberations by the ALM Committee and the Management Committee, reduced the VaR on banking operations, a reflection of the effectiveness of its risk management.

The VaR results of the trading and banking accounts on a consolidated basis for fiscal 2004 are shown below.

■ SMBC's VaR Results

	(Billions of yen)			
	June 2004	Sep. 2004	Dec. 2004	Mar. 2005
Trading Accounts	1.8	2.5	2.5	2.1
Banking Accounts	63.5	35.1	25.7	28.0

	(Billions of yen)		
	Maximum	Minimum	Average
Trading Accounts	2.9	1.2	2.0
Banking Accounts	91.0	23.9	46.1

(VaR for a one-day holding period with one-sided confidence interval of 99.0% (computed using Monte Carlo simulation). The VaR model for trading accounts includes major consolidated subsidiaries. Figures for trading accounts exclude specific risks.)

The market occasionally undergoes extreme fluctuations that exceed projections. To manage market risk, therefore, it is important to run simulations of situations that may occur only once in many years (stress tests). At SMBC, periodic stress tests are conducted to prepare for unforeseeable swings.

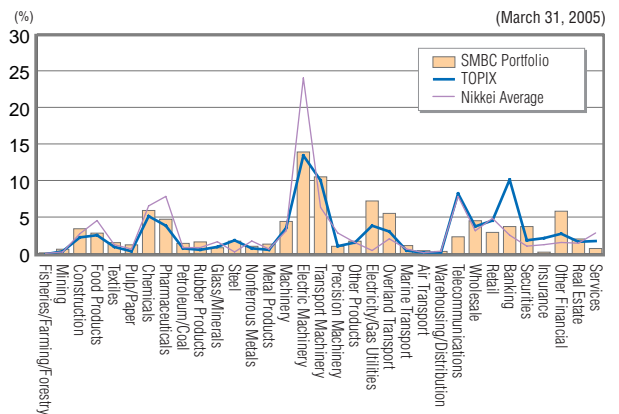

The internal model used by SMBC (SMBC VaR) has been periodically evaluated by an independent auditing firm and certified as appropriate. In addition, the relationship between the VaR calculated with the model and the actual profit and loss data is back-tested. The back-testing results for SMBC's trading accounts for fiscal 2004 are shown below. A data point below the diagonal line indicates a loss in excess of the predicted VaR for that day: there were no such excess losses during fiscal 2004. This demonstrates that the SMBC VaR model, with a one-sided confidence interval of 99.0%, is sufficiently reliable.

■ SMBC's Back-Testing Results (Trading Accounts)

SMBC attempts to keep the stock price fluctuation risk related to its strategic equity investment at a level appropriate for the financial strength of the bank. To achieve this, we have been reducing the balance of shares. It was already brought down to within 60% of Tier I capital. Henceforth, our efforts over the medium-to-long term will be to further lower the level to approximately 50% of Tier I capital.

■ Composition, by Industry, of Listed Equity Portfolio

Liquidity Risk

At SMBC, liquidity risk is regarded as one of the major risks. So as not to be overly dependent on market-based funding to cover short-term cash outflows, SMBC's liquidity risk management is based on a framework consisting of setting funding gap limits and guidelines, maintaining a system of highly liquid supplementary funding sources, and establishing contingency plans.

In daily risk management operations, SMBC prevents a cumulative increase in liquidity risk by adjusting the funding gap limits and guidelines. For emergency situations, there are contingency plans in place to reduce the funding gap limits and guidelines and other measures. To prevent the possibility of market crises interfering with funding, SMBC carries highly liquid assets, such as U.S. Treasury securities, and has emergency borrowing facilities in place, which also enable foreign currency-denominated liquidity management.

Operational Risk

Operational risk is the possibility of losses arising from inadequate or failed internal processes, people and systems or from external events. SMFG is working to raise the level of sophistication of its management of operational risk across the whole Group by providing an effective framework for the identification, assessment, control and monitoring of significant risk factors and by establishing systems for contingency and business continuity plans.

At SMBC, on the basis of SMFG's Groupwide basic policies for risk management, the Operational Risk Management Department set up in the General Affairs Department is responsible for centrally supervising overall operational risk management, jointly with the departments specifically responsible for controlling processing risk and systems risk.

To facilitate effective operational risk management, these departments collect and analyze internal historical data on losses, assess internal control, and undertake risk management according to the risk characteristic, such as processing and systems risk.

In addition, SMBC controls its exposure to operational risk through risk capital allocation based on a quantification model.

Processing Risk

Processing risk is the possibility of losses arising from negligent processing by employees, accidents, or unauthorized activities.

SMFG recognizes that all operations entail processing risk. We are therefore working to raise the level of sophistication of our management of processing risk across the whole Group by ensuring that each branch conducts its own regular investigations of processing risk; minimizing losses in the event of processing errors or negligence by drafting exhaustive contingency plans; and carrying out thorough quantification of the risk under management.

In the administrative regulations of SMBC, in line with SMFG's Groupwide basic policies for risk management, the basic administrative regulations are summarized as "comprehending the risks and costs of administration and transaction processing, and managing them accordingly," and "seeking to raise the quality of administration to deliver high-quality service to customers." Adding new policies or making major revisions to existing ones for processing risk management requires the approval of both the Management Committee and the Board of Directors.

In the administrative regulations, SMBC has also defined specific rules for processing risk management. The rules allocate processing risk management tasks among six types of departments: the Operations Planning Department, compliance departments, operations departments, transaction execution departments (primarily front-office departments and branches), the Internal Audit Department, and the Customer Relations Department. In addition, there is a specialized group within the Operations Planning Department to strengthen administrative procedures throughout the SMBC Group.

Systems Risk

Systems risk is the possibility of a loss arising from the failure, malfunction, or unauthorized use of computer systems. SMFG recognizes that reliable computer systems are essential for the effective implementation of management strategy in view of the IT revolution. We strive to minimize systems risk by drafting regulations and specific management standards, including a security policy. We also have contingency plans with the goal of minimizing losses in the event of a system failure. The development of such a systems risk management system ensures that the Group as a whole is undertaking adequate risk management.

At SMBC, safety measures are strengthened according to risk assessment based on the Financial Services Agency's *Financial Inspection Manual*, and the *Security Guidelines* published by The Center for Financial Industry Information Systems (FISC).

Because computer-related trouble at financial institutions now has greater potential to impact the public, and with systems risk diversifying owing to the IT revolution, the resulting expansion of networks and the rise in the number of personal computer users, the necessary steps are taken to ensure the smooth, secure operation of our information systems. We have duplicated all systems and infrastructures, and the computer centers in eastern and western Japan have been fully proofed against earthquakes and other disasters. To maintain the confidentiality of customer information and prevent information leaks, sensitive information is encrypted, unauthorized external access is blocked, and all known countermeasures to secure data are implemented. There are also contingency plans and training sessions held as necessary to ensure full preparedness in the event of an emergency. To maintain security, countermeasures are revised as new technologies and usage patterns emerge.

Settlement Risk

Settlement risk is the possibility of a loss arising from a transaction that cannot be settled as planned. Because this risk comprises elements of several types of risk, including credit, liquidity, processing, and systems risk, it requires interdisciplinary management. At SMBC, the Operations Planning Department is responsible for coordinating the management of settlement risk with the Credit Planning Department, which oversees credit risk, and the Corporate Risk Management Department, which oversees liquidity risk.

Corporate Social Responsibility

As a new financial services complex in step with the needs of the 21st century, SMFG's goal is to earn the highest trust of society by meeting the public's expectations and fulfilling its social responsibilities.

Earning the highest level of trust requires the balanced provision of value to our four constituencies: customers, shareholders and the market, the environment and society, and employees. Through this process, we aim to contribute to the sustainable development of society as a whole, and to fulfill our corporate social responsibility.

Our framework for fulfilling our obligations to society is described in the Risk Management section and the Business Overview section, as well as the following pages. The main points are as follows.

First, we will maintain sound management through the further enhancement of our management structure. To this end, we will further strengthen our capabilities in corporate governance, internal audits, compliance, risk management, information disclosure and other aspects of our business.

Second, we will prosper together with our customers by offering high value-added products and services.

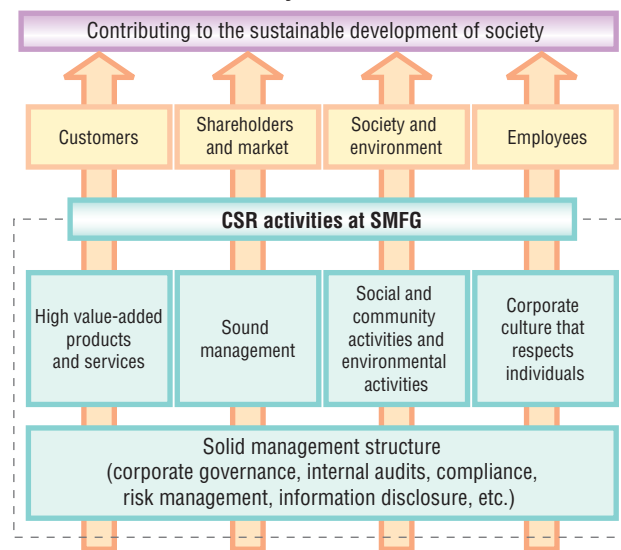

Third, we are committed to making continuous efforts in social contribution activities and environmental initiatives, to realize a better society and help preserve the integrity of the environment.

Fourth, we foster a free and unrestricted working atmosphere that emphasizes respect for individuals and allows employees to realize their full potential.

In April 2005, SMFG established a Group CSR Committee, and SMBC established its own CSR Committee, as well as a CSR Department within its Corporate Planning Department.

Through these committees, SMFG is taking steps to adopt a more high-profile stance with regard to corporate social responsibility.

Commitment to CSR by SMFG and SMBC

The SMFG Corporate Governance System

Further enhancement of corporate governance is a high-priority management issue at SMFG and all Group companies.

SMFG employs the corporate governance system of the Japanese Commercial Code, in which the statutory auditors oversee the execution of business by the directors. At SMFG, we have five corporate auditors, of whom three are outside auditors. The auditors monitor the execution of business operations of SMFG and its subsidiaries by attending important management-level meetings, notably those of the Board of Directors, where business matters are reported on by the directors and executive officers. They also peruse documents relating to important decisions, and are reported to by staff members of the internal audit departments, representatives of subsidiaries of SMFG, and independent auditors (certified public accountants).

The Chairman of SMFG serves as the Chairman of the Board of Directors of SMFG. This is to separate the role of the president of SMFG, whose responsibility is to exercise overall supervision of the execution of business activities of SMFG and other Group companies from the role of supervising management. We also have outside directors to improve the effectiveness of the Board, as well as four committees—the Auditing Committee, the Risk Management Committee, the Compensation Committee, and the Nominating Committee—to improve its oversight function. Outside directors are appointed to all these committees to facilitate the implementation of corporate governance from a suitably objective perspective. As the need for objectivity is particularly acute in the case of the Auditing Committee and the Compensation Committee, the chairmanship of these committees is assigned to outside directors. To ensure that the execution of the Group's business operations is in conformity with the law, the outside directors are chosen from among the ranks of specialists such as certified public accountants and lawyers.

The committees are delegated by the Board the responsibility for considering the issues listed below, and report to the Board.

• Auditing Committee

Significant issues relating to Groupwide internal auditing

• Risk Management Committee

Significant issues relating to Groupwide risk management and compliance

• Compensation Committee

Remuneration of Board members and executive officers of SMFG and SMBC

1. Issues related to remuneration, salaries, and incentive program
2. Other remuneration issues

• Nominating Committee

Appointment of directors of SMFG and SMBC

1. Issues related to the selection of candidates for Board directorships
2. Issues related to the appointment of managing directors having specific management responsibilities, and issues related to the appointment of representative directors
3. Other major personnel issues related to directors

SMFG has created the Management Committee, under the

direct supervision of the Board of Directors and chaired by the president of SMFG, as the top decision-making body on business administration and management supervision of the entire Group. The committee, composed of directors chosen by the president, considers important matters relating to the execution of business, and the president has the authority to make the final decision, in accordance with the basic policy determined by the Board of Directors, after considering the committee's recommendations.

In addition to the above, SMFG also has a Group Strategy Committee to serve as a forum for the top management staff of all Group companies to exchange opinions and information on their respective business plans. With regard to the three Group companies Sumitomo Mitsui Card Company, Limited, SMBC Leasing Company, Limited, and the Japan Research Institute, Limited, the director in charge of each subsidiary serves as a part-time director of these companies to strengthen the supervision of SMFG over their operations.

The SMBC Corporate Governance System

To ensure sound and transparent management, SMBC separates the two functions of management: decision-making at the operational level, and supervision of the management of the bank from a longer-term perspective. For this purpose, the bank employs a system in which executive officers are responsible for operational duties, while the supervisory function is exercised principally by the Board of Directors.

The chairman of the bank serves as the chairman of the Board of Directors, and to clearly separate his functions from those of the president of the bank, whose responsibility is to exercise overall supervision of the bank's activities, the chairman does not simultaneously serve as an executive officer; instead, he is primarily responsible for supervising management in their execution of operational duties. Following the practice at SMFG, outside directors—two in this case—are appointed to the Board of Directors of SMBC, with the aim of introducing an objective viewpoint so as to strengthen the supervision of corporate governance.

Executive officers are selected by the Board to manage each of SMBC's businesses. As of June 30, 2005, there were 68 executive officers, including the president, 10 of whom concurrently serve as directors. The Management Committee, under the direct supervision of the Board of Directors, is the highest decision-making body at the operational level. The president chairs the committee and selects its members from the executive officers. The committee members consider important management issues in light of the policies laid down by the Board of Directors, and the president has the authority to make the final decision after considering the committee's recommendations.

The president designates certain members of the Management Committee as Authorized Management Committee Members in charge of particular head office departments, as well as supervisory officers, who are responsible for overseeing the operations of each business unit. All of these designated individuals are charged with implementing the directives of the Management Committee within the businesses they oversee.

Internal Audit System

An Outline of the Internal Audit System

The Audit Department of SMFG is responsible for conducting internal audits for the Group in a process separate from the oversight exercised by the Board of Directors on the shareholders' behalf. The Auditing Committee, which reports directly to the Board of Directors, was established in June 2005. The Internal Auditing Committee, which reports to the Group Management Committee, has also been set up to raise the profile of internal auditing and facilitate the effective conduct of audits. The Internal Auditing Committee meets every quarter, and the members discuss important matters relating to internal auditing based on reports prepared by the Audit Department.

With the objective of helping realize optimal management and business operations of the Group and ensuring the soundness of the Group's assets, the Audit Department conducts internal audits of the operations of all units and departments. The audits have the additional aim of verifying that the Group's internal control system, including compliance and risk management, is appropriate and effective. The Audit Department is also responsible for supervising the internal auditing systems of each Group company. It monitors the implementation of internal audits at each company and carries out its own audits directly when deemed necessary. By these means, we are able to verify the appropriateness and effectiveness of internal control of each Group company. Based on the results of these audits, suggestions are made and/or guidance provided, as necessary, to sections or departments of SMFG, or to Group companies.

At SMBC, we have set up auditing departments independent of bank units involved in marketing activities. We established the Internal Audit Department and the Credit Review Department within the Internal Audit Unit. As at SMFG, in June 2005 the bank set up the Internal Auditing Committee, which reports to the Management Committee. The committee receives reports on important matters from the auditing departments and deliberates on them.

The Internal Audit Department is responsible for auditing the state of legal compliance, and the management of market, liquidity, operational, and systems risks at SMBC's head office departments and domestic and overseas branches, and at all other business offices of SMBC subsidiaries in Japan and overseas.

Auditing of operations at each head office department focuses on the crucial themes that arise in the management of specific business operations and risk categories and emphasizes verification of "Target Audits" across the whole of the bank's organization. Moreover, audits of branches and offices include the verification of compliance and operational risk management frameworks, as well as the checking of operations, and recommendations are made in the case of problems.

The Credit Review Department audits credit risk management, including the accuracy of ratings and self-assessment.

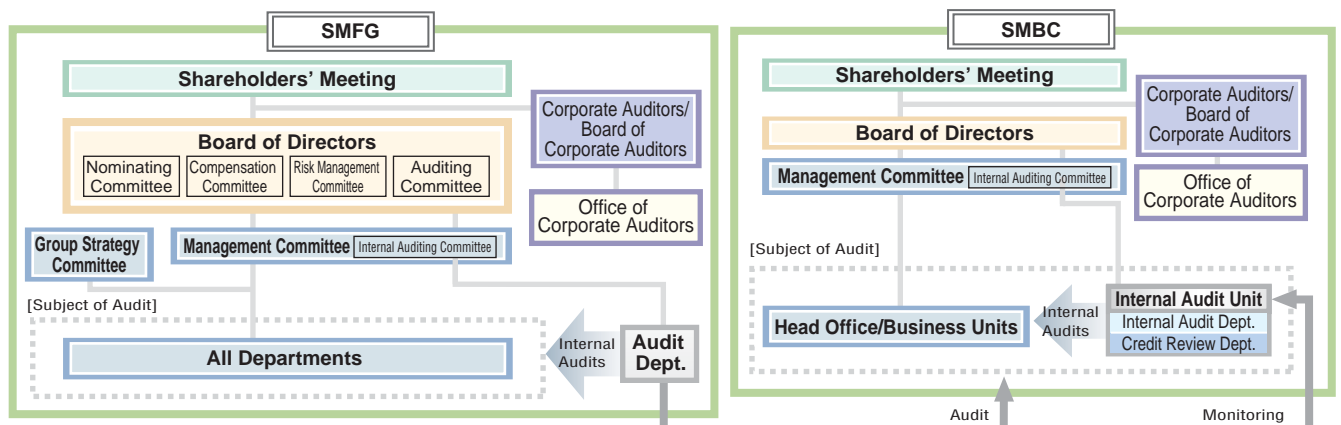

Internal auditing departments have been set up at other Group companies, according to the respective nature of each company's line of business.

Enhancing Efficiency of the Internal Auditing Process

The Audit Department has adopted auditing methods in line with the standards of the Institute of Internal Auditors (IIA)*, an international body. It conducts risk-based audits and spreads the concepts and methods to the Group companies.

Additionally, to effectively fulfill its role as the central body for internal auditing, the staff of the Audit Department constantly work to collect the latest information on internal auditing from inside and outside Japan and to distribute it to all Group companies. They also organize training courses, which are conducted by outside experts, for all the staff of Group companies, and encourage the staff to obtain international qualifications, to raise their level of specialist expertise in internal auditing. To improve the effectiveness of auditing still further, we are also taking active steps to ensure that our internal auditing standards are in line with those set forth by the IIA, and these auditing standards are being introduced on a graduated basis at all Group companies.

* The Institute of Internal Auditors (IIA) was founded in 1941 in the United States as an organization dedicated to helping raise the level of specialization and professionalism of internal auditing staff. In addition to conducting theoretical and practical research, the IIA administers examinations for Certified Internal Auditor® (CIA), which is the globally accepted qualification in the field.

Compliance at SMFG

Basic Compliance Policies

At SMFG, as shown below, we have set out our Business Ethics—basic principles of social responsibility that we follow—positioning the strengthening of the compliance system as one of the Group’s top management priorities.

Business Ethics

I. Satisfactory Customer Services

We intend to be a financial services complex that has the trust and support of our customers. For this purpose, we will always provide services that meet the true needs of our customers in order to obtain their satisfaction and confidence in the Group.

II. Sound Management

We intend to be a financial services complex which maintains fair, transparent, and sound management based on the principle of self-responsibility. For this purpose, along with obtaining the firm confidence of our shareholders, our customers, and the general public, we take a long-term view of our business and operate it efficiently, and actively disclose accurate business information about the Group. Through these procedures, we will maintain continuous growth on a sound financial basis.

III. Contribution to Social Development

We intend to be a financial services complex which contributes to the healthy development of society. For this purpose, we recognize the importance of our mission to serve as a crucial part of the public infrastructure and also our social responsibilities. With such recognition, we undertake business operations that contribute to the steady development of Japan and the rest of the world, and endeavor, as a good corporate citizen, to make a positive contribution to society.

IV. Free and Active Business Environment

We intend to be a financial services complex for which all officers and other employees work proudly and with great spirit. For this purpose, we respect people, and train and produce employees with professional knowledge and ability, thereby creating a free and active business environment.

V. Compliance

We intend to be a financial services complex that always keeps in mind the importance of compliance. For this purpose, we constantly reflect our awareness of these Business Ethics in our business activities. In addition, we respond promptly to directives from auditors and inspectors. Through these actions, we observe all laws and regulations, and uphold moral standards in our business practices.

To carry out our mission of serving as a crucial part of the public infrastructure, and to fulfill our important social responsibilities as a financial services complex, we continuously strive to develop and evolve a more effective compliance system, and with this, become an outstanding global corporate group.

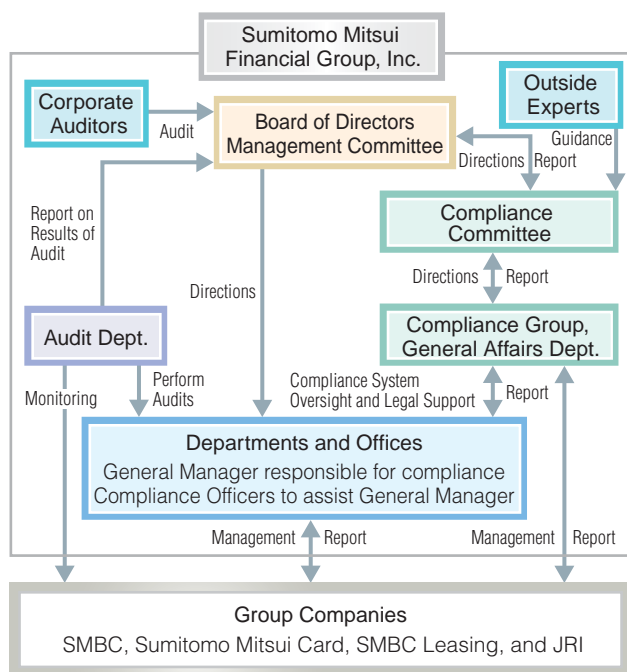

Management of Legal Risk

Legal risk, which refers to the possibility of loss (including reputational loss) arising from acts that break the law or violate the conditions of contracts, principally as a result of failure to sufficiently examine the legal implications before taking action, has become a matter requiring even greater attention in recent years, owing to the widespread deregulation of the financial sector.

Consequently, SMFG has laid down procedures for managing legal risk, collecting information on business laws and ordinances and examining the legal implications of new products, services and contracts under consideration. In these ways, SMFG is enhancing legal risk management.

Group Management of the Compliance System

Since the establishment of SMFG as a financial holding company in December 2002, we have been providing appropriate directions and guidance, as well as monitoring each Group company’s compliance system, from the perspective of ensuring the sound and proper conduct of business activities throughout the entire Group.

Compliance at SMBC

Strengthening the Compliance System: A Top Management Priority

Compliance with laws, regulations, and other social standards is a matter of course for corporations. Ensuring compliance is a particularly important issue for banks because of their central role in the financial system and socioeconomic infrastructure.

Consequently, in accordance with the basic concept of compliance instituted throughout the Group, SMBC expects and demands that all directors, officers, and other employees assign utmost value to maintaining people's trust, abide by laws and regulations, maintain high ethical standards, and act fairly and sincerely.

SMBC's Compliance System and Management

As shown below, SMBC employs a dual structure whereby, firstly, each department and office is individually responsible for ensuring that its conduct complies with laws and regulations, and secondly, the independent Internal Audit Unit conducts impartial audits of department and branch compliance.

To make this basic structure effective, the bank conducts the following operations.

Compliance Manual

Set out in accordance with the resolution of the Board of Directors, the *Compliance Manual* lays out specific Rules of Conduct. These Rules of Conduct comprise 60 items describing relevant laws and regulations, as well as providing procedural guidelines and specific examples of conduct that must be followed by all directors, officers and employees of SMBC.

Compliance Program

The program's primary objective is to effectively implement the compliance system at SMBC and its consolidated subsidiaries. The Board of Directors annually updates the compliance program. The Board of Directors decides concrete annual plans regarding compliance, which include a review of rules and regulations, as well as the content and schedule of training programs, to further strengthen the compliance system.

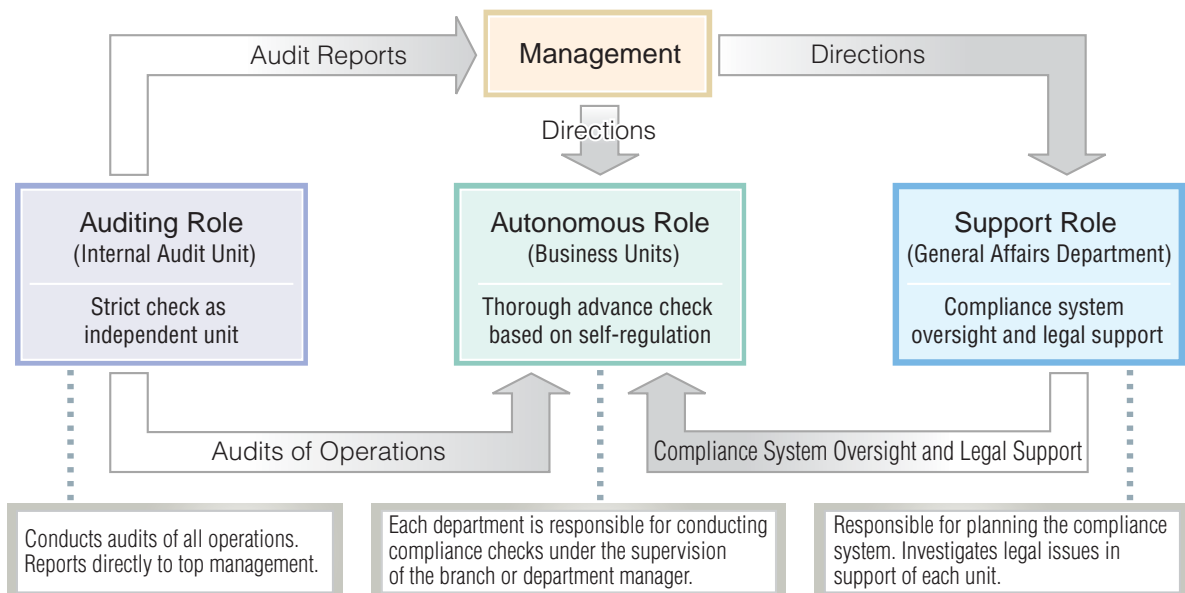

Appointment of Compliance Officers

A compliance officer has been assigned to each department and branch to ensure the integrity of the compliance system.

Compliance Committee

The Compliance Committee is a cross-sectional organization, ensuring that compliance issues are reviewed and discussed widely. It is chaired by the director responsible for compliance issues and includes the heads of relevant departments. To enhance objectivity, the Committee includes an outside legal expert who serves as an advisor.

Compliance System Overview

Environmental Preservation Initiatives

SMFG and Environmental Issues

SMFG assigns a high management priority to environmental issues. Our Group Environmental Policy sets out the Group's basic action guidelines. We also have a Group CSR Committee which promotes coordinated, Groupwide environmental activities.

The Group Environmental Policy

Basic Concepts

Recognizing the importance of realizing a sustainable society, SMFG is making continuous efforts to harmonize environmental preservation and corporate activities, in order to support the economy and contribute to the general well-being of society as a whole.

Specific Environmental Policies

- We provide environment-friendly financial products, information, and solutions that help our customers in their efforts to preserve the eco-system
- We devise ways to reduce levels of environmental risk posed by our own activities and those of society at large
- We are determined to fulfill our social responsibilities through the conservation of resources, energy saving, and the reduction of waste
- We enforce a policy of strict adherence to environment-related laws and regulations
- We practice a high level of disclosure of information relating to the Group's environmental activities, and make ceaseless efforts to improve our contribution to environmental preservation, incorporating the views of our staff and concerned persons from outside the Group
- We place a high priority on thoroughly educating our staff in our environmental principles, and in ensuring that they conform to these principles in the performance of their work
- We actively and effectively conduct environmentally aware management, and make continuous efforts to improve our system for tackling environmental issues, including by setting targets for each business term and reviewing them when deemed advisable
- These policies are published on the Group's website, and are also available in printed form upon request

June 29, 2005
 Teisuke Kitayama
 President
 Sumitomo Mitsui Financial Group, Inc.

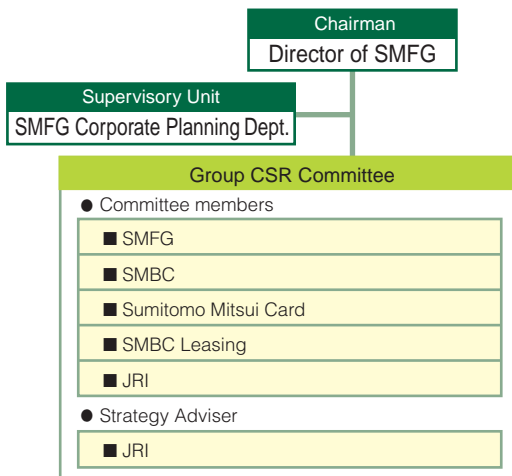

SMFG's Environmental Action Plan

The Group CSR Committee promotes coordinated Groupwide environmental activities. Based on our Group Environmental Policy, we have a three-pronged action plan focusing on:

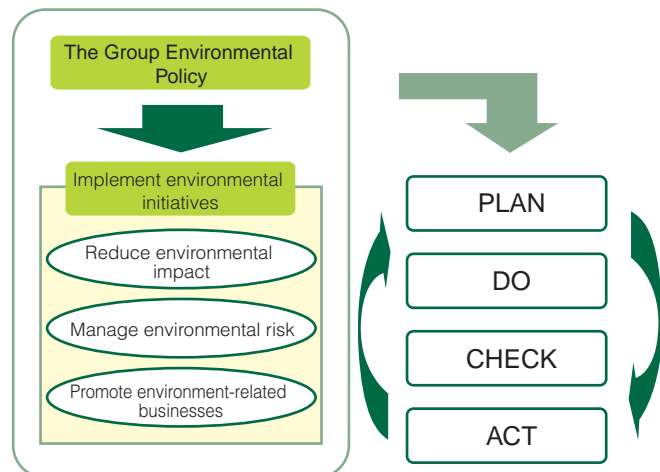

- 1) The reduction of environmental impact
- 2) The practice of environmental risk management
- 3) The promotion of environment-related businesses

The Group CSR Committee systematically follows the PDCA cycle of planning, performing, checking and improving in pursuing environmental activities centered on these three areas.

Group CSR Committee

SMFG's Environmental Action Plan and the PDCA Cycles

SMFG Group Initiatives

We have been focusing on providing information to our customers to raise their awareness of environmental issues. The major initiatives are as follows.

Publication of Environmental Magazine SAFE

This magazine, through which we provide environment-related information to our corporate clients, has been published on a bimonthly basis since 1996. Current circulation is approximately 4,000 copies, and it is sent to clients of our Group companies as well as customers that have participated in past "Environmental Seminars" (described later) and others.

Each issue of this publication includes interviews with the top management of companies at the forefront of the environmental preservation movement. It also introduces environmental technologies, highlights trends in legal regulations, and examines other current topics.

SMFG Environmental Seminars

The third SMFG environmental seminar was held on March 10 and 11, 2005, with the attendance of about 480 participants from around the country, primarily clients of Group companies. Lecture topics included "Climate Change and Financing."

A survey of participants indicated that they would like SMFG to provide information on environment-related issues. In the future, we intend to continue to support our customers' environmental projects by holding more seminars, issuing magazines and periodicals, and publishing books.

Signatory to the UNEP Statement by Financial Institutions

The United Nations Environment Programme (UNEP), a UN organization dedicated to advancing environmental issues, has established a support structure for the promotion of the environmental preservation movement within each industry. Our company is a signatory to the UNEP Statement by Financial Institutions.

Signatory to Carbon Disclosure Project (CDP)

SMBC became a signatory to the Carbon Disclosure Project (CDP) in February 2005. The CDP serves a secretariat function in a process whereby institutional investors and financial institutions concerned over the issue of climate change cooperate in requesting global corporations to disclose their worldwide policies and initiatives on environmental issues.

Major Initiatives by Group Companies

The chart below shows the various environment-related initiatives of Group companies, centered around the three prongs of our Environmental Action Plan:

1. The reduction of environmental impact
2. The practice of environmental risk management
3. The promotion of environment-related businesses

Objectives	Initiatives	SMBC	Sumitomo Mitsui Card	SMBC Leasing	JRI
Reduce environmental impact	Reducing energy usage, such as electric power and water usage				
	Promoting green purchasing				
	Reducing paper consumption				
	Providing training on environmental issues				
Practice environmental risk management	Establishing credit rules on companies with high environmental risk		—		—
	Selling items that can be reused	—	—		—
	Proposing policies and measures related to the environment	—	—	—	
Promote environment-related businesses	Promoting soil decontamination and helping companies apply for ISO certification		—	—	
	Promoting energy-conserving projects, such as ESCOs and ESPs	—	—		
	Providing information (publishing books, etc.)	—	—	—	

Reducing Environmental Impact

Activities such as energy conservation in the office and reduction of paper consumption directly decrease the environmental impact of business activities. Specific measures focus on conserving natural resources by curbing the use of energy and paper, rationalizing office work and minimizing expenses. In addition, each Group company has set certain targets for curbing the usage of electricity and other forms of energy (described later on pages 68-71).

Aiming for a paperless office

SMBC and the Japan Research Institute (JRI) are aiming for a paperless office through the widespread use of IT and the implementation of business process reviews. Through the creation of databases, they are computerizing their in-house administrative operations. SMBC has installed an electronic forms system and has been switching to electronic forms for bank branches. Through these initiatives, the SMFG Group reduced its paper consumption by 66% as of March 31, 2005.

Environmentally Friendly Direct Mail

At SMBC, we use envelopes with glassine paper over the window portion when sending transaction statements and other direct mail to individual customers. Because glassine paper does not emit dioxin when burned, the envelopes can be recycled together with ordinary paper.

Certificate of Green Power

SMBC has adopted Japan Natural Energy Company Limited's Green Power Certification System to conserve energy and

formulate environmental measures. Electricity generated from April 2004 through March 2005 amounted to 912,000kWh.

Green Power Certification System

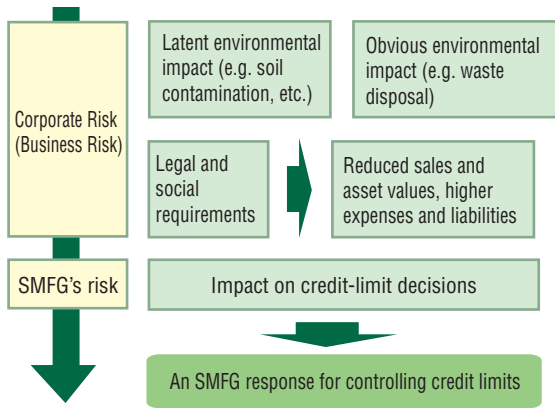

The Certificate of Green Power represents, in concrete form, the merit of reducing the use of fossil fuels and CO₂ emissions, and increasing the use of natural forms of energy. SMBC has adopted this certificate system as part of its voluntary energy conservation and environmental measures.

Practicing Environmental Risk Management

Energy consumption and waste disposal are the immediate, obvious detrimental effects of business activities on the environment. A less obvious impact is soil contamination. When the environmental impact of business activities becomes substantial enough to attract public attention, companies face increased expenses and liabilities, such as declining sales and asset values as a result of legal and social requirements. As our clients are exposed to greater risks, these risks pose greater risks to SMFG as well, and there is the possibility that the bank will have to make a decision to limit the credit it can extend to a client company. It is necessary for financial institutions to take such considerations into account when making credit decisions.

Environmental Risks

In March 2004, SMBC concluded an “Environmental Inquiry Written Agreement” with the Japan Bank for International Cooperation (JBIC) to assist in strengthening environmental

assessments. Under this agreement, when SMBC undertakes co-financing with JBIC, SMBC can have access to JBIC’s environmental assessment data.

In November 2004, SMBC Leasing received the highest rating from the Development Bank of Japan for the company’s environmentally sensitive management promotion and investment system. Receiving this highest rating is evidence of the high regard in which the company’s environmental risk management and environmental business are held.

JRI sounds the alarm about the environmental impact of corporate and household activities through media interviews and articles, involvement in the activities of government and municipal committees, and by making announcements at various events. Moreover, JRI advises on policies related to these effects on the environment and recommends ways for coping with environmental risks as part of the wide range of activities it undertakes to raise awareness about the environment

Promoting Environment-Related Businesses

Making use of each subsidiary’s special characteristics, SMFG conducts various environment-related business activities. Through these activities, we are planning to further strengthen relationships with our clients.

Types of Environmental Businesses

Environmental businesses	Main target products and services
Funding environment-related corporations (Project finance, syndicated loans, etc.)	Introduction of environmental equipment, e.g. eco-cars Wind power generation, biomass power generation, etc.
Risk hedging for bad weather	Weather derivatives
Providing investment products and operations-related services	Eco-fund and <i>Web Passbook</i>
Consulting	Addressing soil contamination, facilitating the acquisition of ISO certification
Incubating environment-related projects and services	Soil decontamination, ESCO and ESP projects, etc.
Providing information	Publishing informational periodicals; holding seminars

SMBC’s Activities

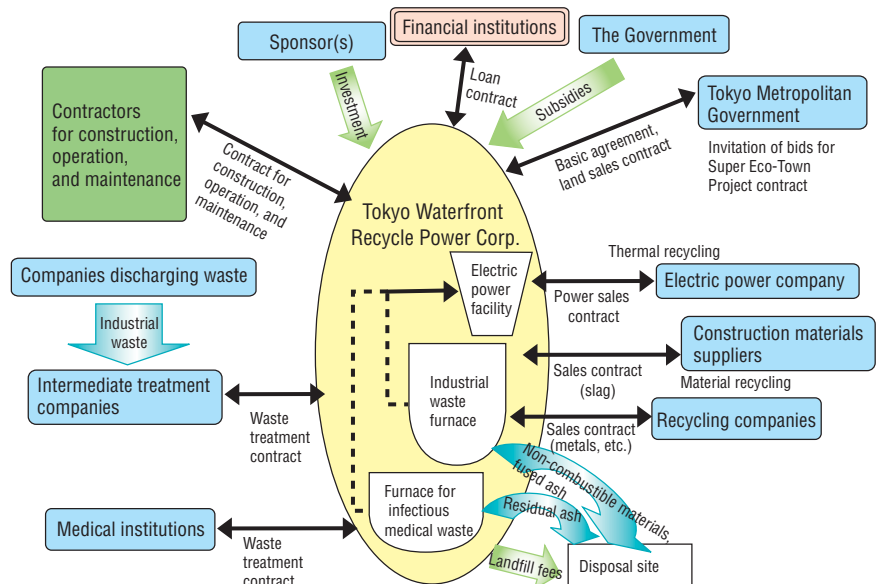

Funding (Project Finance, Syndicated Loans, etc.)

Project No. 1

On July 6, 2004, SMBC, as one of the lead arrangers, announced project financing worth ¥23 billion for a power generation project on the shore of Tokyo Bay that utilizes recycled industrial waste as fuel, and is part of the Super Eco-Town Project sponsored by the Tokyo Metropolitan Government.

The power generation project is the largest of its kind in Japan. The initial investment is scheduled to be recouped principally from waste treatment fees charged to the companies discharging the waste. This is the first case in Japan of the project finance method being employed by banks to fund the construction and operation of a waste treatment facility, which is subject to the full range of market risks.

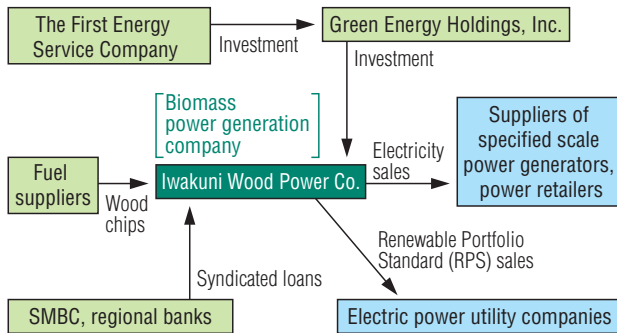

Project Structure

Project No. 2

Syndication with local financial institutions is underway in Iwakuni City, in Yamaguchi Prefecture, for Iwakuni Wood Power Co., a wood biomass power generating company. Power generation plants using wood chips made from the waste products of forestry projects and construction byproducts as fuel have been receiving much attention nationwide. The “carbon neutral” properties of biomass are also discussed in the Biomass Nippon Strategy issued by a cabinet resolution in December 2002. Applying this property to power generation can contribute to reducing the CO₂ that is the byproduct of energy.

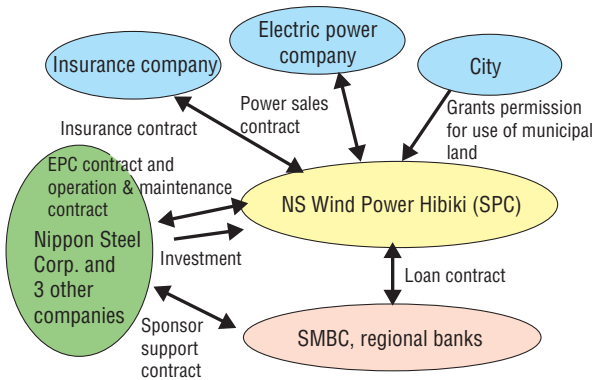

Project Structure for Iwakuni Wood Power Co.

Project No. 3

In March 2003, SMBC supported funding of a wind-power generation project in the Hibikinada area of Kitakyushu City through the project finance method.

Project Structure

SMBC will continue to provide strong support to companies engaged in building the infrastructure of a sustainable society, such as alternative energy sources like wind power and the combustion of waste materials, for which demand is expected to rise steeply over the foreseeable future.

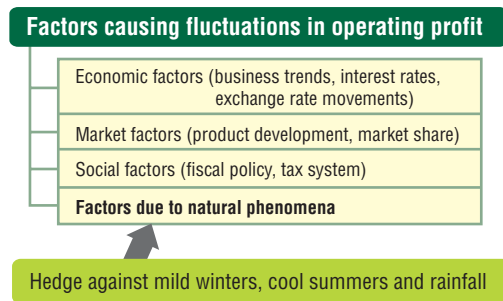

Providing Financing (Mortgage Loans)

SMBC is working with leading housing construction companies to provide mortgage loans that encourage people to purchase environmentally friendly houses.

Weather Derivatives

SMBC's product lineup includes weather derivatives. Weather derivatives are derivative instruments based on weather conditions such as temperature, rainfall, snowfalls, etc. They are used to hedge the risk of deterioration in operating profit resulting from unseasonable and extraordinary weather caused by global warming, etc. SMBC is expanding its product lineup to further enhance customer convenience.

Weather Derivatives

Weather Derivative Needs

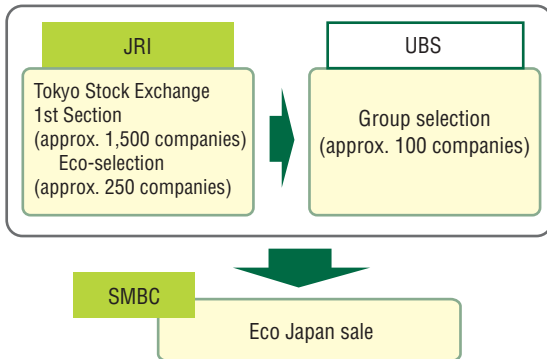

Industry	Major risk	Hedge basis
Gas	Temperature	Consumption declines due to fierce heat in summers and mild winters
Electric power	Temperature	Sales declines due to cool summers and mild winters
Air conditioning equipment manufacturing & sales		
Food and drink		
Restaurant industry	Rainfall Temperature	Fewer customers due to bad weather Slump in sales of seasonal products
Department store		
Tourism and leisure industries	Rainfall Temperature Snowfall	Fewer customers due to bad weather Refunds due to event cancellations
Outdoor theme parks		
Agriculture-related	Rainfall Temperature	Poor crops due to low or high rainfall, fierce heat or cool summers

Sales of Eco-Funds

SMBC's investment trust product lineup includes the equity eco-fund "Eco Japan," which is managed by UBS Global Asset Management (Japan) Ltd.

The eco-fund is an investment trust that targets companies with excellent environmental management. JRI has been consigned the research for this fund, and donates a part of the profit relating to the research contract from the UBS eco-fund to the Japan Committee of the World Wide Fund for Nature (WWF).

Eco Japan Structure

Using "MC Stations"

SMBC has set up "MC (Money-Lifestyle Consulting) Stations," dedicated PC terminals that allow easy and paperless transactions at "MC Desks." This takes advantage of the company's know-how regarding the consultation-window work process cultivated through "One's Direct" Internet banking. It has substantially reduced the paperwork involved in the purchase of investment trusts and the repayment of loans ahead of maturity. This, in turn, has improved customer satisfaction, by reducing waiting times and enabling the provision of in-depth consultations. The introduction of this system has substantially reduced the volume of paper used for application forms and various fliers, and thus contributes to environmental preservation.

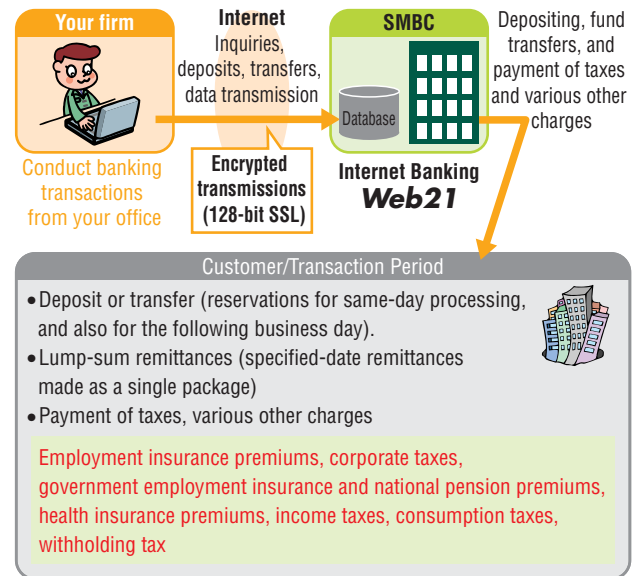

"Web Passbook" Promotion

Instead of issuing an ordinary bank passbook, SMBC has started issuing the "Web Passbook," which allows for checking the content of transactions via the Internet. This has helped the bank to greatly reduce its paper consumption. The system has yielded the benefit that the bank and passbook user simultaneously contribute to the preservation of the environment. A "Web Passbook" campaign held from May–July 2004 yielded around 130,000 applications. A donation of ¥10 was made to the WWF for each applicant, for a total donation of roughly ¥1.3 million.

Promoting Web21 (Internet banking for corporate clients)

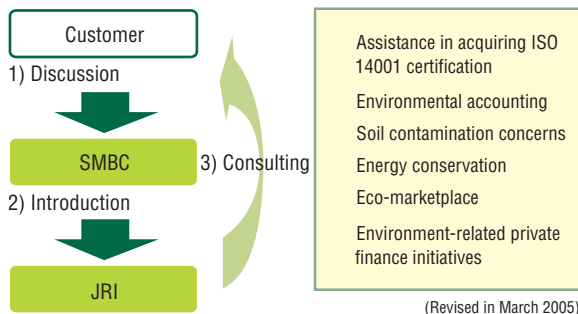

SMBC is promoting *Web21*—Internet banking for companies—and successor to the previous *Exchange EB (Electronic Banking) Services* system. This will ensure the provision of upgraded services, such as inquiries for trading account transaction statements and lump-sum remittances. Internet banking will contribute to reducing the volume of paper used for manuals and other documents, as well as the number of CD-ROMs needed for software installation.

Eco-Consulting

Through collaboration between SMBC and JRI, SMFG undertakes eco-consulting, providing client companies with comprehensive support for dealing with environmental management issues. Depending on the client's needs, SMBC will introduce JRI, which employs staff with a broad range of specialties to help the client. Such a system enables an appropriate and high-level response to customers' diverse and sophisticated needs.

Consulting Structure

JRI's Activities

Apart from the aforementioned eco-consulting, JRI is actively promoting the incubation of environment-related start-ups.

Soil Decontamination Consulting

JRI provides a consulting service on soil contamination for clients holding land assets. Specifically, JRI's experts conduct a simple assessment of the degree of contamination of the soil on the customer's property, including an estimate of decontamination costs, and help the customer draw up a strategy for the usage of the property. In the event of the sale of the property, JRI provides support services for more detailed soil contamination assessment and decontamination. This service enables customers to preserve environmental integrity without hindering the vigorous development of their business operations.

Energy Service Provider (ESP) Initiatives

An ESP provides energy conservation services for changing electricity charges from a fixed to a variable cost. The company E-cubic Co., Ltd., established by the JRI consortium, is Japan's first ESP company. It uses as its main tools the gathering and analysis of electric power consumption data, and has developed a system that automatically draws up management reports to enable the "visualization" of energy consumption.

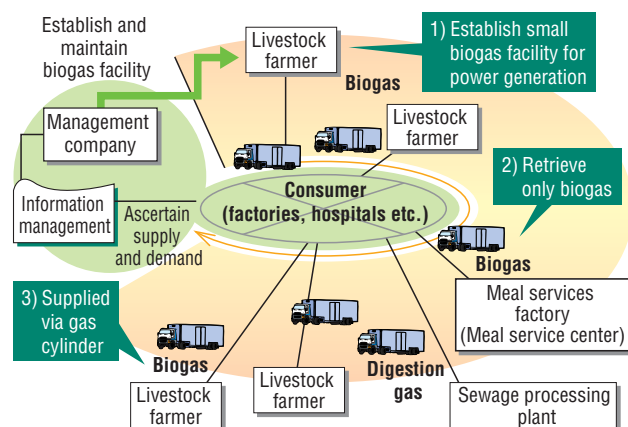

This company's corporate customers can obtain an accurate grasp of their daily levels of electricity consumption, and it is possible for them to produce precise guidelines to identify and reduce energy wastage. Moreover, the service fees are paid for by the savings on energy costs. The potential market for this service, which targets mainly private-sector clients, is estimated at ¥100 billion (US\$909 million).

Bio Net. Consortium

JRI is actively promoting the commercialization of new fuels. Following ratification of the Kyoto Protocol, Japan is committed to reducing emissions of greenhouse gases by 6% from the level of 1990. Energy conservation alone will not enable us to meet this difficult target. Japan must also promote the use of alternative power sources, such as wind power, solar power and biomass.

The Bio Net. Consortium aims at creating an infrastructure to deliver biogas generated from livestock waste, wastewater sludge and food waste to hospitals, manufacturing plants, restaurants and other facilities. Biogas is a carbon-neutral fuel (a fuel that will not increase atmospheric carbon dioxide when burned).

The Bio Net. Consortium plans to conduct field tests in Hokkaido, the northern Japanese island where stock farming is a major industry. If the Hokkaido field tests prove successful, the next move will be to construct a nationwide network spanning dairy farming areas from Tohoku to Kanto, and on to Kyushu, as well as food processing facilities and wastewater treatment facilities.

MATICS Consortium

The MATICS (Material Tracing IC System) Consortium has developed systems and services employing IC tags for controlling the process by which waste is designated for reuse, recycling, or disposal. IC tags contain IC chips encrypted with data for system users, and data can be read or added without having to actually make contact. The use of IC tags makes it easy to trace the reused or recycled product's history. In addition, transport and processing details on a discarded item can be easily traced. The consortium intends to apply this system to the recycling of automobile parts, focusing on management of product quality data.

Management of disposed waste materials does not end with tracing. A system is being developed to provide comprehensive disposal management services that include reducing disposal costs, increasing efficiency at disposal sites, and risk management. In fiscal 2004, trials to verify the tracing of waste articles from medical organizations and factories were conducted at a large-scale hospital and an environmentally conscientious food industry firm. These trials confirmed the effectiveness of the system in improving operational efficiency.

Energy Service Company (ESCO) Initiatives

An ESCO is an integrated energy service company that carries out energy conservation audits of a building or facility, draws up conservation proposals, plans, designs and builds energy conservation facilities and also guarantees energy reduction amounts.

The First Energy Service Company, Limited (FESCO) was established by the JRI consortium, and is the first energy service company in Japan. It proposes measures for demand-side energy reductions ranging from lighting, air-conditioning, transformers and motive power to the supply of energy from dispersed sources (such as energy co-generation from all types of engines, fuel cells, biomass generation, etc.).

ESCO corporations are a type of enterprise that have not existed in Japan until now, though in the U.S. they have formed a market that is valued in excess of ¥100 billion (US\$909 million). The Ministry of Economy, Trade and Industry estimates that the market in Japan will expand to ¥130 billion (US\$1.2 billion) in 10 years.

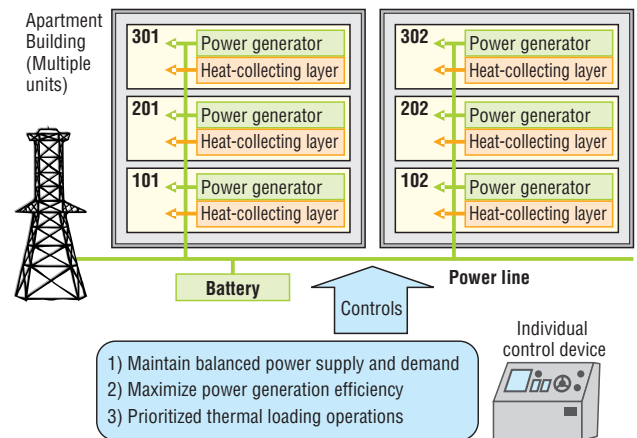

ESCO was listed on the Tokyo Stock Exchange "Mothers" market in March 2005.

Micro Grid Business

JRI runs the DESS (Decentralized Energy System & Software) Consortium, a group that investigates new business using micro grids (control technology for a dispersed power supply network). Presently, as part of the policy to reduce CO₂ emissions in the residential housing sector, the consortium is conducting research to ascertain the optimum control systems for realizing:

- 1) improved energy efficiencies
- 2) improved power supply reliability (maintaining continuous power supply even during power grid outages), and
- 3) reduced energy costs using a model in which a small fuel cell is located in each housing unit inside multiple-unit buildings.

By fiscal 2004, research activities had confirmed that these aims are technically feasible. In fiscal 2005, actual development and verification of the required software began. The consortium hopes to use the system in multiple-unit buildings by 2008.

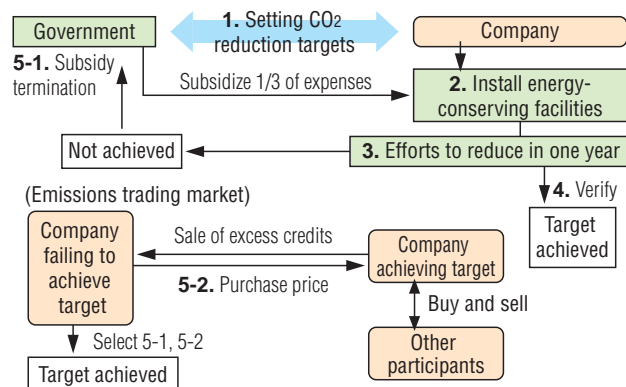

Participation in a voluntary emissions trading system—an initiative of the Ministry of the Environment of Japan

JRI and SMBC are jointly participating in the voluntary emissions trading system led by the Ministry of the Environment of Japan. This system enables participants to sell excess credits or purchase credits to make up for insufficiencies, depending on their progress toward achieving their CO₂ emissions reduction targets (applied for in advance). Participating in the system helps companies deepen their understanding of the emissions trading process.

Overview diagram

1. Set fiscal 2006 emissions targets, taking the average emissions volume for the period 2002 through 2004 as the standard (from among applicants, select participants showing the most substantial reductions in emissions).
2. Fiscal 2005: Period for installing equipment (Environment Ministry provides subsidy).
3. Fiscal 2006: Work to achieve reduction.
4. At fiscal year-end: Verify achievement of target.
5. Companies failing to achieve their target can consider repaying the subsidy, or offset shortfalls by trading emissions credits.

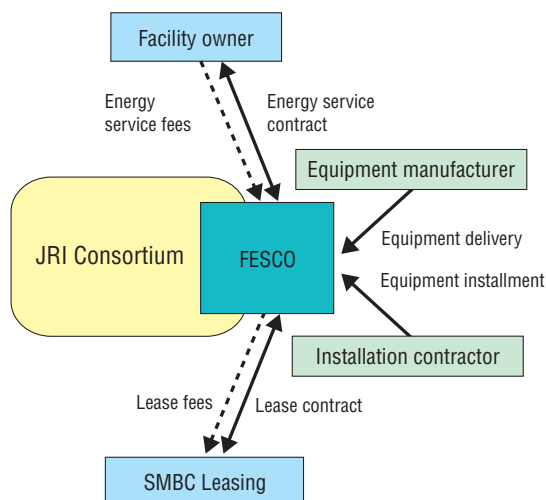

Environment Ministry-related site

<http://www.env.go.jp/earth/ondanka/det/>

SMBC Leasing's Activities ESCO Enterprise Initiatives

SMBC Leasing supports ESCO companies indirectly by proposing leases when energy-conservation equipment is to be installed based on FESCO's energy-conservation proposals. SMBC Leasing proposes arrangements whereby the energy service fee and the lease fee are fixed within the range of cost-savings, and would therefore produce no additional cash-flow burden for clients.

ESCO Business Model

Business Collaboration with Development Bank of Japan

Since the nineties, SMBC Leasing has been involved in activities to reduce environmental load. Through collaboration with companies participating in the ESCO program, the company is leasing energy-saving equipment and raising lease renewal and resale rates. Through these and other initiatives, SMBC Leasing has been promoting its 3R (Reduce, Reuse and Recycle) program, part of initiatives to contribute to the realization of a recycling-oriented society.

Through a new project financing system established in fiscal 2004, the Development Bank of Japan (DBJ) extends financial support to companies for which environmental considerations are emphasized as a management priority. SMBC Leasing has also received financing under this system. Moreover, SMBC Leasing and the DBJ entered into a business collaboration agreement, which they hope will lead to the expansion of business in the environment-related fields and contribute to the development of Japan's economy.

Specific Initiatives:

1. Popularizing the use of environmentally friendly equipment through collaboration in financing leases for such equipment
2. Developing financing programs, with leasing firms' asset valuation and asset management know-how and socially responsible investment (SRI) as the key concept
3. Promoting environmentally friendly management at leasing firms in local areas

Lease-up Eco Town Homepage

SMBC Leasing on July 22, 2004 established a website, Lease-up Eco Town, a portal for selling equipment on which the leases have expired.

Site Description

Site name: Lease-up Eco Town (LET)
 Participating companies:
 SMBC Leasing Co., Ltd.
 Diamond Lease Co., Ltd.
 IBJ Leasing Co., Ltd.
 Fuyo General Lease Co., Ltd.

Products offered:

- Products on which lease periods have expired or lease contracts have been terminated, etc.
- Industrial machinery, business equipment, forklifts and other equipment

Target audience:

Clients of the four participating companies, other companies (including sole-proprietorships), trading companies specializing in recycled items. (This service is not available to the general public.)

Site Features

This site is the first of its kind operated jointly by major leasing companies in the industry.

It is an eco-site, in that it promotes the reuse of items on which the leases have expired, and extends their useful lives.

This site offers a broad lineup of products which only a major leasing company is capable of providing.

Participation in voluntary emissions trading system led by Japan's Environment Ministry

SMBC Leasing is participating in the Environment Ministry's voluntary emissions trading system together with Obihiro Matsushita Electric Works, Ltd. and Matsushita Electric Works Engineering Co., Ltd. This system enables participants to trade emissions credits by selling excess credits and purchasing insufficient credits, depending on progress made toward the achievement of their CO₂ emissions reduction targets (applied for in advance). Participating in the system helps companies deepen their understanding of the emissions trading process.

Acquisition of ISO 14001 Certification

SMBC and JRI have acquired ISO 14001 certification, the international standard for environmental management systems.

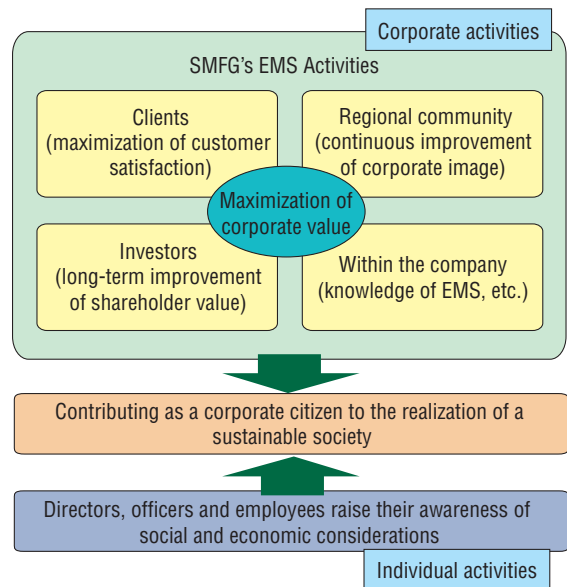

Toward a Sustainable Society

At SMBC and JRI, instruction on environmental management systems (EMS) is included as part of the annual training program. JRI also offers environmental management training programs through its e-learning systems. SMBC and SMBC Leasing are also considering the introduction of e-learning systems for environment issues.

Corporate actions and individual actions must both function effectively if a sustainable society is to be achieved. We are pursuing a wide range of activities to enhance the effectiveness of corporate and individual initiatives for achieving a sustainable society.

Aiming at a Sustainable Society

Environmental Objectives and Achievements

Appraisal standard	
Reached the objective
Did not reach target but results have improved (over 80% of fixed numerical targets reached)
Did not reach objectives

Fiscal 2004

SMBC			
	Items	Objectives	Achievements
Reduction of environmental impact	Energy usage	Reduce power, water, gas usage by 6% from fiscal 2001 base value at headquarter buildings in Tokyo (Hibiya and Otemachi), Osaka and Kobe	 Reduced power by 10.3%, water by 10.5%, and gas by 8.2%
	Waste processing load reduction	—	—
	Paper consumption	Reduce paper consumption at each head-office department by 2% compared to the base value (base value: average monthly usage for January-June 2004)	 Increased 0.2% over the base value
	Green purchasing	Expand purchasing of stationery items that are covered under the Green Purchasing Law	 Switched over to 13 new eco-friendly items in fiscal 2004 (compared with fiscal 2003) Note: We have nearly completed the switchover. No targets have been set for fiscal 2005. (It is, however, being handled as a management issue.)
	Materials distributed to customers	Consider whether it is possible to draft guidelines for incorporating eco-friendly materials in the production of pamphlets and posters, etc.	 Decided against drafting guidelines because the use of such materials is not cost effective. Achievements: 1) Increased usage of recycled paper 2) As much as possible, used eco-friendly materials for distributed printed matter and advertisements, etc.
	Employee training	Conduct environmental management systems (EMS) training to teach all bank employees how to deal with environmental issues and raise awareness of environmental concerns	 1) Included an environmental awareness course in the training curriculum for new employees from fiscal 2004 2) Conducted EMS training at all branches, implementing EMS training beginning with senior staff first, then junior staff
Environmental risk measures	Reduce the impact of clients' environmental risk on the bank's credit risk	Implement measures aimed at reducing environment risk for customers and the bank by controlling credit environment risk	 1) Enforced credit-related regulations throughout the bank 2) Exchanged information with Japan Bank for International Cooperation (June 2004)
Environment-related businesses	Provision of services	Promote <i>Web Passbook</i> 1) Implement a program to promote "One's Style," a service targeting customers in their 20s and 30s (February-April 2004) 2) Implement <i>Web Passbook</i> campaign (May-July 2004) 3) Improve convenience of <i>Web Passbook</i>	 Initiatives were implemented as planned. Regarding the <i>Web Passbook</i> campaign, the bank donated ¥10 to the World Wide Fund for Nature (WWF) for each <i>Web Passbook</i> application. (During the campaign, the bank received approximately 130,000 applications, resulting in a donation of approximately ¥1.3 million).
		—	—
		—	—
	Client support	1) Offer clients support (soil contamination consulting, etc.) 2) Provide environment-related information (hold environmental seminars for clients) 3) Extend financial support to environmentally aware companies	 1) Witnessed a decline in the number of consulting contracts. 2) Implemented environmental seminars (March 2005). Extended the previous half-day session to a day-and-a-half session. Registered attendees: 480. 3) Promoted individual projects related to environmental businesses. Example: Organized project financing for a power generation project on the shore of Tokyo Bay that uses recycled industrial waste as fuel
Product lineup	Expand lineup of environment-related products and services	 1) Reviewed our eco-consulting lineup of services (March 2005) 2) Failed to develop standardized loan products for companies undertaking environmental initiatives	
Public relations	Inside and outside bank	1) Raise awareness of environmental issues by conducting educational activities within the bank 2) Conduct PR events outside the bank	 1) Distributed EMS cards to all officers and employees (July 2004) 2) Expanded environment-related section in the fiscal 2004 annual report (increased from 2 pages to 10 pages)
	Consider eco-related social contributions, devise new measures	-	-

Fiscal 2005

● — New ■ — Ongoing

SMBC			
	Items	Objectives	Specific Plans
Reduction of environmental impact	Energy usage	■ Reduce power, water and gas usage by 6% compared to 2001 base levels at headquarters buildings in Tokyo (Hibiya and Otemachi), Osaka, and Kobe. (Targets were set in line with the action plan submitted to the Tokyo Municipal government.)	Encourage strict adherence to rules governing usage of electricity, gas and water
	Waste processing load reduction	● Reduce waste by 2% compared with the fiscal 2004 level at all headquarter buildings. (Targets were set in line with an action plan submitted to the authorities.)	Consider recycling and reuse of discarded waste
	Paper consumption	■ Each head-office department will reduce its paper consumption by 2% compared with the fiscal 2004 level	All head-office departments will work to meet targets
	Green purchasing	—	—
	Materials distributed to customers	■ 1) Produce eco-friendly advertising materials 2) Use eco-friendly envelopes for direct mailings	1) Continuously monitor the rate of usage of recycled paper and consider eco-friendly materials when ordering advertising and PR materials 2) Use envelopes with glassine paper over the window portion when sending transaction statements and other direct mailings to individual customers
	Employee training	■ Conduct EMS training to teach all bank employees how to deal with environmental issues and raise awareness of environmental concerns	1) Introduce e-learning at all branches as part of employee training 2) Consider including an environmental awareness course (CSR training) in the curriculum for training new staff from fiscal 2006
Environmental risk measures	Reduce the impact of clients' environmental risk on the bank's credit risk	■ 1) Continue to raise awareness about the risks of soil contamination 2) Collect information on environmental studies	1) Promote widespread use of e-learning in employee training at all branches 2) Consider measures concerning the collection and handling of data on environmental studies in line with an agreement with the Japan Bank for International Cooperation
Environment-related businesses	Provision of services	■ Promote <i>Web Passbook</i>	1) Promote <i>Web Passbook</i> in conjunction with <i>One's Style</i> accounts 2) Promote <i>Web Passbook</i> in conjunction with <i>One's plus</i> accounts
		● Promote Internet Banking <i>Web21</i>	1) Within the department handling <i>Web21</i> , established a team to work on promotion of this service 2) Promote business process reengineering at branches
		● Make transactions with bank tellers paperless —Minimize the use of application forms at MC stations	1) Increase the number of MC stations 2) Implement training conducted by MC coaches, one bloc at a time
		● Make card loan statements paperless —Discontinue the issuance of paper-based statements	1) Enable users to access their credit card loan balance and interest statement via a remote channel 2) Stop sending quarterly transaction statements via mail unless otherwise requested at the time of application
	Client support	■ 1) Send environment-related information 2) Provide support to eco-friendly companies	1) Hold study sessions and regularly provide information 2) Improve eco-consulting performance over fiscal 2004 level
Product lineup	■ Provide full range of environment-related products	1) Investigate and developed new loan products 2) Consider hosting gatherings to promote discussions on environment-related businesses	
Public relations	Inside and outside bank	■ 1) Raise awareness of environmental issues by conducting educational activities within the bank 2) Conduct PR events outside the bank	1) Publicize within the bank through in-house publications, such as distributing EMS cards, etc. 2) Effectively disclose information by publishing environment-related magazines, posting information on the bank's website, and including it in the online annual report
	Consider eco-related social contributions, devise new measures	● 1) Encourage employees to participate in environment-related projects as volunteers 2) Devise new projects and means for furthering environmental preservation efforts and making social contribution activities that contribute to society	1) Hold riverbank clean-up, beach clean-up events 2) Devise new projects and measures, drawing on the examples of other companies

Did not reach objectives

Fiscal 2004

Sumitomo Mitsui Card Company, Limited							
	Items	Objectives			Achievements		
Reduction of environmental load	Energy usage	Reduce power usage per square meter by 2% from the fiscal 2002 base level Reduce water usage by 2% per employee from the fiscal 2002 level (excluding branches and service centers)			Reduced power usage by 10%; reduced water usage by 24%		
	Paper consumption	Reduce the per-employee consumption of copier paper from the fiscal 2002 base level			Reduced power usage by 6%		
	Green purchasing	Introduce the exclusive use of recycled copier paper			Exclusively using recycled copier paper		
	Employee training	Educate employees about environmental concerns on an ongoing basis, and provide them with environment-related information			Held study meetings at each branch for all employees (December)		
Environment-related businesses	Provision of services	—		—	—		
SMBC Leasing Company, Limited							
Reduction of environmental impact	Energy usage	Reduce power usage	Reduce usage per employee by 8% from fiscal 2001 base levels at Tokyo headquarters		Reduced by 28.6%	Number of employees at Tokyo headquarters: 272 (as of March 31, 2002) 343 (as of March 31, 2005)	
		Reduce water usage			Reduced by 24.0%		
	Paper consumption	Reduce paper consumption (calculated on a purchase-price basis)			Reduced by 31.6%		
	Green purchasing	Expand green purchasing of stationery items			Switching over to such items		
	Employee training	Conduct training to raise awareness of environmental issues and teach about initiatives being undertaken			Publicized the company's environment-related initiatives through in-house publications and training programs for new employees		
Environmental risk measures	Promote reuse	Improved the reuse rate (acquisition price ÷ scrap value at lease-expiration date)	Targeting a reuse rate of 9%		Reuse rate: 8% (down 0.5% from the previous year), however sales-and-reuse rate improved 0.8%		
Environment-related businesses	Client support	Promote leases that contribute to environment-related businesses			Provided low-energy-consumption leases (¥4.7 billion)		
JRI							
Reduction of environmental impact	Energy usage	Reduce ordinary power usage: reduce the usage per square meter by 3% from the fiscal 2002 base level			Reduced 2.6% from the base level Achievement rate: 86.7%		
	Paper consumption	Reduce per-person paper consumption of copier paper by 6% from the 2002 base level			Per-person paper consumption declined 1.7% compared with the base-year level. Achievement rate: 28.3%		
	Green purchasing	Promote continuous green purchasing of stationery items and PCs, etc. Achievement rate: over 99%			Realized an achievement rate of 99.6% for target items		
	Employee Training	Conduct training sessions about environmental issues on an ongoing basis, and provide employees with information on environment-related topics			Conducted group training sessions, posted information on the intranet, thereby achieving objectives as planned		
Environmental risk measures	Proposal of policies and measures	Propose policies and publicize environment-related performances through various media announcements and events (820 points)			Against a target of 820 points, realized an achievement rate of 92.0%		
Environment-related businesses	Client support	Develop new businesses in environmental fields; actively promote businesses related to the environment (target: 60 projects)			Established 63 projects, surpassing the target of 60, for an achievement rate of 105%		
	Provision of information	Provide information through the publication of books on environmental issues; hold lectures and host seminars			Proceeding as planned		

Fiscal 2005

● — New ■ — Ongoing

Sumitomo Mitsui Card Company, Limited					
	Items	Objectives		Specific Plans	
Reduction of environmental load	Energy usage	■	Reduce power, water usage by 6% from fiscal 2002 base levels	Hold study sessions in which employees are taught "eco" rules	
	Paper consumption	■	Reduce paper consumption by 2% from the fiscal 2002 base level	Continue efforts to raise employees' awareness (e.g. encourage employees to use both sides of paper when photocopying)	
	Green purchasing	■	Expand green purchasing of stationery items	Consider items other than copier paper as items for green procurement	
	Employee training	■	Conduct training sessions in each department and branch focusing on environmental issues on an ongoing basis, and provide employees with information on environment-related topics	Continue to hold study meetings at headquarters and branches	
Environment-related businesses	Provision of services	●	Promote the accessing of statements via the Internet	—	
SMBC Leasing Company, Limited					
Reduction of environmental impact	Energy usage	■	Reduce power usage	Reduce usage per employee (in the Tokyo headquarters) by 20% from fiscal 2001 base levels	Reduce overtime; prevent excessive air-conditioning
		■	Reduce water usage		
	Paper consumption	■	Reduce paper consumption		Reduce handouts and materials, promote use of projectors
	Green purchasing	■	Expand green purchasing of stationery items		Continue policy to expand green purchasing
Employee training	■	Conduct training sessions about environmental issues on an ongoing basis, and provide employees with information on environment-related topics		Conduct training sessions for new employees; consider the introduction of an e-learning system	
Environmental risk measures	Promote reuse	■	Reduce number of articles discarded following expiration of leases	Effectively use Lease-up Eco Town (LET), an Internet site for selling used leasing equipment	
Environment-related businesses	Client support	■	Promote leasing of eco-friendly equipment	Continue to promote business activities that take advantage of opportunities provided by the trend toward environmental preservation	
		●	Develop and promote environmental alliances	Form an alliance with the Development Bank of Japan; promote business alliances with the Tokyo Metropolitan Government and other public bodies	
JRI					
Reduction of environmental impact	Energy usage	■	Reduce ordinary power usage: reduce the usage per square meter by 5% from the 2002 base level	In addition to ongoing measures, introduce new measure to reduce power consumption of equipment on standby status; considered measures for promoting low energy consumption year-round, instead of just in summer and winter	
	Paper consumption	■	Reduce paper usage per employee by 6% compared with the fiscal 2002 base level	Strictly implement the practice of printing on both sides of paper; consider making meetings "paperless"	
	Green purchasing	■	Continue green purchasing of stationery items and PCs, etc. (Target an achievement rate of over 99%)	Consider ways to realize greater cost-effectiveness	
	Employee Training	■	Conduct training sessions about environmental issues on an ongoing basis, and provide employees with information on environment-related topics	Make greater use of Intranet; conduct review of e-learning education	
Environmental risk measures	Proposal of policies and measures	■	Propose policies and publicize environment-related performance through various media announcements and events	To be undertaken by the think-tank consulting department; consider conducting a review of target points by reducing the number of departments to which this system is applied	
Environment-related businesses	Client support	■	Develop new businesses in environmental fields; actively promote businesses related to the environment (target: 60 projects)	To be undertaken by the think-tank consulting department	
	Provision of information	■	Provide information by publishing environment-related material, holding lectures and seminars	To be undertaken by the think-tank consulting department	

Social Contribution Activities

Our Three-Pronged Approach

As a responsible corporate citizen, each SMFG company undertakes a wide range of activities to contribute to the welfare of society as a whole.

By placing particular emphasis on social welfare activities and international cooperation, working together with private-sector non-profit organizations that have expertise in these two areas, we are making various efforts to contribute to the development of a prosperous society worldwide. Volunteer activities play an important part in maintaining and improving the welfare of society as a whole, and we actively support the volunteer activities of our employees.

We will continue to undertake social contribution activities with the hope of creating a better society for all.

Social Welfare Activities

Group companies organize and participate in a wide range of social welfare activities, and also support organizations devoted to such causes to help create a more benevolent society.

● Donation of Voided Postcards

SMBC collects voided or otherwise unusable postcards from employees of each Group company, exchanges them for new postal stamps and donates these stamps to volunteer organizations.

● SMBC Volunteer Fund

The SMBC Volunteer Fund makes donations to volunteer organizations dedicated to providing assistance in cases of disaster and economic hardship. This fund is raised by SMBC employees who make a voluntary contribution of ¥100 each month. About 9,400 employees were participating in the program as of June 2005.

Major Donations by the Fund in Fiscal 2004:

★The medical staff costs at institutions in Cambodia caring for orphans infected with AIDS.

★Donations for projects to support rural villagers in Bangladesh, including educational programs to raise the level of literacy and improve hygienic conditions, and projects to generate income.

★Publishing costs for a book of Cambodian folktales entitled *The Three Brothers*, as well as the cost of hosting training seminars on reading for teachers in Cambodia, where books for children are extremely scarce.

★Scholarships for elementary school students in Laos and Cambodia, where many children are unable to attend school for economic and other reasons.

★Annual operating costs for a medical center in the slums of Haiti, where malaria, tuberculosis and other contagious diseases are rampant.

★ Donations to set up school libraries in Laos, where books for children are scarce, and also operating costs for children's cultural centers for art education.

★ Medical costs for people in Northern Afghanistan who have been injured in conflicts or by land mines.

★ Donations to build elementary schools in poverty-stricken regions of Tanzania.

★ Scholarships for girls in rural areas of China, where many children are unable to attend school for economic and other reasons.

★ Financial support for the small businesses of poverty-stricken people in the Philippines. SMBC's donations covered the production of training manuals and costs for microfinancing and consulting services.

★ Donations to cover the cost of medical equipment, medicines and other supplies for projects to prevent the spread of AIDS in poverty-stricken regions of Indonesia where minority ethnic groups live.

★ Emergency Disaster Relief

- Donations for disaster relief for people in Hyogo, Kyoto and other prefectures affected by powerful typhoons in October 2004
- Donations for disaster relief for areas affected by a major earthquake that struck Niigata Prefecture in October 2004
- Donations for disaster relief for areas affected by the massive tsunami that struck northern Sumatra in December 2004

● Donation of Unused Prepaid Telephone Cards

SMBC collects unused prepaid telephone cards from employees each year, and donates them to volunteer organizations.

● Donation of Used Postal Stamps and Prepaid Cards

Sumitomo Mitsui Card collects used postal stamps and prepaid cards from employees each year, and donates them to volunteer organizations.

● **Support for Economic Education Program
“Finance Park”**

In June 2005, SMBC became a sponsor of the “Finance Park” economic education program, supported by firms in the financial, telecommunications, restaurant, supermarket and other sectors. Working closely with Junior

Achievement Japan, an economic education organization that teaches youth about free enterprise, and the Shinagawa Ward Office, the sponsors have built and operate booths modeled after actual retail stores. The booths have been set up in a vacant classroom in a junior high school in Shinagawa Ward in Tokyo. After learning the basics of finance, students get hands-on experience through a variety of economic activities conducted at the booths in this make-believe shopping center, and learn about free enterprise.

International Cooperation

SMBC engages in a variety of international cooperation activities.

● **Supporting UNICEF**

★As a member of the steering committee for UNICEF’s “Change for Good” program, SMBC cooperates in the organization’s fundraising activities. Foreign coin collection boxes are placed at SMBC branches and offices in Japan, to encourage donations by the general public. The collected coins are sorted by currency with the cooperation of SMBC Green Service, one of our Group companies, before being sent to UNICEF. Total donations have reached ¥490.8 million since 1992, when the program started. (Please see photos and captions below.)

SMBC has also implemented the *UNICEF Donation Account* program, through which customers donate their net interest to UNICEF and SMBC donates a matching amount.

★Through its *World Present* points service for members of the VISA Japan Association, Sumitomo Mitsui Card collects donations from VISA cardholders every year and presents them to the Japan Committee for UNICEF. Total donations have reached ¥216.2 million since the start of the program in 1992. Sumitomo Mitsui Card also issues cards incorporating donations to specific charities, such as the *UNICEF VISA Card* and the *Red Feather VISA Card* (offered in cooperation with the Central Community Chest of Japan). The company makes its own donations to the working funds of all these organizations from its card business revenues.

● **SMBC GLOBAL FOUNDATION**

SMBC Global Foundation, Inc. awards financial grants to hundreds of students each year as part of scholarship programs with numerous universities in China, Indonesia, Thailand, Singapore, and other parts of Asia, as well as supporting the educational goals of Asian students abroad. In recent years, the Foundation has also been active in supporting educational institutions and community service organizations within the United States.

● **SMBC Foundation**

Through its education and international exchange programs, the SMBC Foundation aims to help nurture the human resources necessary to achieve sustainable development in developing economies. The foundation offers scholarships to students from Asian countries attending universities in Japan and provides subsidies to research institutes around the world undertaking projects related to developing countries.

~ **Foreign Coins Collected for UNICEF** ~

Foreign coin collection boxes are placed at SMBC branches and offices.

The coins are sent to SMBC Green Service, a Group member, along with those collected at airports and other locations nationwide, to be sorted by currency.

Coins are sent back to their countries with the cooperation of all member companies of the steering committee of UNICEF’s “Change for Good” program. These coins are then changed into U.S. dollars, and the funds are used by UNICEF for projects benefiting children worldwide.

©UNICEF

Supporting Employees' Volunteer Activities

SMFG actively supports employees' participation in volunteer activities. We believe volunteer activities will help raise employees' awareness of social issues.

● YUI—an SMBC Volunteer Organization

At SMBC, we actively support YUI, an in-house volunteer organization. As members of YUI, SMBC employees plan and carry out a variety of welfare activities. The name derives from the Japanese word *yui*, a term describing a mutual support system among farmers that dates back to the Edo Period. The name indicates the group's desire to cultivate ties with people from all walks of life. YUI undertook the following activities in fiscal 2004:

★ Since fiscal 2002, the organization has been offering computer courses for school children with impaired hearing every six months. These children are instructed using pen and paper and also sign language.

★ Since fiscal 2001, YUI has held an annual bazaar, selling items collected from employees. Proceeds are donated to volunteer organizations.

★ Since fiscal 2002, YUI has been hosting an annual variety show at a senior citizens center, presenting the senior citizens who regularly attend classes and other social activities at the center an opportunity to sing and perform on stage.

● Sign-Language Courses

SMBC has been offering sign-language courses annually to its employees since fiscal 1997. These courses help employees to communicate better with hearing-impaired customers and improve customer service, while simultaneously enabling SMBC to make a social contribution through its business activities. In fiscal 2004, 179 bank employees enrolled in the course. In April 2005, SMBC arranged a lecture in which the guest speaker, who was hearing impaired, shared her impressions about her daily life using sign language. The lecture, facilitated by an interpreter, was attended by 73 employees. After completing the course, employees use what they have learned in various ways, such as in dealing with customers at the bank, or by participating in volunteer activities in which sign language is used, and also by teaching sign-language classes for beginners.

Seminars for Experiencing Volunteer Activities

SMBC holds events for its staff after working hours as well as on weekends and holidays, enabling them to experience volunteer activities. SMBC also provides employees with information on various volunteer activities, and encourages their participation in such events. The following initiatives were undertaken in fiscal 2004:

★ An event was held for parents and children, teaching them how to provide support for people with complete or partial lack of sight. Demonstrations showed the proper use of seeing-eye dogs. Also, participants put on eye masks and tried to do simple tasks, like walking or eating.

★ SMBC jointly hosted with other firms an event that gave disabled individuals an opportunity to enjoy sports like wheelchair basketball, goal ball and boccia with athletes.

★ SMBC jointly hosted with other companies an event in which volunteers were taught how to record lifestyle information collected from newspapers and magazines and post it on Internet websites for users with impaired vision.

● Neighborhood Cleanup Programs

★ In April 2005, approximately 170 employees took part in a cleanup held along the banks of the Arakawa River in Tokyo. Participants also tested the quality of the water as part of the event.

★ At SMBC Leasing Company, Limited, the staff at the Osaka headquarters make extensive efforts to beautify the surrounding area. Such efforts include a regular neighborhood cleanup conducted along Midosuji Street, a major thoroughfare.

Human Resources

Recognizing the vital role of human resources in its business operations, SMBC makes utmost efforts to help employees realize their full potential and make optimum use of their skills.

SMBC Human Resources (HR)

● Objectives

One of the crucial considerations in an HR system is that it embodies the company's management philosophy. The primary goal of SMBC is to grow and prosper together with its three main stakeholder groups—its customers, shareholders and employees—and to achieve this goal, SMBC has established the following objectives for its HR system:

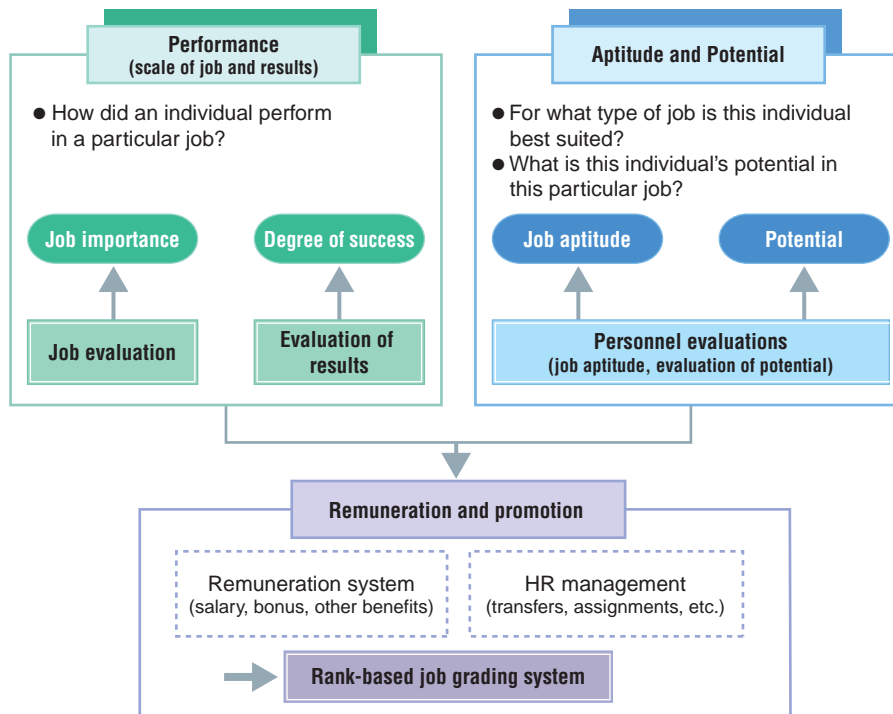

- Support the building of an even more powerful business base that can successfully compete on a global scale
- Cultivate staff with specialized skills who can provide customers with value-added services
- Motivate employees more strongly by respecting their individuality and encouraging them to seek personal fulfillment
- Foster a corporate culture that rewards a forward-looking and creative attitude

● Job Categories

The distinguishing feature of human resource management at SMBC is a system based on a wide variety of job categories, responding to the diverse scope of our business activities and our need to cultivate specialists, as well as our desire to respect the preferences and priorities of each employee.

● Basic Policy on Job Evaluations, Remuneration and Promotions

Employee evaluations are based on two factors. The first is performance, meaning the results that an individual delivers while performing a specific job. The second factor has two elements. One is aptitude, meaning the jobs for which an individual appears best suited. The other is potential, meaning the level of results that an individual appears capable of achieving. Concerning remuneration, SMBC uses as its basic framework a unique system called a "rank-based job grading system." This system combines evaluations of both performance and potential based on a job grading system.

HR Management

● Putting the right staff in the right jobs

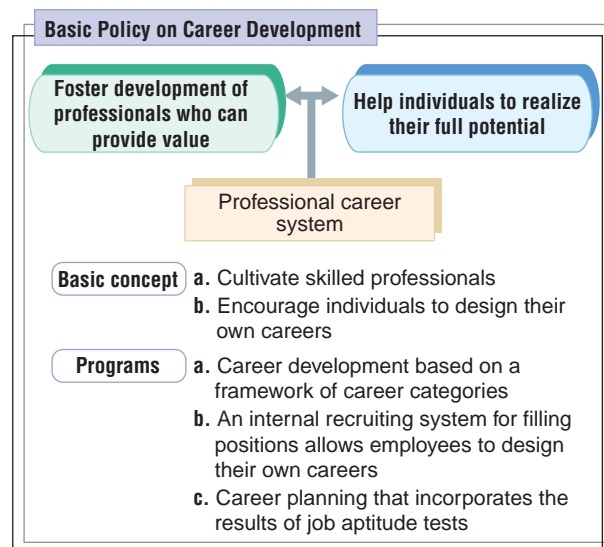

At SMBC, we make efforts to place each person in the right job. This is based on each individual's aptitude and potential as assessed by tests and other evaluation tools. Age does not figure as a factor, and talented young employees are quickly given positions of responsibility to inject vitality into the workplace.

● Performance-weighted evaluations

Under our comprehensive HR evaluation system, staff are assessed in accordance with their on-the-job performance, in a manner that all can understand and accept. Remuneration and promotions are then determined on the basis of these evaluations. Furthermore, by reviewing evaluations in a timely and flexible manner according to an individual's performance and other considerations, we facilitate an HR system that takes into full account each employee's performance and skills. Through this approach, SMBC aims to create a competitive and motivating employment framework.

● Career development system

One of the main features of the SMBC's HR system is that every employee is encouraged to cultivate highly specialized skills befitting a financial professional. Each employee must have a thorough awareness of his or her job aptitude and future career goals. It is vital that employees be able to realize their full potential. SMBC's HR system includes a framework for providing support to enable each employee to take responsibility for advancing his or her career, known as the Professional Career System. The core concepts of this system are as follows.

HR Development

● Training Policy

The basic policy for HR development is to cultivate staff with specialized skills, in line with our management philosophy of providing customers with high value-added services. In accordance with this basic policy, our training policy is to speedily foster professionals who can help us compete successfully.

● Group Training

To complement on-the-job training, SMBC offers a variety of training courses to help employees obtain the practical skills they require. The training system is divided into two major categories: training by job category and training by job rank.

Training by Job Category

These courses give individuals knowledge and skills that are linked directly to their jobs. The following courses have been established, with the stated objective, in each business unit.

Corporate Banking

- Training to help new, young employees to quickly acquire useful skills
- Support for executing key Corporate Banking initiatives
- Enhancing skills to create new sources of competitiveness

Consumer Banking

- Quickly make newly appointed employees productive and raise their output
- Ensure that branch office managers acquire Financial Planner qualifications, as required by the new branch organizational structure
- Help employees to upgrade their skills

Training by Job Rank

This training is given to all employees having the same duties, seniority or job rank. There are two categories. First is training for specific jobs: this is aimed at increasing understanding of each job's responsibilities and roles, as well as how to fulfill them. Second is seniority-based training to assist individuals in developing their careers and skills in accordance with their seniority and job ranks.

● Applying for Training Programs

Every employee drafts a career plan, and then submits applications to undergo the training programs required for achieving the objectives specified in the career plan.

● Support for Self-Education

As tools for self-education, SMBC provides e-learning, assistance in acquiring qualifications, correspondence courses and an internal examination system.

Employee Benefits System

SMBC has an employee benefits system to create a safe and pleasant working environment. The system also helps employees to lead healthy and fulfilling lives.

● Health Management

SMBC has health development centers at three locations, including the head office. Responsible for managing the health of employees, the centers are staffed by industrial physicians, nurses, hygienists and other professionals. Each health development center includes a medical clinic.

On-site health consultations

In addition to conducting periodic medical examinations for all employees, hygienists and nurses visit business sites that do not have a health development center to provide health consultations.

Health checkups

To detect diseases at an early stage and maintain good health, SMBC conducts not only the annual health checkups required by law, but also adult disease medical checkups for detection of chronic diseases, complete medical checkups and other checkups according to age in cooperation with the SMFG health insurance association.

Annual health checkups: Ages 18 to 27, 29, 30, 31, 33, 34

Extensive annual medical checkups: Ages 28, 32, 36, 37, 39, 41, 43

Adult disease medical checkups: Ages 38, 42, 44 to 60 (except years for complete medical checkups)

Complete medical checkups: Ages 35, 40, 45, 50, 55

Dental check-ups: Ages 38, 42, 46

Mental healthcare

To help employees monitor their own mental health, SMBC has made available a stress-checking system on the Group's intranet. In addition, the SMFG health insurance association provides telephone consultations and face-to-face consultations.

● Helping Employees Balance Work and Family Life

SMBC has the following programs to assist employees in leading fulfilling lives at work and at home.

System for rehiring former employees

SMBC has a system under which employees who have resigned due to marriage, childbirth, child raising or care of a parent can apply to be rehired within three years of their resignations.

Leave for child raising

SMFG allows employees to take leave for child raising until the child becomes one and half years old.

Shorter working hours

SMFG offers the possibility of shorter working hours to employees who need to drop children off at a daycare facility and pick them up at the end of the day. There are two types of shortened work schedules: one that allows employees to specify a six-hour working period each day, and another that allows employees to designate one day each week as a holiday.

Support for child care/healthcare

To reduce the economic burden on employees of child raising and other family requirements, SMBC offers, at a discount child care, baby-sitting, elderly parental care, health-related assistance and other services provided by employee benefit service providers.

Staff Profile

March 31	2003	2004	2005

Notes to Consolidated Financial Statements

Sumitomo Mitsui Financial Group, Inc. and Subsidiaries

Years ended March 31, 2005 and 2004

1. Basis of Presentation

Sumitomo Mitsui Financial Group, Inc. ("SMFG") was established on December 2, 2002 as a holding company for the SMFG group through a statutory share transfer (*kabushiki iten*) of all of the outstanding equity securities of the former Sumitomo Mitsui Banking Corporation ("former SMBC") in exchange for SMFG's newly issued securities. SMFG is a joint stock corporation with limited liability (*Kabushiki Kaisha*) incorporated under the Commercial Code of Japan. Upon formation of SMFG and completion of the statutory share transfer, the former SMBC became a direct wholly owned subsidiary of SMFG.

SMFG has prepared the accompanying consolidated financial statements in accordance with the provisions set forth in the Japanese Securities and Exchange Law and its related accounting regulations, and in conformity with accounting principles generally accepted in Japan ("Japanese GAAP"), which are different in certain respects as to application and disclosure requirements of International Financial Reporting Standards.

The accounts of overseas subsidiaries are based on their accounting records maintained in conformity with generally accepted accounting principles prevailing in the respective countries of domicile.

The accompanying consolidated financial statements have been restructured and translated into English (with some expanded descriptions and the inclusion of consolidated statements of stockholders' equity) from the consolidated financial statements of SMFG prepared in accordance with Japanese GAAP.

Some supplementary information included in the statutory Japanese language consolidated financial statements, but not required for fair presentation, is not presented in the accompanying consolidated financial statements.

Amounts less than one million yen have been omitted. As a result, the totals in Japanese yen shown in the financial statements do not necessarily agree with the sum of the individual amounts.

The translation of the Japanese yen amounts into U.S. dollars are included solely for the convenience of readers outside Japan, using the prevailing exchange rate at March 31, 2005, which was ¥107.32 to US\$1. The convenience translations should not be construed as representations that the Japanese yen amounts have been, could have been, or could in the future be, converted into U.S. dollars at that rate.

2. Significant Accounting Policies

(1) Consolidation and equity method

(a) Scope of consolidation

Japanese accounting standards on consolidated financial statements require a company to consolidate any subsidiaries of which the company substantially controls the operations, even if it is not a majority owned subsidiary. Control is defined as the power to govern the decision making body of an enterprise.

(i) Consolidated subsidiaries

Number of consolidated subsidiaries is as follows:

March 31	2005	2004
Consolidated subsidiaries	167	165

Principal subsidiaries:

Sumitomo Mitsui Banking Corporation ("SMBC")
 THE MINATO BANK, LTD. ("MINATO")
 Kansai Urban Banking Corporation
 Sumitomo Mitsui Banking Corporation Europe Limited
 Manufacturers Bank
 SMBC Leasing Company, Limited
 Sumitomo Mitsui Card Company, Limited ("SMCC")
 SMBC Capital Co., Ltd.
 SMBC Finance Service Co., Ltd.
 SMBC Friend Securities Co., Ltd.
 The Japan Research Institute, Limited
 SMBC Capital Markets, Inc.

Changes in consolidated subsidiaries in the fiscal year ended March 31, 2005 are as follows:

Twenty-one companies including SMBC Financial Business Planning Co., Ltd. were newly consolidated due to establishment.

At-loan Co., Ltd. was excluded from the scope of consolidation and treated as an affiliated company accounted for by the equity method because it became a consolidated subsidiary of Promise Co., Ltd.

Five companies including Minato Card Co., Ltd. were excluded from the scope of consolidation because they were no longer a subsidiary due to merger. Thirteen companies including SMLC Indus Co., Ltd. became unconsolidated subsidiaries that are not accounted for by the equity method because they became silent partnerships for lease transactions.

(ii) Unconsolidated subsidiaries

Principal company:

SBCS Co., Ltd.

One hundred and seventeen subsidiaries including S.B.L. Mercury Co., Ltd. are silent partnerships for lease transactions and their assets and profits/losses do not belong to them substantially. Therefore, they were excluded from the scope of consolidation pursuant to Article 5 Paragraph 1 Item 2 of Consolidated Financial Statements Regulation.

Total assets, ordinary income, net income and retained earnings of other unconsolidated subsidiaries have no material impact on the consolidated financial statements.

(b) Application of the equity method

Japanese accounting standards also require any unconsolidated subsidiaries and affiliates on which SMFG is able to exercise material influence over their financial and operating policies to be accounted for by the equity method.

(i) Unconsolidated subsidiaries accounted for by the equity method

Number of unconsolidated subsidiaries accounted for by the equity method is as follows:

March 31	2005	2004
Unconsolidated subsidiaries	4	4

Principal company:

SBCS Co., Ltd.

(ii) Affiliates accounted for by the equity method

Number of affiliates accounted for by the equity method is as follows:

March 31	2005	2004
Affiliates	49	44

Principal companies:

Promise Co., Ltd.
Daiwa Securities SMBC Co. Ltd.
Daiwa SB Investments Ltd.
Sumitomo Mitsui Asset Management Company, Limited
QUOQ Inc.

Changes in affiliates in the fiscal year ended March 31, 2005 are as follows:

Eight companies including Promise Co., Ltd. newly became affiliated companies accounted for by the equity method due to acquisition of shares.

Three companies including Sony Bank Incorporated were excluded from the scope of affiliated companies due to decrease in ratio of voting share ownership and other reasons.

(iii) Unconsolidated subsidiaries that are not accounted for by the equity method

One hundred and seventeen subsidiaries including S.B.L. Mercury Co., Ltd. are silent partnerships for lease transactions and their assets and profits/losses do not belong to them substantially. Therefore, they are not treated as affiliated companies accounted for by the equity method pursuant to Article 10 Paragraph 1 Item 2 of Consolidated Financial Statements Regulation.

(iv) Affiliates that are not accounted for by the equity method

Principal company:

Daiwa SB Investments (USA) Ltd.

Net income and retained earnings of unconsolidated subsidiaries and affiliates that are not accounted for by the equity method have no material impact on the consolidated financial statements.

(c) The balance sheet dates of consolidated subsidiaries

(i) The balance sheet dates of the consolidated subsidiaries are as follows:

March 31	2005	2004
September 30	5	5
October 31	1	1
December 31	70	65
January 31	2	2
March 31	89	92

A consolidated domestic subsidiary changed its balance sheet date from December 31 to March 31 from the fiscal year ended March 31, 2004. Therefore, SMFG's consolidated financial statements for the fiscal year ended March 31, 2004 include the subsidiary's profit or loss for the period from January 1, 2003 to March 31, 2004. However, this change had no material impact on the consolidated financial statements.

(ii) As for the companies whose balance sheet dates are September 30 and October 31, the accounts were provisionally

closed as of March 31 and January 31 for the purpose of consolidation, respectively. The other companies were consolidated on the basis of their respective balance sheet dates.

Appropriate adjustments were made for material transactions during the periods from their respective balance sheet dates to the consolidated closing dates.

(2) Statements of cash flows

For the purposes of the consolidated statements of cash flows, cash and cash equivalents represent cash and due from banks.

(3) Trading assets/liabilities and trading profits/losses

Transactions for trading purposes (seeking gains arising from short-term changes in interest rates, currency exchange rates, or market prices of securities and other market related indices or from variation among markets) are included in "Trading assets" or "Trading liabilities" on the consolidated balance sheet on a trade date basis. Profits and losses on trading-purpose transactions are recognized on a trade date basis, and recorded as "Trading profits" and "Trading losses."

Securities and monetary claims purchased for trading purposes are stated at the fiscal year-end market value, and financial derivatives such as swaps, futures and options are stated at amounts that would be settled if the transactions were terminated at the consolidated balance sheet date.

"Trading profits" and "Trading losses" include interest received or paid during the fiscal year. The year-on-year valuation differences of securities and monetary claims are also recorded in the above-mentioned accounts. As for the derivatives, assuming that the settlement will be made in cash, the year-on-year valuation differences are also recorded in the above-mentioned accounts.

SMBC accounts for foreign currency translation differences arising from currency swaps for trading purposes as "Trading assets" or "Trading liabilities" on a gross basis, pursuant to the "Treatment of Accounting and Auditing Concerning Accounting for Foreign Currency Transactions in Banking Industry" (JICPA Industry Audit Committee Report No. 25).

(4) Securities

As for securities other than trading purposes, debt securities that consolidated subsidiaries have the positive intent and ability to hold to maturity are classified as held-to-maturity securities and are carried at amortized cost (straight-line method) using the moving-average method.

Investments in unconsolidated subsidiaries and affiliates that are not accounted for by the equity method are carried at cost using the moving-average method.

Securities other than trading purpose securities, held-to-maturity securities and investments in unconsolidated subsidiaries and affiliates are classified as "other securities" (available-for-sale securities). Stocks in other securities that have market prices are carried at their average market prices during the final month of the fiscal year, and bonds and others that have market prices are carried at their fiscal year-end market prices (cost of securities sold is calculated using primarily the moving-average method). Other securities with no available market prices are carried at cost or amortized cost using the moving-average method. Net unrealized gains (losses) on other securities, net of

income taxes, are included in "Stockholders' equity," after deducting the amount that is reflected in the fiscal year's earnings because of application of fair value hedge accounting.

Securities included in money held in trust are carried in the same method as for securities mentioned above.

(5) Derivative transactions

Derivative transactions, excluding those classified as trading derivatives, are carried at fair value, though some consolidated overseas subsidiaries account for derivative transactions in accordance with their local accounting standards.

(6) Hedge accounting

(a) Hedging against interest rate changes

As for the hedge accounting method applied to hedging transactions for interest rate risk arising from financial assets and liabilities, SMBC applies deferred hedge accounting or fair value hedge accounting.

SMBC applies the basic provisions of "Treatment for Accounting and Auditing of Application of Accounting Standard for Financial Instruments in Banking Industry" (JICPA Industry Audit Committee Report No. 24) to hedges on groups of large-volume, small-value monetary claims and debts with similar risk characteristics. SMBC assesses the effectiveness of such hedges in offsetting fluctuation in fair value arising from changes in interest rates, by classifying the hedged items (such as deposits and loans) and the hedging instruments (such as interest rate swaps) by their maturity. As for cash flow hedges, SMBC assesses the effectiveness of such hedges in fixing cash flows by verifying the correlation between the hedged items and the hedging instruments. SMBC also assesses the effectiveness of individual hedges.

As for the accounting method, SMBC applies fair value hedge accounting to hedging transactions for reducing the exposure to market volatility of bonds classified as other securities that are held for the purpose of Asset and Liability Management in order to more properly reflect the effectiveness of hedging transactions in the financial statements.

A portion of deferred hedge losses and gains, which was previously under the macro hedge, is no longer subject to hedge accounting. The deferred hedge losses and gains related to hedging instruments to which SMBC discontinued the application of hedge accounting or applied fair value hedge accounting as a result of the change mentioned above are recognized as "Interest income" or "Interest expenses" over a 12-year period (maximum) from the fiscal year ended March 31, 2004 according to their maturity. Gross amounts of deferred hedge losses and gains on "macro hedge" at March 31, 2005 were ¥197,872 million (\$1,844 million) and ¥167,948 million (\$1,565 million), respectively.

(b) Hedging against currency fluctuations

SMBC applies deferred hedge accounting stipulated in JICPA Industry Audit Committee Report No. 25 to currency swap and foreign exchange swap transactions executed for the purpose of lending or borrowing funds in different currencies.

Pursuant to JICPA Industry Audit Committee Report No. 25, SMBC assesses the effectiveness of currency swap and foreign exchange swap transactions executed for the purpose of

offsetting the risk of changes in currency exchange rates by verifying that there are foreign-currency monetary claims and debts corresponding to the foreign-currency positions.

In order to hedge risk arising from volatility of exchange rates for stocks of subsidiaries and affiliates and other securities (excluding bonds) denominated in foreign currencies, SMBC applies deferred hedge accounting or fair value hedge accounting, on the conditions that the hedged securities are designated in advance and that sufficient on-balance (actual) or off-balance (forward) liability exposure exists to cover the cost of the hedged securities denominated in the same foreign currencies.

(c) Transactions between consolidated subsidiaries

As for derivative transactions between consolidated subsidiaries or internal transactions between trading accounts and other accounts (or among internal sections), SMBC manages the interest rate swaps and currency swaps that are designated as hedging instruments in accordance with the strict criteria for external transactions stipulated in JICPA Industry Audit Committee Report No. 24 and No. 25. Therefore, SMBC accounts for the gains or losses that arise from interest rate swaps and currency swaps in its earnings or defers them, rather than eliminating them.

Certain other consolidated subsidiaries apply the deferred hedge accounting or the short-cut method (exceptional treatment for interest rate swaps). A consolidated domestic subsidiary (a leasing company) partly applies the accounting method that is permitted by "Temporary Treatment for Accounting and Auditing of Application of Accounting Standard for Financial Instruments in Leasing Industry" (JICPA Industry Audit Committee Report No. 19).

(7) Non-accrual loans

Loans are generally placed on non-accrual status when their borrowers are classified as Bankrupt, Effectively Bankrupt or Potentially Bankrupt under the self-assessment rule (see (11) Reserve for possible loan losses).

(8) Bills discounted

Bills discounted are accounted for as financial transactions in accordance with JICPA Industry Audit Committee Report No. 24. SMFG's banking subsidiaries have rights to sell or pledge bank acceptance bought, commercial bills discounted, documentary bills and foreign exchanges bought without restrictions. The total face value at March 31, 2005 and 2004 was ¥966,552 million (\$9,006 million) and ¥1,023,057 million, respectively.

(9) Premises and equipment

Premises and equipment owned by SMFG and SMBC are generally stated at cost less accumulated depreciation. Depreciation of premises is calculated using the straight-line method over the estimated useful lives of the respective assets. They calculated the depreciation cost for the fiscal year by proportionally allocating the estimated annual cost to the fiscal year. The estimated useful lives of major items are as follows:

Buildings: 7 to 50 years

Equipment: 2 to 20 years

Other consolidated subsidiaries depreciate premises and equipment, and lease assets primarily using the straight-line method over the estimated useful lives of the respective assets and the straight-line method over the lease term based on the residual value of assets at the end of the lease term, respectively.

(10) Software costs

Capitalized software for internal use owned by SMFG and its consolidated domestic subsidiaries is depreciated using the straight-line method over its estimated useful life (basically five years).

(11) Reserve for possible loan losses

Reserve for possible loan losses of major consolidated subsidiaries is provided as detailed below in accordance with the internal standards for write-offs and provisions.

For claims on borrowers that have entered into bankruptcy, special liquidation proceedings or similar legal proceedings (“bankrupt borrowers”) or borrowers that are not legally or formally insolvent but are regarded as substantially in the same situation (“effectively bankrupt borrowers”), a reserve is provided based on the amount of claims, after the write-off stated below, net of the expected amount of recoveries from collateral and guarantees.

For claims on borrowers that are not currently bankrupt but are perceived to have a high risk of falling into bankruptcy (“potentially bankrupt borrowers”), a reserve is provided in the amount deemed necessary based on an overall solvency assessment of the claims, net of the expected amount of recoveries from collateral and guarantees.

Discounted Cash Flows (DCF) method is used for claims on borrowers whose cash flows from collection of principals and interest can be rationally estimated and SMBC applies it to claims on large potentially bankrupt borrowers and claims on large borrowers requiring close monitoring that have been classified as “Past due loans (3 months or more)” or “Restructured loans” whose total loans from SMBC exceed a certain amount. SMBC establishes a reserve for possible loan losses using the DCF method for such claims in the amount of the difference between the present value of principal and interest (calculated using the rationally estimated cash flows discounted at the initial contractual interest rate) and the book value. In the fiscal year ended March 31, 2004, the DCF method was not applied to the claims on large potentially bankrupt borrowers.

For other claims, a reserve is provided based on the historical loan-loss ratio.

For claims originated in specific overseas countries, an additional reserve is provided in the amount deemed necessary based on the assessment of political and economic conditions.

Branches and credit supervision departments assess all claims in accordance with the internal rules for self-assessment of assets, and the Credit Review Department, independent from these operating sections, audits their assessment. The reserves are provided based on the results of these assessments.

Reserve for possible loan losses of other consolidated subsidiaries for general claims is provided in the amount deemed necessary based on the historical loan-loss ratios, and for

doubtful claims in the amount deemed uncollectible based on assessment of each claim.

For collateralized or guaranteed claims on bankrupt borrowers and effectively bankrupt borrowers, the amount exceeding the estimated value of collateral and guarantees is deemed to be uncollectible and written off against the total outstanding amount of the claims. The amount of write-off was ¥1,782,244 million (\$16,607 million) and ¥1,236,148 million at March 31, 2005 and 2004, respectively.

(12) Reserve for possible losses on loans sold

Reserve for possible losses on loans sold is provided for contingent losses arising from decline of market value of underlying collateral for loans sold to the Cooperative Credit Purchasing Company, Limited.

(13) Reserve for expenses related to EXPO 2005 Japan SMBC accounts for the exhibition expenses related to “The 2005 World Exposition, Aichi, Japan” as “Reserve for expenses related to EXPO 2005 Japan,” which includes the reserve that is stipulated in Article 57-2 of the Specific Taxation Measures Law.

(14) Reserve for employee bonuses

Reserve for employee bonuses is provided for payment of bonuses to employees, in the amount of estimated bonuses, which are attributable to the respective fiscal year.

(15) Reserve for employee retirement benefits

Reserve for employee retirement benefits is provided for payment of retirement benefits to employees, in the amount deemed accrued at the fiscal year-end, based on the projected retirement benefit obligation and the fair value of plan assets at the fiscal year-end.

Unrecognized prior service cost is amortized using the straight-line method, primarily over 10 years within the employees’ average remaining service period at incurrence.

Unrecognized net actuarial gain (loss) is amortized using the straight-line method, primarily over 10 years within the employees’ average remaining service period, commencing from the next fiscal year of incurrence.

Unrecognized net transition obligation from the initial application of the new accounting standard for employee retirement benefits is amortized primarily using the straight-line method over five years.

A part of “Accounting Standards for Retirement Benefits” (issued by the Business Accounting Deliberation Council on June 16, 1998) was revised on March 16, 2005. As a result, the amount by which the plan assets exceed the projected benefit obligation (“unrecognized plan assets”) due to excess of the actual return on the plan assets over the expected return on the plan assets, or occurrence of prior service costs due to lowering of pension benefit levels was permitted to be recognized as assets and gains. SMBC implemented an early adoption of the revised standards from the fiscal year ended March 31, 2005 and treated the unrecognized plan assets as actuarial differences. This accounting change had no impact on profit and loss accounts.

(16) Other reserves

Reserves required by special laws are provided as follows:

(a) Reserve for contingent liabilities from financial futures transactions is provided in accordance with Article 82 of the Financial Futures Transaction Law, in order to cover losses arising from financial futures transactions.

(b) Reserve for contingent liabilities from securities transactions is provided in accordance with Article 51 of the Securities and Exchange Law in provision for losses arising from securities transactions.

(17) Translation of foreign currency assets and liabilities

SMBC's assets and liabilities denominated in foreign currencies and overseas branches' accounts are translated into Japanese yen mainly at the exchange rate prevailing at the consolidated balance sheet date, with the exception of stocks of subsidiaries and affiliates translated at rates prevailing at the time of acquisition.

As for the accounting method of foreign currency transactions, SMBC and other domestic consolidated banking subsidiaries apply the hedge accounting pursuant to the basic provisions of JICPA Industry Audit Committee Report No. 25.

Currency swaps and foreign exchange swaps for the purpose of lending or borrowing funds in different currencies are valued at fair value and their fair-valued assets and liabilities are recognized on the consolidated balance sheet.

Foreign currency translation differences arising from currency swaps and forward foreign exchange transactions are accounted for as "Other assets" or "Other liabilities" on a gross basis pursuant to JICPA Industry Audit Committee Report No. 25.

Other consolidated subsidiaries' assets and liabilities denominated in foreign currencies are translated into Japanese yen at the exchange rate prevailing at their respective balance sheet dates.

(18) Lease transactions

Financing leases of SMFG and its consolidated domestic subsidiaries, excluding those in which the ownership of the property is transferred to the lessee, are accounted for in the same method as operating leases.

Standards for recognizing lease-related income on lease

transactions and income/expenses on installment sales are as follows:

(a) Recognition of lease-related income on lease transactions
Primarily, lease-related income is recognized on a straight-line basis over the full term of the lease, based on the contractual amount of lease fees per month.

(b) Recognition of income and expenses on installment sales
Primarily, installment-sales-related income and installment-sales-related expenses are recognized on a due-date basis over the full term of the installment sales.

(19) Valuation of consolidated subsidiaries' assets and liabilities

Assets and liabilities of consolidated subsidiaries including the portion attributable to the minority shareholders are valued for consolidation at fair value when SMFG acquires control.

(20) Amortization of goodwill

Goodwill on Sumitomo Mitsui Card Company, Limited and SMBC Leasing Company, Limited is amortized using the straight-line method over five years and goodwill on other companies is charged or credited to income directly when incurred.

(21) Appropriation of retained earnings

Payments of dividends are accounted for as appropriations of retained earnings in the fiscal year when such appropriations are approved at the general shareholders' meeting or, in the case of interim dividends, at the meeting of the Board of Directors.

Cash dividends charged to retained earnings are those actually paid during the fiscal year and consist of year-end dividends applicable to the preceding year and interim dividends for the current year.

(22) Amounts per share

Net income (loss) per share is calculated by deducting dividends for preferred stock from net income (loss), divided by the weighted average number of shares of common stock, excluding treasury stock outstanding during each fiscal year.

Diluted net income per share reflects the potential dilution that could occur if preferred stocks and other contracts to issue common stocks were exercised.

Declared dividends represent the cash dividends declared applicable to respective fiscal years, including dividends to be paid after the end of the fiscal year.

3. Trading Assets

Trading assets at March 31, 2005 and 2004 consisted of the following:

March 31	Millions of yen		Millions of
	2005	2004	U.S. dollars
Trading securities	¥ 269,678	¥ 80,766	\$ 2,513
Derivatives of trading securities	812	139	8
Derivatives of securities related to trading transactions	2,033	595	19
Trading-related financial derivatives	2,440,254	2,135,318	22,738
Other trading assets	1,056,293	1,089,960	9,842
	¥3,769,073	¥3,306,780	\$35,120

4. Securities

Securities at March 31, 2005 and 2004 consisted of the following:

March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Japanese government bonds*1.....	¥13,636,577	¥14,448,940	\$127,065
Japanese local government bonds.....	486,884	506,263	4,537
Japanese corporate bonds.....	3,243,443	2,651,971	30,222
Japanese stocks*1, 2.....	3,516,280	3,637,892	32,764
Other*2.....	3,350,515	5,804,833	31,220
	¥24,233,701	¥27,049,901	\$225,808

*1 Unsecured loaned securities for which borrowers have the right to sell or pledge in the amount of ¥8,774 million (\$82 million) are included in Japanese government bonds at March 31, 2005, and such securities in the amount of ¥15,849 million are included in Japanese government bonds and Japanese stocks at March 31, 2004. Loaned securities for which borrowers only have the right to pledge and not to sell in the amount of ¥99 million are included in Japanese government bonds at March 31, 2004.

As for the unsecured borrowed securities for which SMBC has the right to sell or pledge and the securities which SMBC purchased under resale agreements, that are permitted to be sold or pledged without restrictions, ¥467,647 million (\$4,358 million) of securities are pledged, and ¥192,791 million (\$1,796 million) of securities are held in hand at March 31, 2005. The respective amounts at March 31, 2004 were ¥1,022,170 million and ¥165,047 million.

*2 Japanese stocks and other include investments in unconsolidated subsidiaries and affiliates of ¥395,984 million (\$3,690 million) and ¥208,201 million at March 31, 2005 and 2004, respectively.

5. Loans and Bills Discounted

(1) Loans and bills discounted at March 31, 2005 and 2004 consisted of the following:

March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Bills discounted.....	¥ 525,763	¥ 644,002	\$ 4,899
Loans on notes.....	4,847,367	6,296,717	45,168
Loans on deeds.....	42,211,430	40,919,508	393,323
Overdrafts.....	7,215,244	7,522,572	67,231
	¥54,799,805	¥55,382,800	\$510,621

(2) Loans and bills discounted includes the following "Risk-monitored loans" stipulated in the Banking Law:

March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Risk-monitored loans:			
Bankrupt loans*1.....	¥ 68,337	¥ 96,413	\$ 637
Non-accrual loans*2.....	1,398,964	1,767,862	13,035
Past due loans (3 months or more)*3.....	29,441	51,538	274
Restructured loans*4.....	730,701	1,382,168	6,809
	¥2,227,445	¥3,297,981	\$20,755

*1 "Bankrupt loans" are loans, after write-off, to legally bankrupt borrowers as defined in Article 96-1-3 and 96-1-4 of the Enforcement Ordinance No. 97 of the Japanese Corporate Tax Law (issued in 1965) and on which accrued interest income is not recognized as there is substantial doubt about the ultimate collectability of either principal or interest because they are past due for a considerable period of time or for other reasons.

*2 "Non-accrual loans" are loans on which accrued interest income is not recognized, excluding "Bankrupt loans" and loans on which interest payments are deferred in order to support the borrowers' recovery from financial difficulties.

*3 "Past due loans (3 months or more)" are loans on which the principal or interest is past due for three months or more, excluding "Bankrupt loans" and "Non-accrual loans."

*4 "Restructured loans" are loans on which terms and conditions have been amended in favor of the borrowers (e.g. reduction of the original interest rate, deferral of interest payments, extension of principal repayments or debt forgiveness) in order to support the borrowers' recovery from financial difficulties, excluding "Bankrupt loans," "Non-accrual loans" and "Past due loans (3 months or more)."

The amounts above include the trusted amount with the Resolution and Collection Corporation of ¥41 million (\$0 million) and ¥7,522 million at March 31, 2005 and 2004, respectively, which is treated as off-balancing.

(3) Commitment line contracts on overdrafts and loans are agreements to lend to customers, up to a prescribed amount, as long as there is no violation of any condition established in the contracts. The amount of unused commitments at March 31, 2005 and 2004 was ¥37,440,642 million (\$348,869 million) and ¥32,634,541 million, respectively, and the amount of unused commitments whose original contract terms are within one year or unconditionally cancelable at any time at March 31, 2005 and 2004 was ¥33,204,890 million (\$309,401 million) and ¥29,806,280 million, respectively.

Since many of these commitments are expected to expire without being drawn upon, the total amount of unused commitments does not necessarily represent actual future cash flow requirements. Many of these commitments include clauses under which SMBC and other consolidated subsidiaries can reject an application from customers or reduce the contract amounts in the event that economic conditions change, SMBC and other consolidated subsidiaries need to secure claims, or other events occur. In addition, SMBC and other consolidated subsidiaries may request the customers to pledge collateral such as premises and securities at the time of the contracts, and take necessary measures such as monitoring customers' financial positions, revising contracts when need arises and securing claims after the contracts are made.

6. Other Assets

Other assets at March 31, 2005 and 2004 consisted of the following:

March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Prepaid expenses.....	¥ 37,677	¥ 37,943	\$ 351
Accrued income.....	264,704	238,454	2,467
Deferred assets.....	597,825	518,913	5,570
Financial derivatives*.....	792,007	1,010,355	7,380
Other.....	1,418,239	1,228,515	13,215
	¥3,110,454	¥3,034,182	\$28,983

* Net amount of deferred unrealized losses on hedging instruments to which deferred hedge accounting is applied is reported as deferred losses on hedge and is included in "Financial derivatives." Gross deferred unrealized losses and gains on hedging instruments before netting at March 31, 2005 were ¥527,374 million (\$4,914 million) and ¥429,751 million (\$4,004 million), respectively. The respective amounts at March 31, 2004 were ¥663,546 million and ¥564,122 million.

7. Premises and Equipment

Premises and equipment at March 31, 2005 and 2004 consisted of the following:

March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Land*.....	¥ 411,545	¥ 513,874	\$ 3,835
Buildings.....	487,686	534,250	4,544
Equipment and others.....	465,828	523,115	4,341
Total.....	1,365,060	1,571,240	12,720
Accumulated depreciation.....	(529,007)	(587,180)	(4,930)
	¥ 836,053	¥ 984,060	\$ 7,790

* Includes land revaluation excess referred to in Note 16.

8. Lease Assets

Lease assets at March 31, 2005 and 2004 were as follows:

March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Equipment and others.....	¥2,563,586	¥2,520,092	\$23,887
Accumulated depreciation.....	(1,556,570)	(1,528,311)	(14,504)
	¥1,007,015	¥ 991,781	\$ 9,383

9. Assets Pledged as Collateral

Assets pledged as collateral at March 31, 2005 and 2004 consisted of the following:

March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Assets pledged as collateral			
Cash and due from banks and Deposits with banks	¥ 75,769	¥ 112,778	\$ 706
Trading assets	630,553	540,579	5,875
Securities	6,492,047	10,723,663	60,492
Loans and bills discounted	1,524,286	1,375,426	14,203
Other assets	1,080	1,056	10
Premises and equipment	—	524	—
Liabilities corresponding to assets pledged as collateral			
Deposits	12,745	15,276	119
Call money and bills sold	3,976,469	5,175,669	37,052
Payables under repurchase agreements	393,895	1,055,508	3,670
Payables under securities lending transactions	3,283,601	5,700,206	30,596
Trading liabilities	143,819	203,599	1,340
Borrowed money	7,566	4,451	70
Other liabilities	14,072	1,122	131
Acceptances and guarantees	144,023	141,835	1,342

In addition to the assets presented above, the following assets were pledged as collateral for exchange settlements, initial margins of futures markets and certain other purposes at March 31, 2005 and 2004:

March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Cash and due from banks and Deposits with banks	¥ 5,613	¥ 42,537	\$ 52
Trading assets	126,821	3,908	1,182
Securities	6,659,318	6,801,910	62,051
Loans and bills discounted	27,500	55,000	256

Premises and equipment included surety deposits and intangibles of ¥100,014 million (\$932 million) and ¥112,628 million at March 31, 2005 and 2004, respectively. Other assets included initial margins of futures markets of ¥9,582 million (\$89 million) and ¥8,130 million at March 31, 2005 and 2004, respectively.

10. Deposits

Deposits at March 31, 2005 and 2004 consisted of the following:

March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Current deposits	¥ 6,172,889	¥ 5,382,068	\$ 57,519
Ordinary deposits	31,159,513	29,299,240	290,342
Savings deposits	1,090,677	1,206,013	10,163
Deposits at notice	4,319,669	3,800,841	40,250
Time deposits	21,157,264	20,870,829	197,142
Negotiable certificates of deposit	2,713,270	3,519,464	25,282
Other deposits	4,574,846	4,774,432	42,628
	¥71,188,131	¥68,852,890	\$663,326

11. Trading Liabilities

Trading liabilities at March 31, 2005 and 2004 consisted of the following:

March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Trading securities sold for short sales	¥ 69,419	¥ 32,658	\$ 647
Derivatives of trading securities	524	242	5
Derivatives of securities related to trading transactions	2,061	940	19
Trading-related financial derivatives	2,038,468	1,839,404	18,994
	¥2,110,473	¥1,873,245	\$19,665

12. Borrowed Money

Borrowed money at March 31, 2005 and 2004 consisted of the following:

March 31	Millions of yen		Millions of U.S. dollars	Average interest rate* ¹	Due
	2005	2004	2005		
Bills rediscounted	¥ 11,576	¥ —	\$ 108	2.97%	Apr. 2005 — Aug. 2005
Other borrowings* ²	2,131,297	2,360,474	19,859	1.47	Jan. 2005 — Perpetual
	¥2,142,873	¥2,360,474	\$19,967	1.48%	

*¹ Average interest rate represents the weighted average interest rate based on the balances and rates at respective year-end of SMBC and other consolidated subsidiaries.

*² Includes subordinated debt obligation of ¥734,097 million (\$6,840 million) and ¥770,003 million at March 31, 2005 and 2004, respectively.

The repayment schedule within five years on borrowed money at March 31, 2005 was as follows:

March 31	Millions of yen	Millions of U.S. dollars
	2005	2005
Within 1 year	¥703,518	\$6,555
After 1 year through 2 years	224,614	2,093
After 2 years through 3 years	151,415	1,411
After 3 years through 4 years	119,289	1,112
After 4 years through 5 years	120,220	1,120

13. Bonds

Bonds at March 31, 2005 and 2004 consisted of the following:

March 31 Issuer	Description	Millions of yen*		Millions of U.S. dollars	Interest rate (%)	Due
		2005	2004	2005		
SMBC:						
	Straight bonds, payable in Yen	¥2,198,996 [491,666]	¥2,070,089 [366,976]	\$20,490	0.51–2.60	Apr. 2005–Sep. 2024
	Straight bonds, payable in Euro Yen	9,500	5,000	89	2.50–3.00	Mar. 2012–Sep. 2024
	Straight bonds, payable in U.S. dollars	75,124 (\$700,000 thousand)	73,983 (\$700,000 thousand)	700	4.32–6.02	May 2005–Sep. 2005
	Subordinated bonds, payable in Yen	400,000	350,000	3,727	1.71–2.62	Jun. 2010–Oct. 2014

		¥4,340,497	¥4,002,965	\$40,444		

* Figures in () are the balances in the original currency of the foreign currency denominated bonds, and figures in [] are the amounts to be redeemed within one year.

The redemption schedule within five years on bonds at March 31, 2005 was as follows:

March 31	Millions of yen	Millions of U.S. dollars
	2005	2005
Within 1 year	¥674,536	\$6,285
After 1 year through 2 years	409,086	3,812
After 2 years through 3 years	421,960	3,932
After 3 years through 4 years	422,335	3,935
After 4 years through 5 years	554,863	5,170

14. Other Liabilities

Other liabilities at March 31, 2005 and 2004 consisted of the following:

March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Accrued expenses	¥ 128,568	¥ 111,725	\$ 1,198
Unearned income	178,394	172,066	1,663
Income taxes payable	33,190	27,490	309
Financial derivatives	689,318	897,731	6,423
Other	1,334,314	2,382,804	12,433
	¥2,363,786	¥3,591,818	\$22,026

15. Other Reserves

Other reserves at March 31, 2005 and 2004 consisted of the following:

March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Reserve for contingent liabilities from financial futures transactions	¥ 18	¥ 18	\$ 0
Reserve for contingent liabilities from securities transactions	1,075	843	10
	¥1,093	¥862	\$10

16. Land Revaluation Excess

SMBC revaluated its own land for business activities in accordance with the "Law Concerning Land Revaluation" (the "Law") effective March 31, 1998 and the law concerning amendment of the Law effective March 31, 2001. The income taxes corresponding to the net unrealized gains are deferred and reported in "Liabilities" as "Deferred tax liabilities for land revaluation," and the net unrealized gains, net of deferred taxes, are reported as "Land revaluation excess" in "Stockholders' equity."

Certain other consolidated subsidiaries revaluated their own land for business activities in accordance with the Law. The income taxes corresponding to the net unrealized gains (losses) are deferred and reported in "Liabilities" or "Assets" as "Deferred tax liabilities for land revaluation" or "Deferred tax assets for land revaluation" and the net unrealized gains (losses), net of deferred taxes, are reported as "Land revaluation excess" in "Stockholders' equity."

Date of the revaluation

SMBC:

March 31, 1998 and March 31, 2002

Certain other consolidated subsidiaries:

March 31, 1999 and March 31, 2002.

Method of revaluation (provided in Article 3-3 of the Law)

SMBC:

Fair values were determined by applying appropriate adjustments for land shape and timing of appraisal to the values stipulated in Article 2-3, 2-4 or 2-5 of the Enforcement Ordinance of the Law concerning Land Revaluation (the Enforcement Ordinance No. 119) effective March 31, 1998.

Certain other consolidated subsidiaries:

Fair values were determined based on the values stipulated in Article 2-3 and 2-5 of the Enforcement Ordinance No. 119.

Total fair value of land used for business activities at March 31, 2005 and 2004, whose book value had been revaluated pursuant to Article 10 of the Law, was ¥21,022 million (\$196 million) and ¥16,497 million lower than the book value, respectively.

17. Minority Interests

SB Treasury Company L. L. C., a subsidiary of SMBC, issued noncumulative perpetual preferred securities, totaling \$1,800 million in February 1998. SB Equity Securities (Cayman), Limited, a subsidiary of SMBC, issued noncumulative perpetual preferred securities, totaling ¥340,000 million in February and March 1999. Sakura Preferred

Capital (Cayman) Limited, a subsidiary of SMBC, issued noncumulative perpetual preferred securities, totaling ¥283,750 million in December 1998 and March 1999. These subsidiaries are consolidated and the preferred securities are accounted for as minority interests.

18. Capital Stock

Capital stock consists of common stock and preferred stock. Common stock and preferred stock at March 31, 2005 and 2004 were as follows:

March 31	Number of shares			
	2005		2004	
	Authorized	Issued and outstanding	Authorized	Issued and outstanding
Common stock.....	15,000,000	6,273,792.49	15,000,000	5,796,010.53
Preferred stock (Type 1).....	35,000	35,000	67,000	67,000
Preferred stock (Type 2).....	100,000	100,000	100,000	100,000
Preferred stock (Type 3).....	695,000	695,000	800,000	800,000
Preferred stock (Type 4).....	242,087	157,187	249,999	165,099
Preferred stock (Type 5).....	250,000	—	250,000	—
Preferred stock (Type 6).....	300,000	70,001	300,000	—
Total.....	16,622,087	7,330,980.49	16,766,999	6,928,109.53

All of the preferred stock is noncumulative and nonparticipating for dividend payments, and shareholders of the preferred stock are not entitled to vote at a general meeting of shareholders except when the proposal to pay the prescribed dividends to shareholders is not submitted to the general meeting of shareholders or is rejected at the general meeting of shareholders.

Annual dividends per share of preferred stock (Type 1, Type 2, Type 3, First to Twelfth series Type 4, Thirteenth series Type 4 and First series Type 6) are paid to shareholders by ¥10,500, ¥28,500, ¥13,700, ¥135,000, ¥67,500 and ¥88,500, respectively.

In cases of liquidation distribution, shareholders of preferred stock (Type 1, Type 2, Type 3, Type 4 and First series Type 6) will receive ¥3,000,000, ¥3,000,000, ¥1,000,000, ¥3,000,000 and ¥3,000,000 per share, respectively, and will not have the right to participate in any further liquidation distribution.

SMFG may, at any time, purchase and retire preferred stocks out of earnings available for distribution to the shareholders.

Shareholders of preferred stock may request SMFG to convert their preferred stocks into common stocks. The period during which the conversion may be requested (the “conversion period”) and the terms and conditions of conversion with respect to preferred stock (Type 1, Type 2 and Type 3) were determined by the resolution made in accordance with the provisions of Article 365 of the Commercial Code, of a shareholders meeting of SMBC. The conditions of conversion of preferred stock (First to Twelfth series Type 4 and Thirteenth series Type 4) were determined by the resolution of the board of directors relating to the issuance of the relevant preferred stocks. The conversion period and conversion price* of each type of preferred stock are as follows:

Preferred stock (Type 1):

December 2, 2002 to February 26, 2009

¥947,100

Preferred stock (Type 2):

August 1, 2005 to February 26, 2009

Initial conversion price will be determined by a formula based on the average of the daily closing prices per share of common stock in regular transactions at the Tokyo Stock Exchange on each of the 30 consecutive trading days (excluding any day on which the closing price is not available) commencing on the 45th trading day prior to August 1, 2005. (Initial conversion floor price: ¥947,100)

Preferred stock (Type 3):

December 2, 2002 to September 30, 2009

¥644,200

Preferred stock (First to Twelfth series Type 4):

February 8, 2003 to February 7, 2028

¥322,300

Preferred stock (Thirteenth series Type 4):

April 14, 2003 to July 12, 2005

¥312,000

* Conversion prices are reset and adjusted pursuant to the appointed rules governing conversion of the preferred stocks.

Any preferred stock (Type 1, Type 2, Type 3 and Type 4) with respect to which conversion has not been requested during the conversion period shall be mandatorily converted, as of the date immediately following the last day of the conversion period (the “mandatory conversion date”), into such number of common stocks as is obtained by dividing the corresponding amount set forth below by the average of the daily closing prices per share of common stock in regular transactions at the Tokyo Stock Exchange on each of the 30 consecutive trading days (excluding any day on which the closing price is not available) commencing on the 45th trading day preceding the mandatory conversion date. If such average price is less than ¥500,000, in the case of preferred stock (Type 1, Type 2 and Type 4), or less than ¥258,330, in the case of preferred stock (Type 3), then the preferred stock shall be converted into such number of common stocks as is obtained by dividing the corresponding amount set forth below by the relevant amount described above:

Preferred stock (Type 1): ¥3,000,000 per share

Preferred stock (Type 2): ¥3,000,000 per share

Preferred stock (Type 3): ¥1,000,000 per share

Preferred stock (Type 4): ¥3,000,000 per share

Shares of common stock held by SMFG and consolidated subsidiaries, and equity method unconsolidated subsidiaries and affiliates are as follows:

March 31	Number of shares (thousand)	
	2005	2004
Common stock	404	14

Following stock option are granted to directors and employees at March 31, 2005:

March 31	2005
Number of shares granted	1,620 shares
Type of stock.....	Common stock
Issue price	¥673,000 per share
Amount capitalized	
when shares are issued	¥337,000 per share
Exercise period	From June 28, 2004 to June 27, 2012

The stock option had been issued by former SMBC pursuant to the resolution of the ordinary general meeting of shareholders held on June 27, 2002. SMFG succeeded the obligations related to the stock options at the time of its establishment pursuant to the resolution of the preferred shareholders' meetings held on September 26, 2002 and the extraordinary shareholders' meeting held on September 27, 2002.

19. Fees and Commissions

Fees and commissions for the years ended March 31, 2005 and 2004 consisted of the following:

Year ended March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Fees and commissions (income):			
Deposits and loans	¥ 45,105	¥ 34,587	\$ 420

Other.....	33,133	81,653	309
	¥1,258,478	¥1,123,401	\$11,726

25. Income Taxes

- (1) Significant components of deferred tax assets and liabilities at March 31, 2005 and 2004 were as follows:

March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Deferred tax assets:			
Net operating loss carryforwards	¥ 926,210	¥1,030,860	\$ 8,630
Write-off of loans	545,008	286,808	5,078
Reserve for possible loan losses	470,016	549,411	4,380
Write-off of securities	401,414	351,143	3,740
Reserve for employee retirement benefits.....	92,852	95,722	865
Depreciation	8,389	8,642	78
Other	109,942	114,996	1,025
Subtotal	2,553,833	2,437,585	23,796
Valuation allowance	(598,451)	(441,060)	(5,576)
Total deferred tax assets	1,955,381	1,996,524	18,220
Deferred tax liabilities:			
Net unrealized gains on other securities	(281,966)	(225,246)	(2,627)
Gains on securities contributed to employee retirement benefits trust ...	(53,001)	(26,808)	(494)
Leveraged lease.....	(49,651)	(50,522)	(463)
Undistributed earnings of subsidiaries.....	(9,108)	(11,818)	(85)
Other	(8,754)	(15,724)	(81)
Total deferred tax liabilities	(402,482)	(330,119)	(3,750)
Net deferred tax assets	¥1,552,898	¥1,666,405	\$14,470

- (2) A reconciliation of the effective income tax rate reflected in the accompanying consolidated statements of operations to the statutory tax rate for the years ended March 31, 2005 and 2004 was as follows:

	2005	2004
Statutory tax rate.....	40.69%	42.05%
Valuation allowance	(140.70)	(18.93)
Change in the effective statutory tax rate due to the revision of the local tax law	—	(5.15)
Difference in the effective statutory tax rate between SMFG and consolidated domestic banking subsidiaries	—	(2.70)
Difference in the effective statutory tax rate between SMFG and consolidated overseas subsidiaries	16.96	—
Equity in earnings of affiliates.....	9.82	(1.47)
Dividends exempted for income tax purposes	4.15	(2.67)
Other.....	0.27	(3.02)
Effective income tax rate	(68.81)%	8.12%

- (3) External based-corporate enterprise taxes

With the implementation of the “Revision of the Local Tax Law” (Legislation No. 9, 2003) on March 31, 2003, a part of the tax basis of enterprise taxes comprises “amount of added value” and “amount of capital” from the fiscal year commenced April 1, 2004. As a result, enterprise taxes that are calculated based on “amount of added value” and “amount of capital” are included in “General and administrative expenses” from the fiscal year ended March 31, 2005 pursuant to “Practical Treatment for Presentation of External Based-Corporate Enterprise Taxes in the Statement of Income” (Accounting Standards Board, Practical Solution Report No. 12).

26. Employee Retirement Benefits

- (1) Outline of employee retirement benefits

Consolidated subsidiaries in Japan have contributory funded defined benefit pension plans such as employee pension plans, qualified pension plans and lump-sum severance indemnity plans. Some domestic consolidated subsidiaries have general type of employee pension plans. They may grant additional benefits in cases where certain requirements are met when employees retire.

A consolidated subsidiary in Japan adopts defined-contribution pension plan. SMBC and some consolidated subsidiaries in Japan contributed some of their marketable equity securities to employee retirement benefit trusts.

(2) Projected benefit obligation

March 31		Millions of yen		Millions of U.S. dollars
		2005	2004	2005
Projected benefit obligation	(A)	¥(891,311)	¥(892,421)	\$(8,305)
Plan assets	(B)	908,453	709,353	8,465
Unfunded projected benefit obligation	(C)=(A)+(B)	17,141	(183,068)	160
Unrecognized net transition obligation from initial application of the new accounting standard	(D)	—	17,876	—
Unrecognized net actuarial gain or loss	(E)	175,153	215,420	1,632
Unrecognized prior service cost	(F)	(69,163)	(78,022)	(645)
Net amount recorded on the consolidated balance sheet	(G)=(C)+(D)+(E)+(F)	123,131	(27,792)	1,147
Prepaid pension cost (other assets)	(H)	157,924	13,049	1,471
Reserve for employee retirement benefits	(G)-(H)	¥ (34,792)	¥ (40,842)	\$ (324)

(a) On January 26, 2004, SMBC received the approval from the Minister of Health, Labor and Welfare for exemption from future retirement benefit obligations with respect to the entrusted portion of the employee pension fund, in accordance with the implementation of the "Defined benefit enterprise pension plan law." As a result, SMBC applied the temporary treatment stipulated in Article 47-2 of "Practical Guidelines of Accounting for Retirement Benefits (Interim Report)" (JICPA's Accounting Committee Report No. 13), and derecognized retirement benefit liabilities on the entrusted portion and plan assets equivalent to the amount to be returned on the day of approval. The amount of expected return of plan assets (minimum legal reserves) was ¥184,014 million at March 31, 2004.

(b) On January 17, 2003, some domestic consolidated subsidiaries received the approval from the Minister of Health, Labor and Welfare for exemption from future retirement benefit obligations with respect to the entrusted portion of the employees pension fund, in accordance with the implementation of the "Defined benefit enterprise pension plan law." On May 1, 2004, the subsidiaries also received the approval from the Minister of Health, Labor and Welfare for exemption from past retirement benefit obligations with respect to the entrusted portion, and adopted defined benefit pension plan.

(c) Plan assets related to the general type of welfare pension plan at March 31, 2005 and 2004, amounted to ¥14,057 million (\$131 million) and ¥32,501 million, respectively, and were not included in the "Plan assets" shown above.

(3) Pension expenses

Year ended March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Service cost	¥22,109	¥25,748	\$206
Interest cost on projected benefit obligation	22,041	32,702	205
Expected return on plan assets	(21,048)	(23,033)	(196)
Amortization of unrecognized net transition obligation from initial application of the new accounting standard	17,876	21,348	166
Amortization of unrecognized net actuarial gain or loss	26,828	35,785	250
Amortization of unrecognized prior service cost	(9,159)	(6,062)	(85)
Other (nonrecurring additional retirement allowance paid and other)	8,139	6,953	76
Pension expenses	66,788	93,442	622
Gains on return of the entrusted portion of employee pension fund	—	(59,095)	—
Total	¥66,788	¥34,347	\$622

(4) Assumptions

The principal assumptions used in determining benefit obligation and pension expenses at or for the years ended March 31, 2005 and 2004 were as follows:

Year ended March 31	2005	2004
Discount rate	1.5% to 2.5%	1.5% to 2.5%
Expected rate of return on plan assets	0.0% to 4.0%	0.0% to 4.0%
Allocation of estimated amount of retirement benefits	Allocated to each period by the straight-line method	Allocated to each period by the straight-line method
Term to amortize unrecognized prior service cost	Mainly 10 years	Mainly 10 years
Term to amortize unrecognized net actuarial gain or loss	Mainly 10 years	Mainly 10 years
Term to amortize unrecognized net transition obligation from initial application of new accounting standard	Mainly 5 years	Mainly 5 years

27. Cash Flows

Assets and liabilities of the companies that were newly consolidated through acquisition of stocks in the fiscal year ended March 31, 2004 were as follows:

Assets and liabilities at the time of consolidation and the expense (net) for acquisition with respect to acquisition of the three companies including former The Kansai Sawayaka Bank, Limited were as follows:

March 31	Millions of yen	
	2004	
Assets	¥800,118	
Loans and bills discounted	593,042	
Liabilities	(724,759)	
Deposits	(682,774)	
Minority interests	(23,450)	
Goodwill	(13,136)	
Acquisition costs for the three companies' stocks (a)	38,773	
Cash and due from banks of the three companies (b)	(29,773)	
Cash expenditure for acquisition of the three companies (a) – (b)	¥ 8,999	

28. Lease Transactions

(1) Financing leases

A summary of assumed amounts of acquisition cost, accumulated depreciation and net book value for financing leases without transfer of ownership at March 31, 2005 and 2004 was as follows:

(a) Lessee side

March 31	Millions of yen						Millions of U.S. dollars		
	2005			2004			2005		
	Acquisition cost	Accumulated depreciation	Net book value	Acquisition cost	Accumulated depreciation	Net book value	Acquisition cost	Accumulated depreciation	Net book value
Equipment	¥4,779	¥2,716	¥2,063	¥11,705	¥6,848	¥4,856	\$44	\$25	\$19
Other	392	234	157	606	357	249	4	2	2
Total	¥5,171	¥2,950	¥2,221	¥12,312	¥7,206	¥5,106	\$48	\$27	\$21

Future minimum lease payments excluding interests at March 31, 2005 and 2004 were as follows:

March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Due within one year	¥ 880	¥2,070	\$ 8
Due after one year	1,437	3,251	14
	¥2,318	¥5,322	\$22

Total lease expenses for the years ended March 31, 2005 and 2004 were ¥1,589 million (\$15 million) and ¥2,296 million, respectively. Assumed depreciation for the years ended March 31, 2005 and 2004 amounted to ¥1,449 million (\$14 million) and ¥2,132 million, respectively. Assumed depreciation is calculated using the straight-line method over the lease term of the respective assets without salvage values. The difference between the minimum lease payments and the acquisition costs of the lease assets represents interest expenses. The allocation of such interest expenses over the lease term is calculated using the effective interest method. Interest expenses for the years ended March 31, 2005 and 2004 amounted to ¥144 million (\$1 million) and ¥162 million, respectively.

(b) Lessor side

March 31	Millions of yen						Millions of U.S. dollars		
	2005			2004			2005		
	Acquisition cost	Accumulated depreciation	Net book value	Acquisition cost	Accumulated depreciation	Net book value	Acquisition cost	Accumulated depreciation	Net book value
Equipment	¥1,911,595	¥1,204,282	¥707,313	¥1,908,945	¥1,197,471	¥711,474	\$17,812	\$11,221	\$6,591
Other	611,354	342,715	268,639	580,899	323,580	257,319	5,697	3,194	2,503
Total	¥2,522,949	¥1,546,997	¥975,952	¥2,489,845	¥1,521,051	¥968,794	\$23,509	\$14,415	\$9,094

Future lease payments receivable excluding interests at March 31, 2005 and 2004 were as follows:

March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Due within one year	¥319,727	¥318,916	\$2,979
Due after one year	668,731	674,752	6,231
	¥988,459	¥993,669	\$9,210

Total lease income for the years ended March 31, 2005 and 2004 was ¥412,550 million (\$3,844 million) and ¥410,953 million, respectively. Depreciation for the years ended March 31, 2005 and 2004 amounted to ¥348,971 million (\$3,252 million) and ¥331,032 million, respectively. Interest income represents the difference between the sum of the lease payments receivable and estimated salvage values, and the acquisition costs of the lease assets. The allocation of such interest income over the lease term is calculated using the effective interest method. Interest income for the years ended March 31, 2005 and 2004 amounted to ¥66,591 million (\$620 million) and ¥60,905 million, respectively.

(2) Operating leases

(a) Lessee side

Future minimum lease payments at March 31, 2005 and 2004 were as follows:

March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Due within one year.....	¥17,692	¥ 17,136	\$165
Due after one year	81,546	83,638	760
	¥99,238	¥100,774	\$925

(b) Lessor side

Future lease payments receivable at March 31, 2005 and 2004 were as follows:

March 31	Millions of yen		Millions of U.S. dollars
	2005	2004	2005
Due within one year.....	¥ 7,584	¥ 4,189	\$ 71
Due after one year	13,623	9,804	127
	¥21,207	¥13,993	\$198

Future lease payments receivable at March 31, 2005 and 2004 amounting to ¥74,176 million (\$691 million) and ¥87,900 million, respectively, on the lessor side referred to in (1) and (2) above were pledged as collateral for borrowings.

29. Market Value of Securities and Money Held in Trust

(1) Securities

The market value of securities at March 31, 2005 and 2004 was as follows:

The amounts shown in the following tables include trading securities, commercial paper and short-term corporate bonds classified as "Trading assets," negotiable certificates of deposit bought classified as "Deposits with banks," and beneficiary claims on loan trusts classified as "Commercial paper and other debt purchased," in addition to "Securities" stated in the consolidated balance sheets.

(a) Securities classified as trading purposes

Total	\$181,765	\$188,253	\$6,488	\$7,467	\$979

Notes: 1. Net unrealized gains at March 31, 2005 include gains of ¥469 million (\$4 million) that is recognized in the fiscal year's earnings because of the application of fair value hedge accounting and gains of ¥82 million (\$1 million) on embedded financial instruments in their entirety that are recognized in the earnings because their embedded derivatives are not measured separately.

Of the total net unrealized gains for 2004, ¥23,452 million is included in the earnings for the year ended March 31, 2004 because of the application of fair value hedge accounting.

2. Consolidated balance sheet amount is calculated as follows:

Stocks	Average market prices during one month before the fiscal year-end
Bonds and other	Market prices at the fiscal year-end

3. Other securities with market value are considered as impaired if the market value decreases materially below the acquisition cost and such decline is not considered as recoverable. The market value is recognized as the consolidated balance sheet amount and the amount of write-down is accounted for as valuation loss for the fiscal year. Valuation loss for the fiscal years ended March 31, 2005 and 2004 was ¥172 million (\$2 million) and ¥5,625 million, respectively. The rule for determining "material decline" is as follows and is based on the classification of issuing company under self-assessment of assets.

Bankrupt/Effectively bankrupt/Potentially bankrupt issuers:	Market value is lower than acquisition cost.
Issuers requiring caution:	Market value is 30% or more lower than acquisition cost.
Normal issuers:	Market value is 50% or more lower than acquisition cost.
Bankrupt issuers:	Issuers that are legally bankrupt or formally declared bankrupt.
Effectively bankrupt issuers:	Issuers that are not legally bankrupt but regarded as substantially bankrupt.
Potentially bankrupt issuers:	Issuers that are not bankrupt now, but are perceived to have a high risk of falling into bankruptcy.
Issuers requiring caution:	Issuers that are identified for close monitoring.
Normal issuers:	Issuers other than the above four categories of issuers.

(d) Held-to-maturity bonds sold during the years ended March 31, 2005 and 2004

Year ended March 31	Millions of yen						Millions of U.S. dollars

Other	221,982	144,433	2,068

(g) Change of classification of securities

In the fiscal year ended March 31, 2004, MINATO changed its investment policy and sold some of the held-to-maturity bonds before their maturities. As a result, MINATO changed the classification of the remaining bonds that MINATO holds, ¥28,281 million, from "held-to-maturity" to "other securities" pursuant to Article 83 of the "Practical Guidelines for Accounting for Financial Instruments" (JICPA Accounting Committee Report No. 14). In addition, ¥12,063 million in reclassified bonds were sold in the fiscal year ended March 31, 2004 and net gains on sale of ¥18 million were recorded.

- Notes: 1. The above transactions are valued at market value and the valuation gains (losses) are accounted for in the consolidated statement of operations. Derivative transactions to which deferred hedge accounting method is applied are not included in the amounts above. Some consolidated overseas subsidiaries account for interest rate derivatives in accordance with local accounting standards. Such transactions are not included in the amounts above. Net unrealized losses at March 31, 2005 amounted to ¥2,344 million (\$22 million). Net unrealized gains at March 31, 2004 amounted to ¥13 million.
2. Market value of transactions listed on exchange is calculated mainly using the closing prices on the Tokyo International Financial Futures Exchange and others. Market value of OTC transactions is calculated mainly using discounted present value and option pricing models.

- Notes: 1. The above transactions are valued at market value and the valuation gains (losses) are accounted for in the consolidated statement of operations. The amounts above do not include the following:
- Derivative transactions to which deferred hedge accounting method is applied;
 - Those that are allotted to financial assets/liabilities denominated in foreign currency and whose market values are already reflected to the consolidated balance sheet; and
 - Those that are allotted to financial assets/liabilities denominated in foreign currency and the financial assets/liabilities are eliminated in the process of consolidation.
- Some consolidated overseas subsidiaries account for currency derivatives in accordance with local accounting standards. Such transactions are not included in the amounts above. Net unrealized gains at March 31, 2005 amounted to ¥698 million (\$7 million). Net unrealized losses at March 31, 2004 amounted to ¥442 million.
- Market value is calculated mainly using discounted present value.
 - Forward foreign exchange and currency options that were formerly revalued at the fiscal year-end are included in the table above from the fiscal year ended March 31, 2004.

Notes: 1. Consolidated ordinary income from overseas operations are presented as counterparts of overseas sales of companies in other industries.

2. The above table shows ordinary income from transactions of overseas branches of SMBC and transactions of overseas consolidated subsidiaries, excluding internal income. These extensive transactions are not categorized by transaction party and the geographic segment information is not presented because such information is not available.

32. Subsequent Events

- (1) The following appropriations of retained earnings of SMFG at March 31, 2005 were approved by the general meeting of shareholders held on June 29, 2005:

	Millions of yen	Millions of U.S. dollars
Cash dividends, ¥3,000 per share on common stock	¥17,607	\$164
¥10,500 per share on preferred stock (Type 1)	367	3
¥28,500 per share on preferred stock (Type 2)	2,850	27
¥13,700 per share on preferred stock (Type 3)	9,521	89
¥135,000 per share on preferred stock (First to Twelfth series Type 4)	6,763	63
¥67,500 per share on preferred stock (Thirteenth series Type 4)	7,228	67
¥728 per share on preferred stock (First series Type 6)	50	0

- (2) On April 27, 2005, SMFG, SMCC and SMBC agreed with NTT DoCoMo, Inc. to form a strategic, business and capital alliance for the launch of a credit-payment service using mobile phones. Pursuant to the agreement, NTT DoCoMo plans to acquire 34% of SMCC's common shares issued and outstanding for approximately ¥98 billion (\$913 million).

Independent Auditors' Report

To the Board of Directors of
Sumitomo Mitsui Financial Group, Inc.

We have audited the accompanying consolidated balance sheets of Sumitomo Mitsui Financial Group, Inc. ("SMFG") and subsidiaries as of March 31, 2005 and 2004, and the related consolidated statements of operations, stockholders' equity and cash flows for the years then ended, expressed in Japanese yen. These consolidated financial statements are the responsibility of SMFG's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of SMFG and subsidiaries as of March 31, 2005 and 2004, and the consolidated results of their operations and their cash flows for the years then ended, in conformity with accounting principles generally accepted in Japan.

The consolidated financial statements as of and for the year ended March 31, 2005 have been translated into United States dollars solely for the convenience of the reader. We have recomputed the translation and, in our opinion, the consolidated financial statements expressed in Japanese yen have been translated into United States dollars on the basis set forth in Note 1 to the consolidated financial statements.

KPMG AZSA & Co.

Tokyo, Japan
June 29, 2005

Summary of Significant Differences between Japanese GAAP and U.S. GAAP

The consolidated financial statements of SMFG and its subsidiaries presented in this annual report conform with generally accepted accounting principles in Japan (“Japanese GAAP”). Such principles vary from the accounting principles generally accepted in the United States (“U.S. GAAP”). Significant differences between Japanese GAAP and U.S. GAAP are summarized below. These differences are not necessarily the only differences and other differences may exist:

Japanese GAAP

Consolidated Subsidiaries

The consolidated financial statements include all enterprises that are controlled by the parent, irrespective of the percentage of the voting shares owned.

Control is defined as the power to govern the decision making body of an enterprise.

Equity Method of Accounting

Affiliates are enterprises over which SMFG has material influence with respect to their financial and operating policies.

Investments in nonconsolidated subsidiaries or affiliates are accounted for by the equity method in the consolidated financial statements.

U.S. GAAP

Consolidated Subsidiaries

Statement of Financial Accounting Standards (“SFAS”) No. 94 requires a parent company to consolidate all of its majority-owned subsidiaries in which it holds more than 50% of the outstanding voting shares, subject to certain exceptions related to temporary control or the parent company’s inability to exercise control over the subsidiary.

SFAS No. 140 defines the criteria of a qualifying special purpose entity (“QSPE”), a trust or other legal vehicle that may be the recipient of a transfer of financial assets from an enterprise and that is not to be consolidated in the financial statements of a transferor or its affiliates. An SPE is qualifying only if it is demonstrably distinct from the transferor and its activities are strictly limited. A QSPE generally may hold only passive financial assets and may be permitted to dispose of them only in automatic response to certain objectively-defined events. Generally, for nonconsolidation of non-qualifying SPEs to be appropriate, the majority owners of the SPE must be independent third parties who have made a substantive capital investment in the SPE, have control of the SPE, and have substantive risks and rewards of ownership of the assets of the SPE.

FASB Interpretation No. 46R (“FIN 46R”) addresses consolidation of what are termed variable interest entities, where the voting interest approach is not effective in identifying controlling financial interests in entities that are not controllable through voting interests or in which the equity investors do not bear the residual economic risks. An entity is considered a variable interest entity that shall be subject to consolidation if (i) the entity’s total equity at risk is insufficient to permit the entity to finance its activities without additional subordinated support, or (ii) as a group, the holders of the equity investment at risk lack any of three characteristics of a controlling financial interest. An enterprise shall consolidate a variable interest entity if that enterprise has a variable interest, that will absorb a majority of the entity’s expected losses, receive a majority of the entity’s residual returns, or both, where variable interests are defined as contractual, ownership or other pecuniary interests in an entity that change with changes in the fair value of the entity’s net assets exclusive of variable interests.

Equity Method of Accounting

Investments representing ownership of 20% to 50% of the outstanding voting shares are accounted for by the equity method. In addition, investments representing ownership of less than 20% are accounted for by the equity method if the investor has the ability to exercise significant influence over the entity in which it invests.

Business Combinations

Accounting treatment that is similar to the pooling-of-interest method is normally used for business combinations in accordance with the Commercial Code of Japan. Under the accounting treatment, the balance sheet items of the acquired company are combined with those of the acquiring company at their carrying amount or fair value.

The Accounting Standards Board of Japan published “Opinion Concerning Establishment of Accounting Standard for Business Combination” in October 2003. According to the opinion, from the fiscal year starting April 1, 2006, new accounting standard is required to be applied. Under the new accounting standard, the purchase method is the basic method. The pooling-of-interests-method is applied only to exceptionally limited circumstances when strict criteria are met.

Securities

Debt securities that consolidated subsidiaries have the intent and ability to hold to maturity (held-to-maturity securities) are carried at amortized cost. Trading securities are carried at market value with gains or losses included in the current period income. Other securities (available-for-sale securities) are carried at fair value with unrealized gains or losses recorded directly to stockholders' equity, net of taxes.

Accounting for Derivatives and Hedging Activities

Derivative instruments are carried at fair value with changes included in the current period income unless certain hedge accounting criteria are met. In general, if derivative instruments are used as hedges and meet certain hedging criteria, a company defers recognition of gains or losses resulting from changes in fair value of derivative instruments as either an asset or liability until the related losses or gains on the hedged items are recognized. As a result of assessing and measuring effectiveness of hedges, changes in fair values of ineffective portion of derivatives can be deferred if only the total portion is recognized as effective.

As for fair value hedge accounting to hedging transactions for reducing the exposure to market volatility of bonds classified as other securities, a company can select either of following treatment.

- (a) A company defers recognition of gains or losses resulting from changes in fair value of derivative instruments as either an asset or liability until the related losses or gains on the hedged items are recognized.
- (b) A company recognizes gains or losses resulting from changes in fair value of derivative instruments in earnings in the period of change together with the offsetting fair value loss or gain on the hedged item.

A bank was permitted to adopt “Macro Hedge Accounting” as hedge accounting method, under which the bank manages the total interest rate risk arising from various financial assets and liabilities as a whole by using financial derivative transactions. The treatment was temporarily permitted until fiscal year starting April 1, 2002.

Business Combinations

SFAS No. 141, Accounting for Business Combinations, prescribes the purchase method for all business combinations. The purchase method requires the valuation of the acquired assets and liabilities based on fair market values at the time of combination. The difference between the fair market values of the net assets and the consideration given represents goodwill.

Securities

Investments in marketable equity and all debt securities are classified at acquisition according to management's intent, into one of the following categories: trading, available-for-sale, or held-to-maturity. Trading securities are marked to fair value, with the resulting unrealized gain or loss recognized in income. Available-for-sale securities should be marked to fair value, with the resulting unrealized gain or loss recorded in other comprehensive income. Held-to-maturity securities are carried at amortized cost. Other than temporary declines in value are charged to earnings when incurred.

Accounting for Derivatives and Hedging Activities

SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities requires the recognition of all derivatives as assets or liabilities in the balance sheet measured at fair value. Changes in the fair values of derivatives are included in earnings unless the derivative qualifies for hedge accounting criteria. As a result of assessing and measuring effectiveness of hedges, changes in fair values of ineffective portion of derivatives are included in earnings and to be disclosed. The changes in the fair value of derivatives qualifying for hedge accounting criteria depend on the intended use.

For derivatives designated as hedging the exposure to changes in the fair value of an asset or liability or a firm commitment, the gain or loss is recognized in earnings in the period of change together with the offsetting fair value loss or gain on the hedged item.

For derivatives designated as hedging the exposure to variable cash flows of a forecasted transaction, the effective portion of the derivative's gain or loss is initially reported as a component of other comprehensive income. Gains and losses of cash flow hedges included in other comprehensive income are reclassified into earnings in the same period or periods during which the hedged cash flows affects earnings.

For derivatives designated as hedging the foreign currency exposure of a net investment in a foreign operation, the gain or loss is reported in other comprehensive income as part of the cumulative translation adjustment.

SFAS No. 133 was partially amended by SFAS No. 138 and SFAS No. 149.

From the fiscal year starting April 1, 2003, Japanese banks are required to apply the basic provision of JICPA Industry Audit Committee Report No. 24 to hedges on groups of large-volume, small-value monetary and debts with similar risk characteristics.

Accounting for Sales of Loans with Recourse

Certain loan participations which meet specified criteria are allowed to be accounted for as sales, even though the loans are not legally isolated from the transferor.

Restructured Loans

Discounted present value had not been historically used to measure impairment of a loan. Reserves for restructured loans were computed based on historical loss experience.

From the fiscal year ended at March 31, 2003, pursuant to "Audit considerations with respect to the discounted cash flow method used to determine allowance for credit losses by banks and other financial institutions" (issued by JICPA on February 24, 2003), major banks are required to provide reserves for possible loan losses using the Discounted Cash Flows method as follows for loans to large borrowers classified as "Past due loans (3 months or more)" or "Restructured loans":

- (a) A bank rationally estimates the cash flows of principal and interest, and measures their present values by discounting the cash flows using the initial contractual interest rate.
- (b) A bank recognizes the difference between the present value and its book value as estimated losses and provides reserve for possible loan losses.

Accrued Interest on Non-Performing Loans

Consolidated subsidiaries place into the non-accrual status loans which management assesses as "Bankrupt," "Effectively Bankrupt" or "Potentially Bankrupt." Accrued interest related to such loans is written-off.

Impairment of Long-Lived Assets

In August 2002, the Business Accounting Deliberation Council issued "Opinion Concerning Establishment of Accounting Standard for Impairment of Fixed Assets." The opinion requires that an impairment loss be recognized only if there are indications of impairment loss and the carrying amount of a fixed asset is lower than its aggregate undiscounted future cash flows. The amount of impairment loss to be recognized is the difference between the carrying amount

Accounting for Sales of Loans with Recourse

Under U.S. GAAP, pursuant to SFAS No. 140, financial assets are generally recorded as sold and removed from the balance sheet only when the following conditions have been met: legal title has passed; the financial assets are beyond the reach of the transferor's creditors, even in bankruptcy or receivership; the purchaser obtains the asset free of conditions that constrain it from taking advantage of the right to pledge or sell the asset; and the transferor does not maintain effective control over the assets as defined. Sales that are not free of such constraints are recorded as a financing. A transfer of assets qualifying as a sale under U.S. GAAP but in connection with which the seller has assumed a limited recourse obligation would result in the recording of a liability for the estimated recourse.

Restructured Loans

SFAS No. 114 requires that impairment of a loan, including a troubled debt restructuring, be measured based on the present value of expected future cash flows discounted at the loan's effective interest rate or, as practicably expedient, at the loan's observable market price or the fair value of the collateral if the loan is collateral-dependent.

Accrued Interest on Non-Performing Loans

Loans are placed on non-accrual status when they are deemed uncollectible based on management's assessment. Accrued interest related to such loans is reversed against interest income.

Income is generally recognized on such loans using either a cost-recovery method, cash-basis method or some combination of those methods.

Impairment of Long-Lived Assets

SFAS No. 144 requires that an impairment loss be recognized only if the carrying amount of a long-lived asset is not recoverable from its undiscounted future cash flows and be measured as the difference between the carrying amount and fair value of the long-lived assets. The impairment loss shall be included in the current period income.

of fixed asset and the greater of: (i) the aggregate discounted future cash flows, (ii) the expected resale price of the fixed assets. The impairment loss shall be included in the current period income.

This new accounting standard becomes effective for fiscal years beginning after March 31, 2005. Earlier adoption is permitted for the fiscal year ended March 31, 2004.

Goodwill

Goodwill that is the excess of investment cost over the parent's share of the underlying equity in net assets of the subsidiary at the date of acquisition and that is created in consolidation procedures shall be amortized within 20 years.

According to the "Opinion Concerning Establishment of Accounting Standard for Business Combination" issued in October 2003, goodwill is strictly amortized within 20 years using a systematic method, with impairment test in addition.

Employee Pension and Post-Retirement Benefits

Reserve for employee retirement benefit is recorded based on an actuarial computation, which uses the present value of the projected benefit obligation and pension assets, based on an employee's credited years of services at the balance sheet date. Contributions are charged to the income statement as a decrease in pension costs when paid.

All unrecognized actuarial gains/losses are strictly subject to amortization.

There is no requirement of additional minimum liability under Japanese GAAP.

Accounting for the transfer of the Substitutional Portion of Employee Pension Fund Liabilities

In general, accounting for any gain on transfer to the Japanese Government of the Substitutional Portion of Employee Pension Fund Liabilities is recognized when the obligation is settled and actually transferred. As an alternative, the gain on the return of the entrusted portion of the employee pension fund is allowed if the transfer is resolved by board of delegates and there are plan assets equivalent to the amount that should be transferred to the Japanese Government. This treatment is allowed from June 15, 2001 to March 31, 2004.

Earned Surplus Reserve

Under the Banking Law of Japan, an amount equivalent to at least 20% of cash disbursements paid was appropriated and was set aside as earned surplus reserve in the retained earnings.

Effective October 1, 2001, such earned surplus reserve is recorded until total of both earned surplus reserve and capital surplus equals the amount of common stock. The excess of the total amount over the amount of common stock may be transferred to retained earnings by resolution of stockholders.

Goodwill

Under SFAS No. 142, goodwill is not amortized but tested at least annually for impairment.

Employee Pension and Post-Retirement Benefits

U.S. GAAP generally requires the use of actuarial methods for measuring annual employee benefit costs, including the use of assumptions as to the rate of salary progression and discount rate, the amortization of prior service costs over the remaining service period of active employees and the immediate recognition of a liability when the accumulated benefit obligation exceeds the fair market value of plan assets.

Unrecognized actuarial gains/losses that are equal to the greater of 10% of the present value of benefit obligation (PBO) and 10% of the fair value (market related value) of plan assets, do not need to be amortized (corridor amortization).

Liability that is at least equal to unfunded accumulated benefit obligation is recognized as additional minimum liability.

Accounting for the transfer of the Substitutional Portion of Employee Pension Fund Liabilities

In accordance with Emerging Issues Task Force Issue No. 03-02 "Accounting for the Transfer to the Japanese Government of the Substitutional Portion of Employee Pension Fund Liabilities," the entire separation process and transfer will be accounted for at the time the transfer of the benefit obligation and related plan assets is completed. The ultimate determination of any gain or loss will be made as of the date the transfer has been completed in accordance with Statement of Financial Accounting Standards No. 88 "Employers' Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits."

Earned Surplus Reserve

Such earned surplus reserve is not provided for under U.S. GAAP.

Land Revaluation Excess

Land which had been recorded at acquired cost was allowed to be revalued at fair value at one time during a fiscal year from March 31, 1998 to March 31, 2002. The resulting gains were recorded in land revaluation excess as a separate component in the stockholders' equity, net of tax.

The land shall not be revalued after the initial revaluation even if the fair value declined.

From the fiscal year commencing after March 31, 2005, Accounting Standard for Impairment of Fixed Assets will become effective. This new accounting standard stipulates that when the impairment loss is recognized on revaluated land under certain conditions, corresponding land revaluation excess should be transferred to retained earnings.

Guarantees

Notional amounts of guarantees, including standby letters of credit and the related reimbursement obligations of customers, are presented on the balance sheet with assets of equal amounts.

Loan Fees

Loan origination fees and costs are recognized when income is received and costs are incurred.

Directors' Bonuses

Directors' bonuses are charged directly to retained earnings by resolution of stockholders.

Leases

Unless transfer of ownership occurs, financing leases may be accounted for as operating leases accompanied with sufficient footnote disclosure.

Comprehensive Income

There are no specific accounting principles for reporting comprehensive income.

Land Revaluation Excess

Such land revaluation excess is not permissible.

Guarantees

In November 2002, the Financial Accounting Standards Board (FASB) issued interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others," which, among other provisions, applies to guarantees issued or modified after December 31, 2002. The issuer of a guarantee is required to recognize, at the inception of the guarantee, an initial liability for fair value of its obligations under the guarantee basically. The above-mentioned treatment is required for letters, such as financial standby letters of credit and contracts that contingently require the guarantor to make payments to the guaranteed party.

Loan Fees

Loan origination fees are deferred and recognized over the life of the related loan as an adjustment of yield based on the effective interest method.

Certain direct loan origination costs are also deferred and recognized over the life of the related loan as a reduction of the loan's yield based on the effective interest method.

Directors' Bonuses

Directors' compensation is expensed on an accrual basis as earned.

Leases

Leases are classified as either capital lease or operating lease, based on specified criteria. A lease which transfers substantially all of the benefits and risks of ownership to the lessee is reported as a capital lease. Other leases are accounted for as operating leases.

Comprehensive Income

U.S. GAAP requires that all items that are required to be recognized under accounting standards as components of comprehensive income be reported in a financial statement that is displayed with the same prominence as other financial statements. Comprehensive income includes all changes in stockholders' equity during an accounting period except those resulting from investments by or distributions to owners, including certain items not included in the current results of operations.

Notes: 1. Domestic operations comprise the operations of SMFG, its domestic consolidated banking subsidiaries (excluding overseas branches) and other domestic consolidated subsidiaries. Overseas operations comprise the operations of the overseas branches of domestic consolidated banking subsidiaries and overseas consolidated subsidiaries.

2. Income and expenses resulting from money held in trust are included in "Other income" and "Other expenses." Therefore, "Interest expenses" are shown after deduction of expenses (2005, ¥3 million; 2004, ¥21 million) related to the management of money held in trust.

3. Intersegment transactions are reported in "Elimination and unallocated corporate assets" column.

Bonds	3,623,970	55,676	1.54	2,921,709	44,624	1.53

Notes: 1. Domestic operations comprise the operations of SMFG, its domestic consolidated banking subsidiaries (excluding overseas branches) and other domestic consolidated subsidiaries.

2. In principle, average balances are calculated by using daily balances. However, some domestic consolidated subsidiaries use weekly, monthly or semiannual balances instead.

3. "Interest-earning assets" are shown after deduction of the average balance of noninterest earning deposits (2005, ¥1,674,507 million; 2004, ¥1,322,675 million).

4. Income and expenses resulting from money held in trust are included in "Other income" and "Other expenses." Therefore, "Interest-earning assets" are shown after deduction of the average balance of money held in trust (2005, ¥3,629 million; 2004, ¥21,933 million). "Interest-bearing liabilities" are shown after deduction of amounts equivalent to the average balance of money held in trust (2005, ¥3,629 million; 2004, ¥21,933 million) and corresponding interest (2005, ¥3 million; 2004, ¥21 million).

Bonds	3,487,399	54,426	1.56	2,781,324	43,278	1.56

Notes: 1. Domestic operations comprise the operations of SMBC (excluding overseas branches) and its domestic consolidated subsidiaries.

2. In principle, average balances are calculated by using daily balances. However, some domestic consolidated subsidiaries use weekly, monthly or semiannual balances instead.

3. "Interest-earning assets" are shown after deduction of the average balance of noninterest earning deposits (2005, ¥1,670,430 million; 2004, ¥1,318,691 million).

4. Income and expenses resulting from money held in trust are included in "Other income" and "Other expenses." Therefore, "Interest-earning assets" are shown after deduction of the average balance of money held in trust (2005, ¥3,629 million; 2004, ¥21,933 million). "Interest-bearing liabilities" are shown after deduction of amounts equivalent to the average balance of money held in trust (2005, ¥3,629 million; 2004, ¥21,933 million) and corresponding interest (2005, ¥3 million; 2004, ¥21 million).

Total.....	¥2,186,739	¥3,229,219	¥5,683,134

Notes: Definition of risk-monitored loan categories

1. Bankrupt loans: Credits for which accrued interest is not accounted in revenue; credits extended to borrowers that are undergoing bankruptcy, corporate reorganization and rehabilitation proceedings or debtors receiving orders of disposition by suspension of business at bill clearinghouses
2. Non-accrual loans: Credits for which accrued interest is not accounted in revenue; credits, excluding loans to bankrupt borrowers and loans with grace for interest payment to assist in corporate reorganization or to support business
3. Past due loans (3 months or more): Loans with payment of principal or interest in arrears for more than 3 months, calculated from the day following the contractual due date, excluding borrowers in categories 1. and 2.
4. Restructured loans: Loans to borrowers in severe financial condition given certain favorable terms and conditions to assist in corporate rehabilitation or to support business, excluding borrowers in categories 1. through 3.

Gross banking profit.....	¥1,182,811	¥340,049	¥1,522,861	¥1,135,616	¥448,510	¥1,584,127
Gross banking profit rate (%)	1.75%	2.61%	1.92%	1.62%	3.70%	1.95%

- Notes: 1. Domestic operations include yen-denominated transactions by domestic branches, while international operations include foreign-currency-denominated transactions by domestic branches and operations by overseas branches. Yen-denominated nonresident transactions and Japan offshore banking accounts are included in international operations.
2. "Interest expenses" are shown after deduction of amounts equivalent to interest expenses on money held in trust (2005, ¥3 million; 2004, ¥21 million).
3. Figures in brackets [] indicate interest payments between domestic and international operations. As net interest figures are shown for interest rate swaps and similar instruments, some figures for domestic and international operations do not add up to their sums.
4. "Total" column for "Other operating income" and "Other operating expenses" are lower than the corresponding combined sums under "Domestic operations" and "International operations" (2005, by ¥1,834 million; 2004, by ¥3,734 million). This is because income figures for financial derivatives are given net.
5. Gross banking profit rate = Gross banking profit / Average balance of interest-earning assets x 100

Bonds	3,572,980	60,483	1.69	2,867,421	49,441	1.72

Notes: 1. "Interest-earning assets" are shown after deduction of the average balance of noninterest earning deposits (2005, ¥1,596,906 million; 2004, ¥1,278,178 million). "Interest-bearing liabilities" are shown after deduction of amounts equivalent to the average balance of money held in trust (2005, ¥3,629 million; 2004, ¥21,921 million) and corresponding interest (2005, ¥3 million; 2004, ¥21 million).

2. Figures in the table above indicate the net average balances of amounts adjusted for interdepartmental lending and borrowing activities between domestic and international operations and related interest expenses.

3. Bond interest includes amortization of discount on bonds.

Risk-Monitored Loans

March 31	Millions of yen		
	2005	2004	2003
Bankrupt loans.....	¥ 45,931	¥ 67,183	¥ 172,403
Non-accrual loans.....	1,238,022	1,460,787	2,390,173
Past due loans (3 months or more).....	26,902	47,618	114,756
Restructured loans.....	425,006	1,199,301	2,492,199
Total.....	¥1,735,863	¥2,774,889	¥5,169,531

Notes: **Definition of risk-monitored loan categories**

1. Bankrupt loans: Credits for which accrued interest is not accounted in revenue; credits extended to borrowers that are undergoing bankruptcy, corporate reorganization and rehabilitation proceedings or debtors receiving orders of disposition by suspension of business at bill clearinghouses
2. Non-accrual loans: Credits for which accrued interest is not accounted in revenue; credits, excluding loans to bankrupt borrowers and loans with grace for interest payment to assist in corporate reorganization or to support business
3. Past due loans (3 months or more): Loans with payment of principal or interest in arrears for more than 3 months, calculated from the day following the contractual due date, excluding borrowers in categories 1. and 2.
4. Restructured loans: Loans to borrowers in severe financial condition given certain favorable terms and conditions to assist in corporate rehabilitation or to support business, excluding borrowers in categories 1. through 3.

Problem Assets Based on the Financial Reconstruction Law

March 31	Billions of yen		
	2005	2004	2003
Bankrupt and quasi-bankrupt assets.....	¥ 448.3	¥ 361.6	¥ 524.9
Doubtful assets.....	924.4	1,202.7	2,129.5
Substandard loans.....	451.9	1,246.9	2,606.9
Total of problem assets.....	¥ 1,824.6	¥ 2,811.2	¥ 5,261.3
Normal assets.....	¥53,452.6	¥52,874.4	¥57,313.4
Total.....	¥55,277.2	¥55,685.6	¥62,574.7

Notes: **Definition of problem asset categories**

These assets are disclosed based on the provisions of Article 7 of the Financial Reconstruction Law (Law No. 132 of 1998) and classified into the 4 categories based on financial position and business performance of obligors in accordance with Article 6 of the Law. Assets in question include loans and bills discounted, foreign exchanges, accrued interest, and advance payment in "other assets," customers' liabilities for acceptance and guarantees, and securities lent under the loan for consumption or leasing agreements.

1. Bankrupt and quasi-bankrupt assets: Credits to borrowers undergoing bankruptcy, corporate reorganization, and rehabilitation proceedings, as well as claims of a similar nature
2. Doubtful assets: Credits for which final collection of principal and interest in line with original agreements is highly improbable due to deterioration of financial position and business performance, but not insolvency of the borrower
3. Substandard loans: Past due loans (3 months or more) and restructured loans, excluding 1. and 2.
4. Normal assets: Credits to borrowers with good business performance and in financial standing without identified problems and not classified into the three categories above

Remarks:

March 30, 2001:	Pursuant to the resolution of the Extraordinary General Meeting of Shareholders held on February 26, 2001, the former Wakashio Bank retired 383,380 shares after acquisition without compensation in order to reduce capital and write off losses carried forward from the previous fiscal year. The difference between the amount of capital reduction and the amount of losses written off is included in "Capital reserve" as gain on capital reduction.
June 28, 2001:	Compensation for the deficit
March 13, 2003:	Allotment to third parties: Common stock: 1,245 thousand shares Issue price: ¥51,600 Capitalization: ¥25,800
March 14, 2003:	Allotment to third parties: Common stock: 1,080 thousand shares Issue price: ¥51,600 Capitalization: ¥25,800
March 17, 2003:	Merger with Sumitomo Mitsui Banking Corporation (merger ratio: 1-to-0.007)
April 1, 2004:	Reduction in capital stock due to a corporate split resulting from the spin-off of certain subsidiaries.
September 21, 2004:	Exchange of stock due to a restructuring of Group companies
March 30, 2005:	Allotment to third parties: Preferred stock (1st series Type 6): 70 thousand shares Issue price: ¥3,000,000 Capitalization: ¥1,500,000
April 1, 2004 — March 31, 2005:	Conversion of 32 thousand shares of preferred stock (Type 1) and 105 thousand shares of preferred stock (Type 3) to 401 thousand shares of common stock

The following table shows total number of shares issued and outstanding, capital stock, and capital reserve of the former SMBC for the period up to March 16, 2003.
