Sumitomo Mitsui Financial Group, Inc. (2017 Green Bond)

Type of Engagement: Annual Review Date: 12 March 2024 Engagement Team: Akshay Chandrakapure, <u>akshay.chandrakapure@morningstar.com</u> Sidharth P R, <u>sidharth.pr@morningstar.com</u>

Introduction

In 2017, Sumitomo Mitsui Financial Group, Inc. ("SMFG") issued a green bond aimed at financing projects related to Renewable Energy, Energy Efficiency, Green Buildings, Clean Transportation, and/or Pollution Prevention & Control (EUR 500 million 7-Year Green Bond, hereinafter the "2017 Green Bond"). As of 31 December 2023, the proceeds were fully allocated to renewable energy projects. In 2024, SMFG engaged Sustainalytics to review the projects funded through the 2017 Green Bond and assess whether the projects (the "Nominated Projects") met the Use of Proceeds criteria and the Reporting commitments outlined in the SMFG Green Bond Framework (the "Framework"). Sustainalytics provided a Second-Party Opinion on the Framework in September 2017.¹ This is Sustainalytics' seventh annual review of SMFG's 2017 Green Bond following the previous review in June 2018², May 2019³, July 2020⁴, May 2021⁵, June 2022⁶, and May 2023⁷.

Evaluation Criteria

Sustainalytics evaluated the Nominated Projects based on whether they:

- 1. Meet the use of proceeds and eligibility criteria defined in the Framework; and
- 2. Reported on at least one key performance indicator (KPI) for each use of proceeds category defined in the Framework.

Use of Proceeds Category	Eligibility Criteria	Key Performance Indicators	
Renewable Energy	 The development, construction and operation of facilities that generate or transmit renewable energy, including: Solar Energy Wind Energy Geothermal energy iv. Biomass energy 	i. Tonnes of CO ₂ emissions equivalent avoided

Issuer's Responsibility

SMFG is responsible for providing accurate information and documentation relating to the details of the funded projects, including descriptions of projects, amounts allocated and project impact.

Independence and Quality Control

Sustainalytics, a leading provider of ESG research and ratings, conducted the verification of the use of proceeds from the 2017 Green Bond. The work undertaken as part of this engagement included collection of documentation from SMFG and review of said documentation to assess conformance with the Framework.

Sustainalytics relied on the information and the facts presented by SMFG. Sustainalytics is not responsible nor shall it be held liable for any inaccuracies in the opinions, findings or conclusions herein due to incorrect or incomplete data provided by SMFG.

Sustainalytics made all efforts to ensure the highest quality and rigor during its assessment process and enlisted its Sustainability Bonds Review Committee to provide oversight of the review.

Conclusion

Based on the limited assurance procedures conducted,⁸ nothing has come to Sustainalytics' attention that causes us to believe that, in all material respects, the reviewed projects do not conform with the use of proceeds criteria and reporting commitments in the Framework. SMFG has disclosed to Sustainalytics that the proceeds from the green bond were fully allocated as of 31 December 2023.

Detailed Findings

Table 2: Detailed Findings

Framework Requirements	Procedure Performed	Factual Findings	Error or Exceptions Identified
Use of Proceeds Criteria	Verification of Nominated Projects to determine alignment with the use of proceeds criteria outlined in the Framework.	All projects reviewed complied with the use of proceeds criteria.	None
Reporting Criteria	Verification of Nominated Projects to determine if impact was reported in line with the KPIs outlined in the Framework.	All projects reviewed reported on at least one KPI per use of proceeds category.	None

⁸ Sustainalytics' limited assurance process includes reviewing documentation relating to details of projects, as provided by the issuing entity, which is responsible for providing accurate information. These may include descriptions of projects, estimated and realized costs, and reported impact. Sustainalytics has not conducted on-site visits to projects.

Appendix

	Sub-		Reported Impact		
Project Category		Number of Projects	CO ₂ emission reduction amount (t-CO ₂ e) ¹⁰	CO ₂ emission reduction amount (SMFG's contribution) (t-CO ₂ e) ¹¹	Loan Balance (EUR millions) ⁹
	Solar Energy	8	409,358	138,850	
Renewable Energy	Wind Energy	7	1,155,435	107,285	
	Wind and Solar	1	1,304,843	183,027	
Total 16		16	2,869,637	429,161	529
Total Net Proceeds from the Green Bond Issuance					500
Total Net Proceeds Unallocated					0

Appendix 1: Allocation and Reported Impact

⁹ The loan balance is rounded to the nearest million. Converted to EUR with the FX rate of 29 December 2023.

¹⁰ Estimated Annual Green Impact (CO2 emissions reduced) is calculated by the Japan Research Institute, using inputs from various public data sources.

¹¹ The amount is calculated based on relevant financing proportion by Sumitomo Mitsui Banking Corporation (SMBC) to each project.
