Notes: 1. The figures above include negotiable certificates of deposit in "Cash and due from banks" and beneficiary claims on loan trust in "Monetary claims bought."

 "Accounting Standard for Fair Value Measurement" (ASBJ Statement No.30) and "Implementation Guidance on Accounting Standard for Fair Value Measurement" (ASBJ Guidance No.31) are applied from the fiscal year ending March 31, 2021.
 Due to the application, the net unrealized gains (losses) for the six months ended September 30, 2020 are measured based on market prices of the securities as

of the balance sheet date. For the year ended March 31,2020, stocks within Other securities and foreign stocks within Others of Other securities are measured at the average market price during the final month of the period. The rest of the securities are measured at market prices as of the balance sheet date.

3. Other securities and other money held in trust are measured at market prices. Unrealized gains (losses) indicate the difference between the acquisition costs (or amortized costs) and the balance sheet amounts.

Net unrealized gains (losses) on Other securities include gains (losses) which are recognized in the statements of income by applying fair value hedge accounting and accordingly not recorded directly to Net assets. Losses of 8,495 million yen and losses of 26,403 million yen were recognized in the statements of income for the six months ended September 30, 2020 and for the year ended March 31, 2020, respectively.
