

Liquidity Coverage Ratio Information (Consolidated)

Sumitomo Mitsui Banking Corporation and Subsidiaries

Since March 31, 2015, the “Liquidity Coverage Ratio” (hereinafter referred to as “LCR”), the liquidity ratio regulation under the Basel III, has been introduced in Japan. In addition to the application of uniform international standards, SMBC calculates its consolidated LCR using the calculation formula stipulated in the “Criteria for Evaluating the Soundness of Liquidity Status Set Forth by a Bank as a Benchmark for Judging its Soundness of Management, Based on the Provision of Article 14-2 of the Banking Act” (Notification No. 60 issued by the Japanese Financial Services Agency in 2014; hereinafter referred to as the “Liquidity Ratio Notification”).

■ Disclosure of Qualitative Information about Liquidity Coverage Ratio

1. Intra-period Changes in Consolidated LCR

As described on the following page, the LCR has remained stable since the introduction of the liquidity ratio regulation on March 31, 2015.

2. Assessment of Consolidated LCR

The Liquidity Ratio Notification stipulates the minimum requirement of the LCR at 100%. The LCR of SMBC (consolidated) exceeds the minimum requirements of the LCR, having no cause for concern. In terms of the future LCR forecasts, SMBC does not expect significant deviations from the disclosed ratios. In addition, the actual LCR does not differ significantly from the initial forecast.

3. Composition of High-Quality Liquid Assets

Regarding the high-quality liquid assets allowed to be included in the calculation, there are no significant changes in locations and properties of currency denominations, categories and so on. In addition, in respect of major currencies (those of which the aggregate amount of liabilities denominated in a certain currency accounts for 5% or more of SMBC's total liabilities on the consolidated basis), there is no significant mismatch in currency denomination between the total amount of the high-quality liquid assets allowed to be included in the calculation and the amount of net cash outflows.

4. Other Information Concerning Consolidated LCR

SMBC has not applied “special provisions concerning qualifying operational deposits” prescribed in Article 29 of the Liquidity Ratio Notification and “increased liquidity needs related to market valuation changes on derivative or other transactions simulated through Scenario Approach” prescribed in Article 38 of the Liquidity Ratio Notification. Meanwhile, SMBC records “cash outflows related to small-sized consolidated subsidiaries,” etc. under “cash outflows based on other contracts” prescribed in Article 60 of the Liquidity Ratio Notification.
